Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES"

**MR. MARRIOTT**  
73 Lees Ave., Ottawa, Ont., August 9th, 1915.  
"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from *Liver and Kidney Trouble*. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 43 years past, I have taken them regularly and would not change for anything. *I have not had an hour's sickness since I commenced using 'Fruit-a-tives'*, and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

**SOLDIERS' COMFORTS ASSOCIATION BRANCH AT LAWRENCETON.**  
A Branch of the Soldiers Comforts Association with Headquarters in C. P. S. Building, King St., St. John City, was formed in Lawrenceton in April with a large number of members; the following officers being duly elected, viz.:  
President, Miss M. West.  
Vice-President, Mrs. Penton Morris.  
Sec. Secretary, Mrs. H. H. Whitman.  
Treasurer, Mrs. O. Graves.  
Executive Committee, Mrs. West, Mrs. R. J. Messenger, Mrs. P. B. Bishop, Mrs. J. Shafter, Mrs. Mellick.  
New members are being added every month, and the interest taken in work shows that all are willing to sacrifice much to provide for the comfort of our brave boys at the front, who are suffering so much for us. A case has been forwarded to Headquarters each month consisting of socks, and parcels addressed to soldiers in different Battalions.  
The total shipped since June has been as follows:—  
Socks, 169 pairs; individual parcels 50; 1 case of Christmas boxes.  
As the interest in this good work seems to be daily increasing, we trust still more will come forward for rapidly as the cold days of winter are approaching, and we must assist our brave Canadian boys to endure the hardships of another winter campaign.  
MRS. H. H. WHITMAN, Secretary.

**KARSDALE**  
Nov. 20  
Mr. and Mrs. E. H. Porter were the interested parties in a genuine "surprise party" which appeared at their house on Saturday evening. The occasion was the second anniversary of their marriage. About 8 o'clock one after another walked in and for a short time the couple could hardly realize what was the purpose. Soon, however, the fact dawned upon them, and soon A. W. Chisholm moved that David Foster take the chair. At his request Capt. S. V. Melanson presented a very handsome water set. Though taken by surprise and visibly affected by the kindness of his friends Mr. Porter acknowledged the gift in a short speech which was supplemented by thanks expressed by Mrs. Porter. Pleasant and enjoyable conversation followed, after which the ladies served up refreshments, and at a late hour the company dispersed after having spent a most enjoyable evening.

**BAXTER-NELSON**  
A very pretty home wedding took place on Wednesday evening, Nov. 15th, at the residence of Mr. and Mrs. William Nelson, when their daughter, Miss E. A. Nelson, was united in marriage to Mr. Arthur L. Baxter, one of our most highly esteemed young men. Promptly at 7 o'clock the happy couple took their place under an arch of evergreen trimmed with white, the groom being supported by Daniel Nelson, whilst Mrs. Avery Johnson acted as bridesmaid. The bride looked extremely lovely under an arch of evergreen. The bride wore a long and valuable, useful and numerous, and fully attested the popularity of the bride. We extend her congratulations and hope that a long and happy married life awaits them.

**ROBBERIE-SHAFNER**  
Standing under an arch of white chrysanthemums and evergreen a pretty wedding was solemnized on Wednesday morning at the home of Mr. and Mrs. J. Y. Robbles, Lower Granville when their youngest daughter, Alice Y. was united in marriage to H. Lloyd Shafner.  
To the strains of the wedding march played by Mrs. Markham, the bride entered the parlor on the arm of her father, and proceeded by her little niece, Missie Whitman, who was dressed in blue silk carrying a basket of white chrysanthemums and maiden hair fern.  
The bride looked charming in her white and embroidered white silk gown, with conventional wedding veil and orange blossoms and carried a shower bouquet of white chrysanthemums, maiden hair and asparagus fern. Her travelling dress was navy blue serge with fur trimmings and hat of navy blue velvet.  
The ceremony was performed by Rev. Lewis Wallace, uncle of the bride.  
After the wedding breakfast, which was prettily served, Mr. and Mrs. Shafner left for a trip to Cape Island, N. B. The young couple were followed by the good wishes of their friends for their future happiness.  
The presents were numerous and beautiful.

