ASK USE OF LAND FOR PLAYGROUND

Danger to Children From Motor Traffic Said to Be Increasing.

Oakridge Ratepayers' Association executive committee will ask the school trustees of No. 12 school, Danforth avenue, to allow the land adjoining the building to be used as a playground for the children of the district. According to W. Farmer, the danger from motor traffic is daily increasing in the district, and the children have only the streets for their playground after school hours.

COMMUNITY SPIRIT PROMISES REVIVAL

Poultry and Animal Show Next Week Should Be Stimulus.

West Toronto at one time had a brass band, but within the last year it went out of existence. During the war West Toronto had a ratepayers' association that held meetings and semi-monthly executive sessions as regularly as time itself. Some of the associations are now waiting for something to turn up. West Toronto had also during the war years four neighbor associations in York township, where the men survived as well as the women. The men were at the front and the women at the home, and the women were at the home and the men were at the front. The men were at the front and the women were at the home, and the women were at the home and the men were at the front.

KONEY AND WAMBY BATTING DUFFERS

New York, Oct. 7.—The team batting average of the heavy-hitting Cleveland American champions for the three games of the world series dwindled to .165 when the Indians could do little with Smith's puzzling curves. Brooklyn has been going at a rate of slightly under .200 for the first two contests, and improved this today to .208. O'Neill of the Indians stands out as the series leader thus far, with five hits in ten tries at bat, including three doubles. He is followed closely by Wheat of Brooklyn, who batted out three hits and two doubles in eleven times up. The Cleveland outfield has out-hit Koney and Wambagans as the batting duffers of the leaders without a hit. The averages for the three games:
