Please note a few  
Facts in regard to the  
Canadian Engineer

In the space of three years the Canadian Engineer has been enlarged four times, and a fifth enlargement will soon be necessary. The first number contained twenty-eight pages; now it has fifty-two.

The increase in circulation in nine months preceding January, '96, was 1,500, a record unparalleled in the history of Canadian trade and technical journalism. With its present circulation of over 4,350, and with an increase of from 150 to 200 per month the Canadian Engineer will have a circulation of nearly 6,000 copies before another year elapses. Need any more be said to prove the popularity of this journal among subscribers and advertisers?
