Whole Matter Will Be Threshed Out at Length-Scarlet Fever in the

Schools.

A special meeting of the board o education will be called in the near future to discuss the question of technical education, and in the meantime Teasdall, Balfour and Strong will visit a number of cities in Ontario where such schools are in operation to obtain information. Among the cities mencloned were Woodstock, Berlin, Hamilton and others.

The report of the school nurse

At the meeting of the board of education yesterday afternoon, this mat-ter was brought up. Mr. Strong thought the board should take some action on the request of Inspector Leake, that a committee from the board be named to confer with repre-Council and the manufacturers to dis-

Council and the manufacturers to discuss this question.

A Special Meeting.

"We had better hold a special meeting to discuss the whole matter," suggested Chairman Weekes. "It is a big question, and I do not think we should attempt to take it up today."

The board agreed to that. Then Trustee Graham suggested that the board send a deputation to visit the various centres in the province for the purpose of obtaining information.

"Deputations can be very useful," he declared. "We should discuss this question from first-hand information, and that is the reason I suggest that the different centres and obtain the "I do not know that the board in

"I do not know that the board intends to discuss this whole question today," said Dr. Baifour. "However, the Dominion Government and the Ontario Government are looking into this matter, and we should wait until we see what they are going to do, before adopting any definite course."

Scheels in Lenden.

"It will be but a short time before such schools are in London," declared Trustee Gammage. "I consider that the board would make a good investment if the members were sent to

the board would make a good invest-ment if the members were sent to these places to see for themselves. We have sufficient room in the Alexandra school for a beginning, for all we will need until the Government brings down their report. We had better go slowly, not build a large school, as they did in Hamilton, until we see what the Government does."

The receiver to sand the deputation

The motion to send the deputation carried, Dr. Teasdall and Dr. Balfour Estimate Made in Office of Los

You can stop a headache with powerful drugs. But it is not generally wise to do so.

A headache almost always warns you of derangements of the digestive system, the liver, kidneys or bowels.

Awaken the liver, kidneys or bowels.

Awaken the liver to healthful action by the use of Dr. Chase's Kidney-Liver Pills, and you not only free yourself of headache, but remove the cause which will soon lead to more dangerous results than headache.

Invigorate the action of the kidneys by this treatment and you take away the dangers of Bright's disease as well as free yourself of headache.

Pains are the result of polson in the system and whether you have headache, backwho or aching limbs, you can be almost sure of relief and cure when you cleanse and regulate the vital organs by the use of Dr. Chase's Kidney-Liver Pills.

They are wonderfully prompt, as well as definite and thorough in action. You can depend upon them, no matter how long-standing or complicated your case, so long as the cause is the sluegish, torpid condition of the liver and kidneys.

Coal at \$4 a ton, were accepted by the board.

The First Methodist baseball team asked for the use of the Collegiate Institute grounds for practice. The matter was referred to No. 2 committee with power.

The board will make immediate preparations for installing domestic science in the public schools and manual training in the Collegiate. No. 2 committee were instructed to equip CLUB ROOM ADVOCATED.

CLUB ROOM ADVOCATED 2 committee were instructed to equip the centres, and No. 1 empowered to

Place Should Be Provided For

secure teachers.
Inspector Edwards reported that the attendance of the schools for the month of April was as follows:
1911—On roll 5,165, 1910 5,032; increase 133.
Average attendance 4,570, 1910 4.489; increase 81. crease 81. Kindergarten—1911, on roll 868, 1910

Number of inspections, 1,123; number of instructions, 1,662; treatments, 39; defective breathing, 31; defective vision, 11; carlous teeth, 86; visits to homes, 37; visits to schools, 39.

At the suggestion of Inspector Edwards, it was decided to have uniform promotion examinations for grades 4, 5, 6 and 7, instead of the bi-monthly examinations during May and June. Mr. Edwards thought this would be a decided advantage. The other bi-monthly examinations will be held as usual.

The first toast introduced was that to "Our Church," responded to by Dr. F. R. Eccles and Mr. R. I. Watson. Dr. Eccles gave an interesting account of the various clubs of history, among those of Samuel Johnson, Charles Lamb, and others.

