**THE RADIO**  
The radio has already established itself in the national life. It has passed through the luxury stage with one great bound and is now looked upon as practically a necessity. It is no longer a toy, either mechanically or in use. It is, to some degree re-establishing the home in that it tends to keep members of the family under the roof tree nights. It is entertainment, education, material usefulness combined. We live in an age of wonders and the radio is one of the greatest wonders of them all.

Fine for catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

### Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly. Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever. Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

A meeting of the shareholders has been called for this week to ratify the action of the directors. In the course of the next few days members of the committee will be calling on the citizens for subscriptions to their new stock issue.

### HELD ENJOYABLE BIRTHDAY PARTY

A most enjoyable birthday party was held on March 17th at the home of Rev. A. W. Brown, in honor of their eldest son, Arthur's fourteenth birthday. The Trail Rangers of the Methodist church, with a few friends numbering about eighteen were present. The Trail Rangers met at 7.30 o'clock and conducted their regular meeting, after which Sydney Brown, on behalf of the club, presented Arthur with a beautiful Eversharp pen in honor of his birthday. Arthur was taken completely by surprise and thanked the boys for their remembrance. The meeting adjourned after which supper was served. The table looked very beautiful with decorations of green and white and streamers extending from the chandelier to the four corners. A beautiful birthday cake with all decorations was the centre decoration of the table with all kinds of goodies for the boys. The evening was very pleasantly spent with games and music.

## WITH THE BOY SCOUTS

SCOUT NOTES

During the past week the Scouts have been very busy at their second class tests, eighteen having passed Scout's Pace and six the compass. The contest which has been running during the month of March closed Friday evening, with the Eagles leading with a score of 211 pts; then the Foxes with 187 pts, the Owls with 175 pts, and the Beavers with 174 pts. The Rev. L. H. MacLean was with us at our Friday meeting, and spoke for a few minutes. There was a full attendance on Friday night. Although it is some time yet before summer camp, all are looking forward to it. Now that a cut has been obtained to head our notes, we hope to have notes published each week in our two local newspapers, to whom we are deeply grateful for their interest.

During the month of April, there will be another Patrol Competition similar to the one carried on during March. We are now meeting at the Temperance Hall which is more roomy than our former quarters, and gives better opportunity for active work.

## Substitute For Gasoline is Successful

Paris, March 24—Remarkable claims are made for a new automobile fuel; named "Iroline," after its discoverer; 15-year-old Irene Laurent daughter of a well-known French chemist. The product, which is understood to have for its basis a solution of sugar; is said to cost less and go farther than any other of the so-called substitutes for gasoline yet tried.

A party of prominent automobile engineers, who tested the new fuel in a long run on an ordinary machine are quoted as expressing themselves as astonished by the result. The "Iroline" used in the test was made the night before by the chemist, Laurent; in his own kitchen. The only modification made in the automobile was the attachment of a vaporizer to the exhaust pipe. It is explained by heated.
