The case will, no doubt, be different with

those gentleman who will proceed to Quebec to attend to the Clergy Reserve question before Parliament; as their expenses will be much heavier; and they will not be so much gratified and individually benefitted, as we were at New

DEAR SIR,—As you have given publicity to so much in connection with the very important subject of the bosed Diocese of Kingston, I trust that you will have the kindness publish my reply to the Rev. Dr. McMurray's circular, which was as follows:—

I remain, dear Sir, truly yours, FRANCIS EVANS.

Simcoe, Dec. 31st, 1853. My dear McMurray,—In reply to your circular, I wish to say that as one of the Clergy within the limits of what is proposed by the resolution of Synod, to form, simultaneously with Kingston, another new Diocese, I should protest | ford. most energetically against the interference of any of my brethren, either in the Diocese of Kingston, that is to be, or in the Diocese of ronto, as it will be after the division, in the election of our Bishop. I should therefore conside that to take any part in measures for the filling of the Episcopal chair at Kingston, otherwise than by my good wishes and prayers, would be to trespass on the privilege of my brethren at the East in a way in which I would not, for a moment, tolerate their interference in the West. I remain,

my dear McMurray. very truly yours, FRANCIS EVANS.

From the Patriot Extra. BURNING OF THE PARLIAMENT HOUSES, QUEBEC Quebec, February 1, 1854.
Parliament buildings entirely destroyed by

fire; caught under the library at 3 this morn-ing; supposed from the flues. The flames and dense smoke filled the entire wing—no access save to the library, the greater part of which is saved. Literary and Historical Society's Museum lost; part of records saved. Furniture and all the paintings in the Council and Assem-bly Rooms destroyed. Portraits of the Queer chamber. Domg fell in at 6½—west wing now burning down every where. Garret open throughout, which caused the fire to creep round, and the firemen were unable to reach it. and Sir Allan Macnab saved from the Speaker's Inspector Wells offered Administrator Royan to save two-thirds of the edifice if he would blow up the roof. Three City Councillors opposed it, and consequently all is now burning without any attempt to extinguish it. The troops rendered great assistance. Insurance reported at £30,000. Many of the employees and officers have lost property. Kenting family narrowly escaped—the females being carried out. Parliament expected to occupy the Music Hall. Not water enough to save the west wing as might have been done, there being 10 engine and a great concourse of people present.

PROBABLE INCREASE OF THE ARMY .- The United Service Gazette, a journal generally well-informed upon Military matters, says, almost every infantry regiment naw stationed in the island is under orders for foreign service, whilst orders have been sent to every corps at home, cavalry and infantry, to have the whole of their subalterns examined as to their eligibility and fitness for promotion.—This savours much of second battalions, and ten troops s cavalry regiment. This looks as if England was preparing for a bloody struggle. "God defend the right" say we.—Patriot.

THE MARCO POLO AGAIN!-We are surprised to find in the Liverpool Mail of the 3rd inst., a paragraph copied from the London Morning Advertuer, in which the celebrated clippers, Marco Polo and Indian Queen, are designated as "American-butt ships," when speaking of them in comparison with a new British clipper. The credit of producing these celebrated vessels, although they were certainly built in America,belongs exclusively to New-Brunswick; and it must be extremely annoying to their builders, as it is to all who pride themselves in the Prorince, that we are not better known in Liverpool and London. We expect, however, that the contemplated line of steamers from St. John to Liverpool, which we expect to see in operation the contemplated line of steamers from St. John to Liverpool, which we expect to see in operation next summer, will do much towards dispelling the ignorance which prevails in the Mother country respecting the geographical position and commercial value of New-Brunswick.—St. John's Courier.

On Thursday morning, the body of a young man, named Wigmore, was found on the ice near the Don marsh. When found, one of his boots was off, and a loaf of bread lying beside him. He was a fisherman, and had left the city on Tuesday evening by the strip of land at the east end of the Bay. A coroner's jury was summoned by Dr. King, who after viewing the body, adjourned till two o'clock yesterday, when they again met, and rendered a verdict in accordance with the above.—Daily Patriot.

MEDICAL IGNORANCE .
