Spanish Torpedo boat darted out under cover of darkness to launch its deadly missile against an American war vessel. If she had been struck she would have gone to the bottom. What saved her? Was it her big 13-inch guns? No, it was her search-light: the dazzling white beam of light that shot straight out like a sword-thrust through the darkness, revealed the approaching danger.

What is it that saves thousands of men from death every day in the year when the deadly foe of disease is creeping unsuspected upon them? It is the white light of science; the educated understanding that reveals the source of danger and indicates the exact point of attack.

While the ordinary doctor gropes around, with the feeble tallow-candle light of stereotyped, conventional, routine treatment, a physician The Dr. R. V. Pierce, of Buffalo, N. Y., instantly illuminates the subject with the clear day-light ray of practical knowledge; the irresistible search-light of advanced and life-sustaining science.

advanced and life-sustaining science.

"I was afflicted for four years," says John F. Zingsheim, Esq., of No. 9 Lark St., Amsterdam, N. Y., in an earnest letter to Dr. Pierce. "My suffering was extreme and the trouble gradually increased notwithstanding the fact that I tried many different kinds of trantment. After becoming physically incapacitated and unable to work at all, and after much hesitation, I wrote you. I am very happy to state that your advice has done me great good. You advised Dr. Pierce's Golden Medical Discovery, and also his 'Pleasant Pellets.' I must here state that they have cured me. I wish to thank you most heartily for what you did for me. All suffering has vanished and I have gained about twenty-five pounds in weight. I used only one bottle of Golden Medical Discovery' and one vial of the 'Pellets.'"
