

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and Rheumatism, Lumbago, Sciatica, Neuritis, Aspirin—the genuine Aspirin—take Aspirin marked with the Bayer Cross, or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin—prescribed by physicians for over nine years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—Bayer! You must say "Bayer!"

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturer of Monoclonalacetate of Salicylic Acid. While it is well known that Aspirin means Bayer, manufacturers, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1916, Canada East was separated from Canada West, the dividing line being Port Arthur. Even in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

In all the various departments the record. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the same rate of growth has been re-

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

position which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

PROPOSAL FOR GAS

To the Editor of The Journal:

Sir: Seeing that the city has by the Legislature, been allowed further borrowing power, of which no doubt our rulers will soon avail themselves, it has occurred to me that before they find an outlet for the money, to call attention to the tax payers who eventually must pay the piper, to what appears to me as a prudent outlay.

We are in possession of what should be a valuable asset in the old gas works which I regret to hear is being allowed to go to wreck, with its costly machinery and appliances. Yet disguise it as we may it is more than within the bounds of possibility that in the near future its product may be found to be our only standby for household fuel. In several reliable papers which I lately read I found it plainly stated that there was every possibility, owing to labor troubles, shortage of supplies, and railway difficulties of coal going to the high price of from \$17.00 to \$20.00 per ton during the ensuing winter, and the likelihood of being hard to get even at that figure.

As a city we may say that the bulk of our cooking is done now by coal or natural gas, for the latter experts have repeatedly warned its users that it may give out at any minute, so that we require little imagination to conceive the dire straits to which even the number depending on it in this small city would find themselves put to if they were suddenly deprived of their supply.

More especially would this be the case if such a calamity occurred during the winter. Yet such is our actual position and to me it appears like madness to ignore it particularly when we have means of avoiding it. I have lately noticed by the papers that many cities are preparing for such an event. In Buffalo I have been informed, a monster new gas works has been constructed whose supply is largely used for cooking purposes.

In Toronto the Consumers' Company have made extensive extension in that plant and last week I read from a Hamilton paper that the old artificial gas works there is being enlarged to a capacity which will add about seven million cubic feet daily to its output.

I might also mention other places in Canada and the United States. From the Hamilton report I noticed that they intend to manufacture what is known as water gas which it appears can be supplied cheaper than the old time article made from soft coal. It is now extensively used in the United States giving all the required results for household uses.

It has been stated that our service pipes are worn out. This may be the case in some spots but when repairs were made several years ago although leaks were found the metal in general was sound. At all events leaks should be looked for and the number of dead ends throughout the city carefully examined. In any event if the city undertakes to revive the works let a competent overseer be found, for with our previous experiments I think the consensus of public opinion was that the management was not efficient, thereby allowed the creation of a deficiency.

Yours Etc.

CITIZEN.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

STIR Your Tea

One minute before your tea is steeped, stir it.

This liberates the valuable tea essence that would otherwise remain in the leaves at the bottom of the pot and be wasted.

When you use a higher price tea—a tea of the fine quality of Red Rose Orange Pekoe—it is doubly important to stir it and get the full benefit of the rich flavor and strength from every choice young mountain grown leaf.

Red Rose Orange Pekoe is a tea of extra quality at a little extra price.

A tea for exceedingly particular people.

Have you tried it?

NOTICE TO CONTRACTORS

Pursuant to the requirements of the Canada Highways Act, separate sealed tenders marked "Tenders for water-bound macadam pavement section..." will be received by the undersigned until 12 o'clock noon on Tuesday, May 11th, 1920, for the construction of three inch water bound macadam pavement on the Provincial Highway between Stoney Creek and St. Catharines in the following sections:

- (1) From mile 5 to 9, a distance of four miles.
- (2) Between mile 9 and mile 14.5, a distance of three and one-half miles.
- (3) Between mile 25 and mile 31, a distance of three and three-quarter miles.

Tenders will also be received at the same time for the construction of a Bituminous macadam pavement on the same section of the highway.

Plans, specifications and forms of tender may be seen on and after Tuesday, April 29th, 1920, at the office of the City Engineer, St. Catharines, the office of the Resident Engineer, Beamsville and at the office or the undersigned.

A marked cheque for \$500 payable to the Minister of Public Works and Highways Ontario is to be attached to each separate tender.

A Guaranty Company's bond for ten per cent of the amount of the tender will be required when the contract is signed.

W. A. McLEAN,
Deputy Minister of Highways,
Department of Public Highways,
Toronto, April 16th, 1920.
