FISH FIRMS FAIL IN NEWFOUNDLAND

Three in Liquidation, With Liabilities Exceeding a Million Dollars.

St. John's, Nfld., Nov. 26.—The difficulties which have beset the fishing industry of Newfoundland, culminated today in the announcement of the liquidation of three large fishing firms on the south coast, with total liabilities exceeding a million dollars. It was said that the assets were considerably in excess of the liabilities, but that they consisted largely of fish products and other property, which it was impossible to turn into cash under present conditions. The firms and their liabilities are the Meillon Company, Burgeo, \$580,000; Inskip Company, Burin, \$350,000; Lake Company, Fortune Bay, \$190,000. It was announced on Monday last that the government was considering a proposition to guarantee purchases of codfish in an effort to relieve the situation caused by the large quantity of cured fish remaining unsold because of prevailing low prices and lack of market in Mediterranean ports, ordinarily the chief consumers of the product. MILITARY HONORS TO DEAD OFFICERS

Services at Westminster for Ten Men Killed in Ireland.

London, Nov. 26.—Final military honors were paid here today to the victims of Sunday's assassinations in Dublin. Londoners by thousands massed themselves in the streets along the route of the funeral procession to pay silent tribute to the British officers who lost their lives in these concerted murders. The coffins of the ten men, brought to England for burial, were borne on gun carriages from Euston Station over a route two and a half miles long to Westminster Abbey, and the Westminster Cathedral, where the imposing religious ceremonies were attended by representatives of King George, by Sir Hamar Greenwood, secretary for Ireland, as chief mourner, and Premier Lloyd George, Andrew Bonar Law, Austen Chamberlain, other cabinet members, distinguished military chiefs and other government officials, and relatives of the victims.

WILSON'S BROTHER-IN-LAW INVOLVED IN SCANDAL

New York, Nov. 26.—The name of R. W. Bolling, brother-in-law of President Wilson, and at present treasurer of the U. S. Shipping Board, was before the Walsh committee investigating shipping board affairs during most of today's hearing. Tucker K. Sands, a former Washington bank official, testified to the effect that Bolling and Lester Sisler, a former secretary of the board, had shared with him the proceeds of notes for \$40,000 given the witness by the Downed shipbuilding corporation of New York for a favorable contract. John T. Meehan, deputy chief of the shipping board's bureau of investigation, told the committee that the bureau had investigated the story, but "not thoroughly." The reason that the bureau had not gone into the charges more deeply was the conviction of its members that Bolling was the victim of attempted blackmail. Meehan said he had first heard of the matter last January.

WHEAT PRICES CLOSE MORE DAKOTA BANKS

Closing of State Institutions Is Due to Withdrawals Exceeding Collections.

Fargo, N. D., Nov. 26.—Two more banks closed their doors today as a result of depleted reserves, bringing to fifteen the number of financial institutions that have shut down for similar reasons in the past two weeks. Those closed today were the Farmers' and Merchants Bank at Sherwood, and the Farmers' State Bank at Athol. The closing of state banks at this time is owing to withdrawals exceeding collections to a point where the reserves have become depleted, according to O. E. Loftus, state bank examiner. "The primary cause is the sudden drop in the prices of grain and stock to a point where if sold now will be a severe loss to the producer, and he refuses to sell," he said.

Charles Street Also Defended by Obstacles Eight Feet High.

London, Nov. 26.—The erection of barriers eight feet high which will exclude the public from Downing street and adjacent Charles street, was begun tonight with instructions that the work should be continued until it is completed. Both streets lead from Whitehall to a group of government departmental offices, including the foreign office and the India office, and also the official residences of Premier Lloyd George and Andrew Bonar Law, the government leader in the house of commons. The barriers are to be of a substantial character, foundations having been dug to receive them. Gates wide enough to admit an automobile are to be provided for in the barriers. OTTAWA, NOV. 26.—(Special).—The price of whisky has dropped in Ottawa last night at Yonge and Adelaide streets when the proud possessor of a "cock" dropped his precious bottle while hurrying across the street in front of a street car. POLICE LOOKING FOR HAMILTON MAN?

Alleged to Have Left Town After Jail Sentence Imposed for Breach of O.T.A.

Hamilton, Nov. 26.—(Special).—David Goldberg, who a few days ago was sentenced to six months in jail for a breach of the Ontario temperance act, is looked for by the police, and, according to Inspector Sturdy, he is not in Hamilton. Efforts to locate him here have failed. Goldberg it will be recalled, said he owned \$12,000 worth of whiskey which Inspector Sturdy took from the cellar of the home of his father, William Goldberg, 160 Park street, some two weeks ago. The liquor was confiscated and has been sent to Toronto. The result of the seizure was information laid by a liquor spotter who caught Goldberg and bought gin from him. When the case was heard in court Goldberg was not present, but Senator George Lynch-Staunton appeared for him. He was informed by Magistrate Jeffs, after the case, that his client was guilty and would be sentenced to six months in jail, as it was the second charge. There was some discussion as to whether or not it was the second charge, and Inspector Sturdy had to prove the second count, which he did in court to the satisfaction of Magistrate Jeffs, and the commitment order was signed. But when Inspector Sturdy went for Goldberg he could not find him. The inspector told The World tonight that he thought he had left Hamilton, and he is hot foot after him. Inspector Campbell, when asked if he had their will clearly on Goldberg, said that they were not, and said that the sentence was never passed, but Inspector Sturdy flatly denied this.

GREECE WILL TAKE A SECRET BALLOT

Government Issues Explanation of Holding Plebiscite on December 5.

Athens, Nov. 26.—Reasons for the holding of the plebiscite in Greece on December 5 with regard to the return of ex-King Constantine, to the throne are given in the cabinet's proclamation of the plebiscite, made public today. This says: "By the elections, the Greek people expressed their will clearly on the question of the dynasty to those who had cast doubt upon the rights of Constantine, but a plebiscite will be held on the subject of the plebiscite to emphasize their will in order to show that the throne obeys its motto, 'My strength lies in the people's love'." Therefore a secret vote will be held December 5, authorizing the government to beg the king to return to the throne.

KEEP WINDSHIELDS CLEAN, SAYS JURY

Driver Fails to Take Precautions During Storm.

Another case of negligence was brought to light last night when Dr. W. J. Stevenson testified in court to the effect that Nicholas Stojarski, aged 18, the driver of the Buick which struck Wm. McCreary, aged 26, at 5:30 p.m., November 26, near the corner of Desjardins avenue and Queen street, was incompetent and a rider was added recommending that his license be passed, compelling all drivers to keep their windshields clean during a storm. Stojarski was leaning on the left side of the car watching a Queen street car traveling east ahead of him and did not see McCreary, who came from the right, until he was a few feet in front of the auto. It was stated that the windshield was closed, preventing any vision on the right.