**CLEMENTSPORT**  
Nov. 20  
(From an occasional correspondent)  
Mr. W. N. Stronach, and son Harry who has just returned from the West, were the guests of Mr. and Mrs. C. T. Stronach last week.  
Schooner Mercedes, Capt. Fred LeCain has just arrived safely in port from Rockport, where she discharged a cargo of soft wood.  
Thursday evening last a few friends were entertained at the home of Mr. and Mrs. Rawlins, where they spent a very enjoyable evening.  
Mr. H. Hicks, our general merchant, has been confined to his home for several days on account of a severe cold but we are glad to say he is about again.  
Washington, Nov. 16.—The opening of the direct Trans-Pacific wireless service between the United States and Japan, by the Marconi Co. was signalled yesterday by the exchange of messages between President Wilson and the Japanese Government.

**WHEN COWS FRESHEN IN THE FALL.**  
The manner in which cows are fed and managed during the six to eight weeks' period prior to calving has much to do with their year's production. Improper feeding or failure to give proper rest between lactation periods usually results in a decreased production for the lactation period.  
It is a good plan to have a small pasture so that cows due to freshen in the summer or fall may have an abundance of grass and not be molested by other cows. In addition to this a few pounds of ground oats, which is one of the best feeds for pregnant cows, and in some cases a small quantity of cracked corn and bran will be sufficient. For cows that are to freshen during the winter months, corn silage makes an excellent substitute for pasture grass. A ration made up of 20 to 30 pounds of corn silage, all the alfalfa or clover hay they desire and a grain mixture of three parts ground oats, two parts bran and one part molasses, will prove very satisfactory. The amount of grain per day should be governed by the individual animal. A small quantity of corn may be given to animals thin in flesh, but they should not be crowded but rather fleshed up slowly. Timothy hay and cutsoiled meal are very undesirable as they are rather constipating, while cottonseed fertilizer seed and sawing the empelts and machinery required after harvesting and for commercial utilization, the use of fish in paper manufacturing and the use of kerosene for the Publications Branch Department of Agriculture, Ottawa.

### POULTRY

**PECULIARITIES OF LEGHORNS**  
(By W. W. Kulp, in Poultry Item.)  
Each nation of people has certain traits of which others who want to win their favor take note, and as they approach them, are careful that they do not "jar" these certain traits for to do so is to fall or to come so near to that profit is gone.  
The same condition exists in the animal kingdom and fowls are no exception. To succeed we must give our care and attention with these traits in mind or we may fail.  
**First the Chicks**  
I called on quite a prominent breeder of White Leghorns last fall. Among other things, I asked him what his loss was with baby chicks or until they were well raised. He has a thirty hater Canada brooder. He said his only trouble was when they were feathering, and he didn't do something special at that time. I found he did not know how to handle the peculiar condition of Leghorns. The drain on the resources of the body is quite heavy at this time and special feeds must be used or some will die. The natural time for starting Leghorns is April and May out in the grass fields or along the plowed fields. Here they get plenty of soft rich worms and insects and grow without a break. Don't you see that must be supplied?  
I talked last week with some who had had considerable experience and I found they had failed to see this condition. Therefore I judged a great many might be benefited by just such instructions as I shall give.  
The remedy is rich food—lean meat or meat in some form is the answer. If you have milk, use it for mixing mash, and when the critical time comes scald it and drain it and feed the cheese. This is a very rich, good food. If it is made at home it can be used sweet, and you are always sure of sweet rich feed. I have often gotten the "lights" of beaves and coked and fed them. I have also taken fresh rendered beef scraps and soaked them in water and fed. You need not fear to give one good feed of meat a day when the chick is half feathered or more.  
**Winter Layers**  
What has been proven time and time again that Leghorns will lay well in winter, the only difference is they must be moved to their winter quarters when about grown and then not disturbed for the winter. To quit and take some out during the day and put in others is to "jar" their peculiarities and stop some laying. About every winter I have reports of Browns not stopping when the temperature fell to 20 degrees below zero.  
**Confusion Laying**  
This is another peculiarity of the Leghorns that is very pleasing. In the Calgary Provincial Egg Contest, Canada, Rose Comb Brown Leghorns laid the honor of winning as winter layers and also as the best over all for the whole term. In the pens of Oringtons was a pullet that started a little late but laid wonderfully well. Had she continued during the summer she would have won as a layer but when spring came she went broody and was broody five times during the summer, laying but few eggs. I will just mention for the honor of the Single Comb Browns that they won the laying contest the year before.  
**Leghorns Can Fly**  
A female Leghorn, before she takes on the extra weight of age, can fly some. This is considered as an objection by some. I always clip one or both wings of all penned breeders. You can leave two feathers next to the body if you wish to shape them. It does not hurt their looks and it keeps them in where fences are but four feet in height.  
Long live the Leghorns and especially the Browns.
