Nothing is so distressing as a weak

stomach-the victims of this trouble suffer from indigestion, biliousness, dizziness and frequent headaches. No food agrees with them—meal time is a time of misery, not a time of pleasure. Rellef from this suffering can be found thru the use of Dr. Wil-liams' Pink Pills—they never fail to make the stomach strong, to banish the distressing headaches, biliousness and dizziness. Mrs. C. S. Steeves of Hillsboro, N.B., is one of the many who have been cured thru the use of these pills. She says: "I suffered very much from stomach troubles and would often leave the table without tasting food. I got no relief worth speaking of till I began the use of Dr. Williams' Pink Pills. They gradually restored my health and strength, and now I am as well as I ever was. I would earnestly recommend them to all those who suffer as I did." It is the blood—bad blood—that is the cause of nine-tenths of the ailments from which both men and wo-men suffer. The blood is the life-giving fluid of the body. When the blood is bad it is bound to poison some part of the human system, and thus it is that rheumatism kidney trouble, indigestion, headaches and backaches and a host of other troubles make their appearance. Dr. Williams Pink Pills cure all these troubles Pink Pills cure all these troubles and they cure them thoroly—simply because they fill the veins with rich red blood. ### MONEY IS NEEDED FOR UNIVERSITY

Sir Edmund Walker Says the Institution Faces Big Deficit.

MORE GOVERNMENT AID

Amount Now Received is Inadequate to Meet Demands Upon It.

What the senate of Toronto. University will do next to cope with its inancial obligations, is a matter of conjecture. Sir Edmund Walker, C.V.O., LL.D., president of Canadian Bank of Commerce, in an address before the Canadian Club at McConkey's yesterday, on the "Needs of the University of Toronto," voiced one or two alternatives, should the government and community as a whole not see fit to increase the annual appropriations. He arged that the annual grant equal to one-half the succession duties, was totally inadequate to meet the ever-in-

creasing demands. He explained that Dr. Falconer had increased the matriculation standards for the express purpose of decreasing the yearly increase, or at least, keep the present number stationary. Either this, or a general rise in cost to the students, or perhaps the restriction of the number of students in each faculty to certain numbers will have to be resorted to, if nothing else be done towards alleviating the present condi-

The Chief Reason. One of the principal reasons for deficit is that, on account of lack of state support, the senate had to construc extra accommodation, etc., out of its yearly recenue, hoping that the provincial government would step in and assist.

"Ours is not a secluded institution," said he. "We are not owners, but just trustees for the public. We are responsible to you and want your support. The government makes the same mistake. When our senate has interviewed the cabinet, the ministers think that we are asking them to give us something personally, rather than to an institution which should be directy state controlled.

"American college buildings belong to the state, and the various senates are only responsible for conducting the educational side," he continued, "and we should not be expected to

Why indeed? This whole practice of feeding other people's children is most pernicious Supposing you believe a child is always hungry, that is no reason why he should be indiscriminately fed by any one who happens to be within reach. Yet everywhere you find in-telligent mothers following this unintelligent mothers following this unintelligent practice. The minute a
