NEW ORLEANS, Sept. 5.—Pinchbeck, the Mulatto Senator made a speech in the Senate yesterday charging the people of this city with manifesting a growing disposition to murder men for their political opinions and the color of their skins. He warned them to beware, and declared that the next outrage of the kind would be the signal for the dawn of a retribution which they had not dreamed of; the signal which would cause 10,000 torches to be applied to this city, for patience ceased to be a virtue, and the city would be reduced to ashes. He notified the Democratic party that the negroes intended to take the matter in their own hands, as they propose to have peace, if they have to conquer peace.

LONDON, Sept. 6.—Reverdy Johnson delivered a speech at Sheffield yesterday.

In reply to an address presented by the Corporation authorities, Johnson said, he anticipated no trouble in the preservation of peaceful relations between the two countries. He complimented Minister Adams in high terms, and he said the character of Queen Victoria forbade the possibility of a rupture with England. Johnson refuted the assertion of a member of Parliament that the people of United States were heterogeneous, and he maintained that the foreign immigrants were merged into one great nation, and that nation was English.

The Times has a lengthy editorial on Johnson's speech at Sheffield. It thinks the people of the United States as much of a unit as the people of England, where Irish, Scotch, French and Germans make so large a share of the population; it says whatever the result of the general elections about to occur in England, the same reciprocity of feeling which exists between England and the United States is certain to ensue.

The Times administers a severe rebuke to Roebuck for saying in a public reception given to the representative of the United States, it was the object of all present to cultivate a feeling of good-will. It was an injury to both countries for one to Roebuck's position to use such language of vehement disparagement, and adds, we only hope that Mr Johnson will notice that the insult has been repudiated by English public opinion with entire unanimity. He forms no idea, however, of the honor in which we hold his country by the prompt recoil from Roebuck's words, he everywhere witnesses.
