

I also wish to say that
the substitute physics
paper I was of such
an unexpected charac-
ter, that even those
who were taking ad-
vanced mathematics
confessed to failures to
be able to do justice to
it. One exceptionally
bright young man
remarked ~~that~~ that
the paper was set for
theives, with the
result that the honest
were caught in the toils.
It will I fear mean
supplementals for
many, who otherwise
