Obituary

One of the most kindly and courteous of gentlemen in the person of Dr. James Ingersol passed quietly away at his residence in the Lansdowne Hotel, Regina, on November 12th last. His was a familiar figure to the early residents of Regina, to whom he was endeared by his sympathetic interest in their hours of trial.

The Doctor graduated from Queen's University in May, 1867, after which he spent a considerable period in Europe, visiting the prominent hospitals and institutes and always displayed a lively interest in his profession. He was a surgeon in the Army of the United States for many years with headquarters near Kansas City. As a litterateur and raconteur he had few equals, but his humor was without malice and his anecdotes always illustrative.
