little reaction from the early break. Eeyond this we see no good buying and no element of strength in market for the present. Receipts of corn, although somewhat under the est mates, were very large, amounting to 693 cars. The cointry holders of both cereals have been very free sellers to-day, and our local scalpers took advantage of this to get short on the early break. An active cash demand spraug up for car lots about noon, and started the shorts of the early part of the day to covering. To this alone is to be attributed the late bulge. break provisions, were buyers to-day, and were the chief support of a very dull market.

Drummond & Brown received the following today over their private wire from La Montagne.
Clarke & Co. of New York: Market opened higher
and under heavy buying by London recovered all
of yesterday's loss. The traders are inclined
at times to pound the list owing to gold shipments and the belief that some heavy interest
had liquidated, but all offerings were taken and
the market was at no time weak. The list was
erratic, at times selling off sharply and again recovering on any attempt by the shorts to get
stock back. The market has proved conclusively its strength by the sharp recovery to-day and
we think purchasers need have no hesitation in
buying on all weak spots. The advance in exchange rate foreshadows shipments of gold to
London, but as the foreign houses to-day bought
back stocks sold yesterday it is quite possible
there may be a free offering of bills within the
next few days which would drop the exchange
rate again. Discount in London is up ½ per cent.
and money somewhat scarce, which may cause
an advance of Bank of England rate, but we
rather it doubt. Crop reports from the line of the
Mo. P. in Kansas were very favorable. Aikenhead & Crombie Potatoes steady. with offerings to arrive at \$1 at \$1.05. Baled hay firm and unchanged at \$9.50 to \$10. Straw unchanged at \$6. There was some buying for export and a half dozen loads were taken for Montreal. Springers were scarce and wanted at \$30 to \$50 each, while an odd one sold at \$55. the key to the wheat market situation to-day.
London declines 9d to 1s, and Liverpool ½d to 1d.
The English visible showed an increase of 724,000

has been the aggressive seiling by a party of local
bears who lost money on the late upture but
seem now to have recovered their second wind
and their courage. Towards the close of the session there was some talk about the removal of
the French tax, which, with the report of export
demand, started shorts to covering and gave a
little reaction from the early break. Beyond this
