The evidence showed that the Va-

## O'Keefe's Pilsener Lager

"Pilsener Lager" is world-famous. The Town of Pilsen, in Bohemia, is situated in a beautiful fertile valley at the confluence of the Mies and Beraun Rivers, about 52 miles south of Prague. It was at Pilsen that the formula for this special brand was introduced and the first Pilsener Lager brewed. The beer from Pilsen has a noted reputation all over Europe for purity and flavor.

O'Keefe's Pilsener Lager, "The Light Beer in the Light Bottle," is brewed from exactly the same formula. Nothing used in the brewing but pure barley malt, choicest hops and filtered water. The beer is filtered again before bottling and after which it is pasteurized. O'Keefe's Pilsener is absolutely pure.

The O'Keefe Brewery has taken Pilsener as its model in making this lager because German beers are noted the world over for their purity and health-giving qualities. Adulterations or substitutes for malt are unheard of in Germany because of the heavy state penalties of fine and imprisonment for an infraction of the health laws. No American lager enters Canada that is brewed solely from pure barley malt, hops and water, as all beer should be brewed.

When the construction of the corrugated iron fence, which is going up within two and a half feet of the wall of the negroes' apartments, was begun the occupants showed their disapproval in unpleasant ways. The workmen

In unpleasant ways. The workmen were targets for sticks and stones. But yesterday three policemen took turns in protecting the builders and no more old shoes and empty beer bottles found their way toward the fence.

It may, not prove an entire success, as when hard objects are hurled at it it gives forth sounds like an artillery skirmish or a successful celebration of the nation's bithday, and murders sleep.

This little peculiarity the colored tenants, who are being entombed, discovered the very first night after the fence was begun, and made life a burden for the erstre neighborhood until the early hours of the next day. It is said a repetition of that performance might precipitate a race war.