"These clubs were great centres of influence," continued the doctor. "There is no doubt in the world that their influence today will be very great. I suggest that you study great; outstines, civic and otherwise, and discuss them. I suggest that you have frequent debates, schooling yourselves to use the very best English at your command. The club will then make manly men, and you will be in a position to take your place among your fellows."

"We should have a clubroom in this church, open every night," declared Mr. R. I. Watson. "We could have magazines, games and other things to interest the young men, and hold them. We can finance the proposition with- has been the best in the history of the

Some Place Should Be Provided for the Amusement of the Young—
The Toast List.

The first annual banquet of the Alpha Club, an organization of young men in connection with the First Methodist Church, held last night in Wesley Hall, was a highly successful event. Over 150 were present, and enjoyed a programme of more than wesley that in the first ordinary interest. Mr. W. G. Young, president of the club, occupied the chair.

The ladies of the church provided a very excellent lunch for the guests. After this was disposed of, Mr. Young introduced the toast list, which will long was nevertheless anjoyable.

"I think the church has been sacrifegious in the past in desling with young men," declared Mr. Young. "I think the church has been sacrifegious in the past in desling with young men," declared Mr. Young. "I think the church has been sacrification of the church as they should have been. I believe we should do more for them. Let them break windows from the inside than from the outside. As inane as some of the church has help to the outside. One of the Styles.

We have chosen three styles, which we consider are three of the best and most up-to-date skirts of the season, two of which are pictured here, exact reproductions of the models made for samples, also another style not shown here, equally good. These models will be exhibited on forms in Dress Goods Depart.

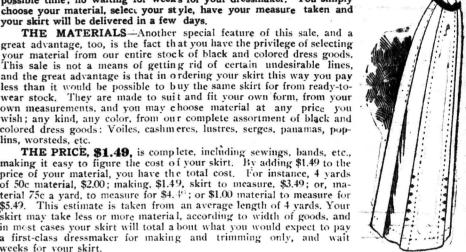

THE STYLES

Making and Trimming, ment, from which you may choose and have your skirt made to your \$1.49. measure in a few days. There will be no delay in making these skirts as we have arranged to have all orders executed in turn in the shortest possible time; no waiting for weeks for your dressmaker. You simply

choose your material, select your style, have your measure taken and your skirt will be delivered in a few days. THE MATERIALS-Another special feature of this sale, and a great advantage, too, is the fact that you have the privilege of selecting your material from our entire stock of black and colored dress goods. This sale is not a means of getting rid of certain undesirable lines, and the great advantage is that in ordering your skirt this way you pay less than it would be possible to buy the same skirt for from ready-towear stock. They are made to suit and fit your own form, from your own measurements, and you may choose material at any price you wish; any kind, any color, from our complete assortment of black and

THE PRICE, \$1.49, is complete, including sewings, bands, etc., making it easy to figure the cost of your skirt. By adding \$1.49 to the price of your material, you have the total cost. For instance, 4 yards of 50c material, \$2.00; making, \$1.49, skirt to measure, \$3.49; or, material 75c a yard, to measure for \$4.40; or \$1.00 material to measure for \$5.49. This estimate is taken from an average length of 4 yards. Your skirt may take less or more material, according to width of goods, and in most cases your skirt will total a bout what you would expect to pay a first-class dressmaker for making and trimming only, and wait weeks for your skirt.

We will commence taking orders today, and continue only until we have the number of orders which can be handled in the limited time allotted for these skirts. Make sure and get your order in at once. See models in Dress Goods Section—Main Floor.

Big Sale of Untrimmed Millinery Shapes Worth \$4.50 and Over for \$1 and \$2 Each

SEE RICHMOND STREET WINDOW.

Right almost at the beginning of the season such an opportunity is unprecedented, and will bring the cost of many beautiful Summer Hats down to a minimum. A great opportunity for the home milliner to display her skill in developing a \$10.00 Hat for a small fraction of this price, One of these shapes with a few flowers or wings and a little velvet or ribbon, and you'll be surprised what can be accomplished. Even at \$4.50 many of these shapes we consider are wonderful value, or if you prefer to have us fix up a hat for you, we will help you pick a becoming shape, some pretty trimming, and suggest a style and make it up at very little more than the cost of materials, charging only extra for work of trimming,
