EARLY MARKETINGS TAKEN

CHEAPLY. As in former years so it appears the

nresent season is to witness the lowest prices for farmers' produce at the early part of the season. This is particularly the case in regard to grains, a good deal of which is usualy marketed by indigent farmers and those not so unfortunately placed, but merely for the purpose of taking out a little money as the first fruits of the crop year. Grain dealers and those who handle agricultural products in a than they were a few weeks ago, value of the industry is placed at breadth of the province, has been in a into the matter. when nothing but last season's erop \$45,002,550.

conclusively to a shortage in the els; value \$252,831. conclusively to a shortage in the conclusively to a shortage in the world's wheat crop. In the United world's wheat crop will be, under the most States the crop will be, under the most states the crop will be unde rosy aspect, fully 100,000,000 bushels below that of last year. In Canada, as near as can be anticipated, there How Things Are Done in Algomawill be not more than two-thirds of Addresses by M.P.'s and O. A. C. a crop in any event.

The exports from the United States last year were nearly 150,000,000 bushels, a good portion of the District of Alberty.

or, to be exact, 146.000,000. According to Beerbohm, the Liverpool authority, the importing countries will need upwards of 90,000,000 bushels more this a rural mail delivery, but it has an judges in the competition for best fields a rural mail delivery, but it has an judges in the competition for best fields judges in the competition for best fields year than last. Admitting that these figures are near corect, these two alone account for a shortage of 200,000,000 bushels. This shortage will have to be made good by Russia, India, Argentine and Australia, and the Russian crop is believed to be much besian crop is believed to be much below that of previous years. The three other countries mentioned have yet to be estimated, but there are no grounds Soo. on which to believe that any great on which to believe that any great excess in yield is to be expected from "wet spot" left on the island, the

On the premises, therefore, as out- tal prohibition. on the premises, therefore, as out-lined above, and considering the very high price to which the coarser grains to enjoy the day's outing, witness the have reached, it is to be expected that sports, hear the speeches and listen wheat during the coming winter will to music of the American Soo Band, wheat during the coming winter will range at a reasonably high price, and the rapidity with which this will be speakers of the day were W. R. Smyth, M.L.A., A. C. Boyce, M.P., and seen will be governed somewhat by Professors Hutt and Wade of the Onthe way in which the Canadian and American farmers decide to either hold The political speakers referred to the questions of the day affecting North In local grain circles one dealer is governments at Ottawa and Toronto said to have purchased this season's winter wheat at 81c a bushel in the country, but dealers are very doubtful whether much will be procurable at ed or disapproved of their remarks.

> The report as given by Hansard on the debate is in part:
>
> "Hon. Sydney Fisher (minister of agriculture): With regard to the remarks of my hon. friend (Mr. Clements) about the San Jose scale in Nicholas Hagerman, Hagerman P.O.,Opt. western Ontario, I regret to hear so sad a description of what seems to be going on there. I have had no infall plowing. A. Montgoment, 2 Givensformation that would lead me to be-street, Toronto such as described. I know that there have been some slight appearances of the San Jose scale in Ontario, and the provincial government has been trying to help the people to cope with the disthe San Jose scale in Ontario, and the provincial government has been trying to help the people to cope with the disease and to stamp it out or at least circumscribe it. My own department, has contributed to that purpose by affording information thru Dr. Fletcher, the entomologist of the experimental farm system. On various occasions we have sent him, as well as Mr. Macoun, the horticulturist, to investigate and ascertain whether certain trees were affected with the San Jose scale or not. The official action which we have taken has been confined to preventing the San Jose scale from coming into the country. I think I am safe in saying that we have been successful in that and since the act which
