Packard

Hundreds of New Customers

During the past year our lamp business has increased to a phenomenal extent—hundreds of new customers have been placed on our books, each and everyone of whom have found by actual experience that PACKARD LAMPS are the most economical to use.

If you are using lamps other than the Packard, get in line at once and profit by the experience of others and use the best lamp made in Canada—the PACKARD LAMP.

Do not place any order for meters or transformers without securing information and details of our line.
