

ETCHUM'S MOWER with REAPER ATTACHMENT,
MAN ACTURED BY HOWARD & CO., BUFFALO, N. Y.

ETCHUM'S celebrated Mowing Machine has been improved by the addition of a *Reaper Attachment*, and we now offer it as a Mower, or as a Mower and Reaper combined, with full confidence that it is the most perfect and successful Machine now in use. The change from a Mower to a Reaper, (which means has been patented) is effected by simply enlarging the main wheel, by circular sections, bolted to the rim of the wheel. Some of the advantages obtained by this arrangement are: **FIRST**—Raising the cutters sufficiently high for cutting grain. **SECOND**—Lessening the motion of the knives, *without any change of gearing*, which is very desirable in cutting grain, as much less motion is required. **THIRD**—Reducing the draft of the Machine at least *one-third*. **FOURTH**—Raising the cogs of the driving wheel, thereby preventing them being filled with dirt, as they otherwise would be, on stubble land. **FIFTH**—Attaining the above named objects *without the least change* of any part of the Mower. We shall build for the harvest of 1855 the Combined Machines, with wrought iron frames and finger bars. These manufactured expressly for Mowing will all have wrought iron finger bars, but a portion of them with wood frames. Each Machine will have a good spring seat, and every part made in the most substantial manner, and warranted durable, with proper care. We have reduced the weight of the Mower about one hundred and fifty pounds, which we have found desirable, and have no doubt will improve them, by lessening their draft. We shall take the utmost pains to have our knives made of the best of steel, and well tempered.

We offer our Machines, and warrant them capable of cutting and mowing from ten to fifteen acres of any kind of grass per day; and warrant them capable of cutting the same amount of grain per day.

RUGGLES, NOURSE, MASON & Co., Worcester, Mass., are manufacturing, and have the *exclusive right to sell* in the N. E. States. They are also manufacturing a *one horse Mower*, which they have a right to sell in any of the United States, except the Western.

SEYMOUR, MORGAN & Co., of Brockport, N. Y., manufacture the Mowers for the States of Michigan, Illinois, and Iowa.

WARDER, BROKAW & CHILD, of Springfield, Ohio, manufacture for the States of Kentucky, Missouri, Southern Indiana and Ohio, except the Western Reserve, which will be furnished by JAMES M. CHAMPLIN, Cleveland, Ohio.

Price of Mower, with extras, is \$110, Mower and Reaper \$125, in Buffalo. Feb 1-21
