

TABLE OF CONTENTS.

Paragraph.			Page			
	<b>INSTRUCTIONS</b> .. .. .. .. .. .. ..		v, vi, vii			
	<b>REPORTS.</b>					
	<b>JOINT REPORT</b> .. .. .. .. .. ..		1			
	<b>REPORT OF BRITISH COMMISSIONERS</b> .. ..		2			
1-25	Introductory .. .. .. .. .. ..		3-5			
	<b>PART I.—SUMMARY OF FACTS AND CONCLUSIONS.</b>					
	<b>I.—THE FORMER, PRESENT, AND PROSPECTIVE CONDITION OF THE FUR-SEAL FISHERY IN THE NORTH PACIFIC OCEAN.</b>					
26-34	(A.) General Conditions of Seal Life .. .. .. .. ..		6, 7			
35-59	(B.) Killing on the Breeding Islands .. .. .. .. ..		7-11			
60-70	(C.) Sealing at Sea .. .. .. .. ..		11-12			
71-84	(D.) Additional points connected with Sealing at Sea or on Shore .. .. .. ..		12-14			
85-100	(E.) Former and present condition of the Industry .. .. .. ..		11-16			
101	<b>II.—CONSIDERATIONS RELATING TO THE BASIS UPON WHICH PRECAUTIONS MAY BE DEVISED FOR THE PRESERVATION OF THE FUR-SEAL</b> .. ..		17			
102-114	(A.) Interests involved .. .. .. .. ..		17-19			
115-144	(B.) Principles involved .. .. .. .. ..		19-23			
145	(C.) Summary of general conditions bearing upon Regulations .. .. .. ..		23			
	<b>III.—MEASURES FOR THE PROTECTION AND PRESERVATION OF THE FUR-SEAL OF THE NORTH PACIFIC.</b>					
146	(A.) General nature of Measures required .. .. .. .. ..		23			
147-150	(i.) Improvements in the Methods of taking Seals .. .. .. .. ..		24			
151-154	(ii.) Restriction in the Number of Seals taken .. .. .. .. ..		24			
155-161	(B.) Specific scheme of Regulation recommended .. .. .. .. ..		25			
162	(C.) Methods of giving effect to Regulations .. .. .. .. ..		26			
163	(D.) Alternative Methods of Regulation .. .. .. .. ..		26			
164	(i.) Entire Prohibition of Killing on one of the Breeding Islands, with suitable concurrent Regulations at Sea .. .. .. .. ..		26			
165	(ii.) Recurrent periods of Rest .. .. .. .. ..		26, 27			
166-168	(iii.) Total Prohibition of Killing on the Breeding Islands, with concurrent strict Regulation of Pelagic Sealing .. .. .. .. ..		27			
169-170	(E.) International action .. .. .. .. ..		27, 28			
	<b>PART II.—DETAILED OBSERVATIONS ON THE FACTS AND CONDITIONS OF SEAL LIFE.</b>					
	<b>I.—NATURAL HISTORY AND ENVIRONMENT OF THE FUR-SEAL OF THE NORTH PACIFIC.</b>					
171-196	(A.) Migrations and Range of the Fur-Seal of the North Pacific — (i.) Eastern side of the North Pacific .. .. .. .. ..		29-32			
197-208	(ii.) Western side of the North Pacific .. .. .. .. ..		32-34			
209-223	(iii.) Distribution at Sea .. .. .. .. ..		34-38			
224-243	(B.) Food of the Fur-Seal .. .. .. .. ..		38-42			
244-276	(C.) Physical characteristics of the Pribilof and Commander Islands, and nature of the Breeding Grounds .. .. .. .. ..					
277-283	(D.) Annual progress of events in Seal Life on the Breeding Islands .. .. .. .. ..		42-49			
284-291	(E.) Ages at which Males reach Virility and the Females produce Young .. .. .. .. ..		49, 50			
292-294	(F.) Requisite proportions of Sexes .. .. .. .. ..		50-52			
295-297	(G.) Coition .. .. .. .. ..		52			
298-302	(H.) Age at which the young Swim.—Number of young at a Birth .. .. .. .. ..		52, 53			
303-316	(I.) Distances to which Seals go from the Breeding Islands in search of Food, and times of Feeding .. .. .. .. ..		53, 54			
317-325	(J.) Habits when Suckling .. .. .. .. ..		54-57			
326-343	(K.) Natural causes of Destruction .. .. .. .. ..		57, 58			
344-356	(L.) Mortality of Young Seals in 1891 .. .. .. .. ..		58-61			
357-376	(M.) Methods of enumerating Seals on the Pribilof Islands and estimates of Numbers .. .. .. .. ..		61-64			
			64-67
