Butchers' cattle—There would be fully 1100 cattle on the market, offered as fat, when the left-overs from Tuesday were counted in with the fresh arrivals and stockers and milkers deducted. This was too many after the fairly liberal receipts of the first two days of the week. The quality of many of them was bad, no better than feeders; in fact, not more than ten to fifteen per cent, could be classed as good, and we did not see a full load of choice cattle on sale. Trade was very, very slow with prices lower for the rough class of steers with little or no fat on them. Cows and bulls sold at about steady values. Many of the sellers stated that the rough, bony, poor steers were almost unsaleable at a loss of 25c to 40c per cwt. less than was paid for them in the country. We don't wonder at the farmers not finishing their cattle when they can sell them at prices that should only be paid for good beef cattle.

their cattle when they can sell them at prices that should only be paid for good beef cattle.

Stockers and feeders—There were a few transactions but no heavy trading in stockers and feeders, as there are few well-bred steers coming. One firm has an order for three carloads from an American dealer. Steers, 800 to 900 lbs., sold at \$6.50 to \$6.75; steers, 900 to 1000 lbs., dehorned, sold at \$7 to \$7.25.

Farmers, this is near the time of the year when your calves will be coming; get some caustic ready and raise some hornless steers, which will bring you more money when you sell them, as the demand is good for this class.

Milkers and springers—There was a large number of these reported on sale and more of the good to choice classes.

Values were again reported up to the hundred-dollar mark, and in one or two instances a little more was paid.

Veal calves—The deliveries of calves were larger than for several weeks, over larger than for several weeks, over states of the Holstein breed, showing that farmers are getting wise as to their being no good to raise for beef. There was a good demand, all of them being taken at steady prices. One calf that had sucked the mother for six weeks brought \$12 per cwt. this week.

Sheep and lambs—About 160 sheep and lambs were on sale and springer for the lambs at \$7.50 to \$7.50.
