A REASONABLE PRICE

Glasses Prevent Many Headaches

The reason is simple. Properly fitted glasses take away eyestrain by permitting light rays to be focused on the retina without undue muscular effort. You can't strain any muscle without pain. In the case of eye muscles the pain domes in the form of headaches, nervousness, tired, itching, aching eyes.

Let us examine your eyes. We will determine their exact condition and advise you as to what you should do. Glasses wil not be recommended unless absolutely necessary.
