From the day of the First Confession to the day of the Last Sacraments, a struggle constantly takes place between good and evil for the possession of the soul. We cannot run away from the conflict, because it goes on within us. We have to fight our self. Our self is against us. This corruptible body aids the enemies that are on the outside — the world and the devil. And the spirit grows weak in the everlasting battle, unless frequently reminded of the reward of victory and succored by grace from on high. But every temptation resisted, gives strength for further resistance, and adds another jewel to the crown of eternal life that is the meed of final perseverance.
