WITH CHINA TO SUPPORT CANADIAN EXPORTERS
The Government of Canada has announced a new program to support Canadian exporters in their efforts to enter the Chinese market. This program is part of a larger initiative to promote Canadian exports and trade with China. The program will provide Canadian exporters with access to a range of services, including market research, trade missions, and export credit insurance. The program is being implemented by the Export Development Corporation (EDC) in partnership with the Canadian International Trade Centre (CITC). The program is expected to be launched in the next few months.
