SATURDAY NIGHT FIRE.

At 9.40 an alarm of fire was sounded from the corner of Sherbourne and Esplande streets. The fire causing the alarm was in the oil refinery of John Fisken & Co., no theast corner of the above streets. The immediate cause of the fire was the caking of the oil in a vat into the furnace, and, as might be imagined, took a formidable attitude in a short time. Berkeley, Court and Wilton avenue brigades responded without loss of time, and notwithstanding the delay in getting at the hydrant, referred to in the local column, on were playing briskly. The fire origin confined to the inside of the refinery proper, where little oil was and no machinery of consequence. After the firemen once getting at the fire it did not last he storehouse adjoining the refinery stored 3000 barrels of oil. As far as could be learned the damage will not approach \$500 and it is believed there is no insurance. The firemen had to wade knee deep in water covered with oil, and had lots of fun cleaning off their clothes.

OWEN SOUND AND THE GRAND

Mr. Allen, who was sent by the Owen Sound board of trade to meet the board of trade in Montreal and Mr. Hickson, manager of the Grand Trunk, had a long interview with both parties. The merchants of Montreal are alive to the advantages of lower through rates and quicker connection and have promised to use their influence to that end. Arrangements will likely be made so that a person can leave Owen at 8.30 the following morning. Mr. Hickson said he felt positive he would have the T. G. and B. road, but in any case he would use his influence to have a connection with Owen Sound.

Complaint is made that a pile of broken stone surrounded and made access to the hydranton Sherbourne and Esplanade streets almost inaccessible last night. tensive loss as it came nearly doing at Saturday night's fire.

Shortly after 3 o'clock yesterday a fire was noticed in the Queen's park on the line of St. Joseph street. Some young gamins had raked a lot of leaves together and set them on fire, and the fire spread to the fence, when the youngsters got scared and ran away. The citizens in the vicinity went to the rescue and put out the incipient conflagration before a dollar's worth of damage was done to the fence.

We call the attention of the fire authorities to the indiscriminate locating of the fire floxes. Those most easily alarmed should be placed where the most serious fires are likely to occur. At present numbers takin the county of Victoria, Ont., have taken out during the last winter 6000 pieces of timber, and logs to the extent of ten and a half millions of lumber. It is estimated that this is about a tenth of the production of the whole limit. Messrs. R. Dobell & Co. of Quebec, after examining the timber purchased the whole lot at prices more than live cents a foot above their last season. Messrs. Strickland have been offered \$16 a thousand for their merchantable timber. thousand for their merchantable timber. They have been shipping by Toronto, but next season they hope to ship by the Midland railway, owing to the contemplated completion of the Sault Ste. Marie branch.

The Roman Catholic provincial council, which met at Cincinnati recently, issued a pastoral letter which has been widely commented upon by the secular press on account of the direct issue it takes with the principles of republicanism. Thus the declara-tion of independence declares:
"We hold these truths tion of independence declares:

"We hold these truths to be self-evident that all men are created equal; that they are endowed by their creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to assure these rights governments are instituted among men, deriving their just powers from the consent of the governed."

In opposition to this the bishops depower comes from the people, and that rulers do not exercise authority as their own, but as intrusted to them by the people. The Catholic doctrine is that the grant of power is not given by the people, but they only designate who is to wield it." The distinction here shown is very marked and places the church in direct antagonism to the fundamental principle of government in the United States Political equality is the fundamental stone of democratic institutions, and to deny that

power proceeds from the people is to attack the principle of American liberty in tack the principle of American liberty in its most vital part. It is not, therefore, to be wondered at that the secular press should condemn the pastoral and declare it an act directed towards the subversion of republican restiutions. It is a matter of great regret that any church or assembly of ecclesiastics should take upon themselves to define the principles of civil government define the principles of civil government under which they are permitted to exercise their religious functions. But when they do presume so far the state must exercise its authority, for there is no power superior
