Arrangements have been made with nineteen of the business houses in different parts of the city to handle the advance sale tickets for the exhibition next month. These tickets will no doubt prove very popular as the purchaser not only saves money but also avoids any delays at the entrance to the grounds or the grand stand. The tickets are sold in lots of five for \$1 and one of the tickets will be good for admission at either the gate or grand stand. By saving a quarter on each five tickets will no doubt appeal to many as everyone will be good for admission at either the gate or grand stand. By saving a quarter on each five tickets will no doubt appeal to many as everyone of course goes to the fair as often as possible and there is no easier what was to save money during fair time than by buying some of these tickets.
