CANCER GERMS COMPLETELY DESTROYED.

The New Treatment Kills the Cancer and Cures the Disease.

For every disease germ, there ought to be a specific antidote. That is the principle on which scientists are working at the present day. For the germ of malaria, the antidote is quinine. For the germ of diphtheria there is the anti-diphtheritic serum. For the germs that cause smallpox, typhoid fever, scarlet fever and the like, there has not yet been found a specific anti-

For the germ causing cancer, an efficient antidotal treatment has been in vogue for some time and numbers of people who have availed themselves of it have been cured without the necessity of a painful and dangerous

operation.
So thorough going is this treatment, that it destroys the cancer germ com-pletely, removes the cancer, root and branch, and not a vestige remains to again come back and cause trouble. sends full particulars of this treat-ment to anyone on receipt of two stamps. RIVAL PARTS

Lengthy Discussion in the House About Canadian Seaports.

Question of Judges' Salaries Discussed in the Senate-Hon. David Mills' Reply to Hon. Mr. Drummond.

Ottawa, April 17.—The house spent the greater part of the day in discuss-ing the transportation question, more especially as it is affected by the con-ditions of navigation of the St. Lawrence. Mr. Bickerdike (Montreal) presented the conclusions arrived at by the marine interests of Montreal after taking the evidence of captains of steamers plying to the port of Montreal last year. The conclusion drawn from the evidence was that the aids to navigation were antiquated and in-efficient. The debate, which continued until midnight, developed the rivalry which existed between Montreal and Quebec. Mr. Brock insisted that the cheapest and nearest port, wherever it might be, should be the port for Canadian trade, and opposed further expenditure on canals. The debate will

At 11:55 Sir Louis Davies moved that, as there were a number of speakers to follow, the debate should be ad-

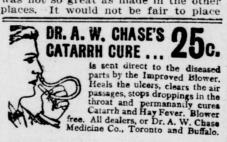

IN THE SENATE.

An interesting debate upon the sal-aries paid to judges took place in the senate today. Hon. Mr. Drummond brought the matter up by asking a number of questions, in which he hinted that, as compared with the judicial salaries paid elsewhere, the Canadian scale is unjust and insufficient, and that a comparison of salaries paid in the mother country and in other portions of the empire is substantially as

follows: England Lord Chancellor.... Lord Chief Justice... High Court Judge.... 7 Metropolitan Police Magistrates, 7,500 Chief Justice

Superior Court. HON. DAVID MILLS. Hon. David Mills thought the legal profession would be indebted to Senator Drummond for bringing the question up. He regretted that he could not answer it at present. He had prepared a bill, but was unable to say whether it would come down this session. Upon this point the legal pro-fession and the public entertain diver-gent views. It was important that in this matter they should carry public opinion with them, not only for the government and parliament, but for the judges themselves. Touching on the salaries paid in crown colonies, he did not think they affected the matter. Those salaries were in accordance with English notions, and were paid by the

imperial authorities. The criterion to go by was the amount made by leading counsel at the same bar over which the judge presided. At present they were not able to get the best men at the bar to go upon the bench. Taking population into account, he contended that the Prince Edward Island judges were better paid than the judges of Nova Scotia or Ontario. In Ontario had one high court judge to every 170,-000 of the population. In Prince Ed-ward Island they had three judges to 120,000 of the population. The general scale of salaries in Ontario and Que were fixed many years ago. that time Prince Edward Island was not put on the same footing as Nova Scotia, nor Nova Scotia with Quebec, because the amount made by a lead-ing member of the bar in the island was not so great as made in the other

the judges on the same salary throughout, because it would not be in ac-cordance with the incomes made by the leading members of the profession. He could not say what would be done, but the bill as prepared in his depart-ment would be laid before his col-leagues some day this week.

No One Disappointed.

ALL WHO HAVE TRIED ARE DELIGHTED WITH IT.

Tens of thousands of men and wo-men, and the children too, in Canada, acknowledge that Malt Breakfast Food is the choicest, most delicious and most healthful breakfast food they have ever used. No single individual has been disappointed with Malt Breakfast Food. All expectations have been fully realized as far as the establishment of health and strength are concerned.

All say that Malt Breakfast Food is the most satisfying, most sustaining and most palatable food. Malt Breakfast Food may be imitated by unscrupulous manufacturers, but it can never be equaled in health-giving and nourishing qualities. The patent process whereby pure Malt is added to the choicest Wheat is unknown to makers of other grain foods. Malt Breakfast Food, the most popular of breakfast grain foods is sold by all Grocers at 15 cents per package.

Peace has more victories than strife. It is more creditable to speak a saving word at the right instant than to do charitable acts that ring through

AN END TO BILIOUS HEADACHE. AN END TO BILIOUS HEADACHE.—Biliousness, which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headaches from cold, from fever, and from other causes, but the most excruciating of all is the bilious headache. Parmelee's Vegetable Pills will cure it—cure it almost immediately. It will disappear as soon as the Pills operate. There is nothing surer in the treatment of bilious headache.

man it is pretty tough on the individ-ual whose credit isn't even good with Phone 348.

DALY. 19 York St.

"No Knowledge of Music Required to Operate This Instrument."

Points of Advantage

The pedal motion of THE HARMONIST is the bicycle motion—not that tiring motion like that of an organ, where, with long playing, the ankles become intensely weary. The most delicate can operate THE HARMONIST without fatigue -less physical effort with THE HARMONIST than with any other "Piano-Player"

It has an automatic expression stop which easily enables the operator to give the proper shading and expression to any composition, however little he or she may know about music. This is a feature exclusive to THE HARmonist — not known in other "Piano-Players."

TORONTO.

-- THE --

The Only Perfect "Piano-Player" in Existence.

In other "Piano-Players" a knowledge of music is a necessity in order to get at the proper shading and expression when playing.

The first principle of a "Piano-Player" is that anyone, without a knowledge of music, can play on it. Other "Piano-Players" fail at this point,

THE HARMONIST is the one exception-It can be operated by a child, it is so simple, whilst it has greater power, greater variation of tempo, greater range between pianissimo and fortissimo than any "Player" in existence.

-We invite everyone to visit our handsome

-Piano Salon and see for themselves the -operations of this only perfect "Piano-

-Player" manufactured.

Ye Old Firm of

Heintzman & Co 217 Dundas St., London, Ont.

Points of Advantage

With other "Piano-Players' the operator must have a sufficient knowledge of music to mark his own time. THE HARMONIST is pessessed of a simple contrivance, adjustable by anyone, that can be set to any time to suit the player's wish.

There is danger of the paper music of the "Piano-Player" sometimes getting damp and swelling, and then it will not adjust itself to the track on the bridge. But THE HARMONIST has an adjustable bridge in case the music does not track right—and the defect is promptly overcome.
