WALL STREET IN

U. S. Steel and Standard Railway Stocks Make Good Advances.

New York, Aug. 31.—Contrary to expectations, based on the impending holiday, the short session of the stock market today developed considerable activity and strength after its lethargic opening. There appeared to be a considerable short covering on the favorable war despatches and additional good statements of railway earnings, the latter groundaking a commanding position.

Investment transportations rose all the way from liberal fractions to a point but the strongest feature was Southern Railway, in which further accumulation of a substantial character seemed to be progressing. United States Steel was hesitant at the outset, but got into its stride later, rising to '111%, a net gain of 1% points. Allowing for the recent regular and extra dividends of 4% per cent. Steel approximated its maximum of the year.

Montreal, Aug. 31.—Canadian stocks were qufetly strong today, a number of issues moving forward to their best prices of the year, to the accompaniment of a moderate amount of buying. Features in that respect were Brasilian Traction, at an advance of % to 40%; Dominion Taxtile 1 point higher at 98%, and Lake of Woods Milling 5% higher at 152%. The buying responsible for these advances was relatively Small.

Other strong stocks of the lay included chiefly Ontario Steel Products, which, at 34, added more than 1 point to its 3 point gain of Friday. This issue, in which deallings footed up to about 50 shares, and Steel of Canada, which was steady to firm at 72 to 72% on a turnover o 800 shares, ranked as the most active stocks of the day.

Bonds were dull, with Wayer muck in Steel Products was a figuration higher at 78%.

Total business for the day was 2658 shares and \$5300 in bonds.

The latest addition to the Glencoe oil field was a well brought in on Friday last on the north half of lot 8, concession 5, immediately south of the Rockwood oil and Carman properties.

The lease for this property was only acquired on Aug. 12, and the well was Electric Development IN MONTREAL MARKET

The lease for this property was only acquired on Aug. 12, and the well was put down to the depth of 366 feet in about ten days. The lucky owners of the latest strike are mostly Toronto people, operating as the Toronto-Glencoe Syndicate, who also hold leases on about 1200 other acres. The output of the new well is estimated at 50 barrels a day, but actual results cannot be definitely given until the well, has settled down to a normal basis. Since the well was brought in there has been a regular stamped to get surrounding leases and 350 acres changed hands on Friday.

Friday. STRIKE ON VIOLET

The reason for the rapid run-up in the La Rose Consolidated market from 35 to 45 on Saturday is given in a wire received by Hamilton B. Wills, of the Royal Bank Building, over his private direct ceived by Hamilton B. Wills, of the Royal Bank Building, over his private direct wire from Cobalt as rollows: "La Rose Consolidated struck a very rica ven last night in the Violet property at depth of 410 feet. In the face a width of three inches is revealed and values are reported as running several thousand ounces to the ton. This strike is donsidered one of the most important recorded in this camp for several months."
