## RUSSIA FORCED TO SIGN GERMAN PEACE

London, Feb. 19.—Russia is now forced to sign peace upon the conditions proposed by Germany, says an official Russian statement received here today.

Berne, Switzerland, Feb. 19 .- According to Vienna dispatches Leon Trotzky, the Bolshevik foreign minister, has forwarded a wireless message to Count Czernin, the Austrian foreign minister, reading: "The German Government having re-established a state of war with Russia without even giving the seven days' previous notice, I have the honor to ask you to inform me whether the Austro-Hungarian Govern-ment also considers itself in a state of war with Russia, and if not whether it believes it possible to reach a practical realization of the agreements worked out in Petrograd."

"The hydro department is driving manufacturers from the city," said L. W. Stokes, wood turner, who uses eight horsepower. He said that he had been after the hydro department for two weeks. He says that he usually employs four hands, but at the present time his plant is broken down, and he is holding up about four factories in the city employing six to eight hands each. "If I don't get a proper answer today I will hold an auction sale and get out of the city," said Mr. Stokes.

Forced to Close.

The Ontario Spring Bed and Matress, employing 35 to 40 hands, would not leave the city, but would be forced, it was announced, to close down. This would be serious. Most of its employees are married men.

The company states if it cannot get direct current from hydro it would mean an expenditure of thousands of dollars for new motors.

Taft, former president, in an address to the enlisted men of the 85th Division here.

Discussing the probability of a big German drive on the west front, Mr. Taft said:

"The only reason I can give why there should be no drive is that the German military has said there would be, and the Germany military is synonymous with lying."

Germand's alms before the war were explained by Mr. Taft, as he interprets them. They included, he said, war on England until there was no indemnity left to pay except colonies, chiefly Can-Darch & Sons, harnessmakers, et alken no steps to secure a new ply.
