EFFICIENCY IN THE HOME

Is the American housewife facing a great revolution? Is the efficiency idea, which has already revolutionized many industrial plants, now going to attack that last stronghold of tradition—the American Home? Signs point that way. The idea of motion study, standardized conditions of work, scientific management of servants, had simply to be announced to strike a responsive chord among intelligent home-makers. Efficiency is in the air, and has permeated to the kitchen no less than to the counting-room, and to general home-making—even to woman herself.

No one disputes that the home is the last of great industries remaining un-organized. Every other great division of the work of the world has become more or less emancipated from personal drudgery, from the ancient apprentice system from unstandardized work and pay. For this reason those who formerly gladly entered the ranks of household workers have been attracted to many other professions. According to figures compiled by the Business Bureau, families employing servants number only 8 per cent of the population, which means that the average American woman does the bulk of her own house- work.—From "Putting the American Woman and Her Home on a Business Basis," by Christine Frederick, in the American Review of Reviews for Feb- ruary.

TEMPERANCE GAINS

Summing up the situation in regard to the liquor traffic a Toronto prohibi- tion paper says:—"The roll of prohibition states now practically includes Maine, Kansas, North Dakota, Georgia, North Carolina, West Virginia, Mississippi, Tennessee, Oklahoma and Arkansas. Ohio has just wiped out 8,000 bar-rooms by a new liquor law. Illinois won twenty-three victories last November out of twenty-eight contests. From across the ocean comes news of prohibition victories in Norway, where large towns are voting out the old Gothenberg system. The British parliament has passed a law keeping every public house in Scotland closed until ten o'clock on every morn- ing and giving the people local option power. France is considering a sweep- ing measure of liquor restriction. In Australia and New Zealand gains are being made. Canada leads the van. The province of Prince Edward Island has no license. In Nova Scotia there is no lawful liquor selling outside the city of Halifax. There are only 187 licenses left in the whole of New Brunswick. Struc- ture prohibition in 859 parishes. Half of Manitoba is dry. Saskatchewan has started a banish-the-bar campaign. In Ontario 619 municipalities have already lined up on the side of prohibition."

Cause of Inefficiency in Housework By watching myself any others at work I have been able to group the causes of 80 per cent of the inefficiency of modern housework:

- 1—The worker does not have all the needed tools or utensils at hand before her when she begins to work; therefore, 2—She wastes time and effort walk- ing to, hunting for, or fetching ingredi- ents, tools, or materials she neglected to have at hand when she began the task. 3—She stops in the middle of one task to do something else quite unrelated. 4—She lowers the efficiency of good work by losing time putting tools or work away, generally due to poor man- agement of kitchen, pantry and closets. 5—She uses a poor tool, or a wrong

IN MISERY AT MEAL TIME

Indigestion Can Be Cured by the Use of Dr. Williams' Pink Pills

If your digestion is weak you can- not derive proper nourishment from your food. The pain and distress you suf- fer is a protest from your stomach that it is unable to do its work. It is then that you lose all appetite, have dull head- aches, acute pains in the chest and ab- domen, heartburn and other distressing symptoms.

You cannot cure indigestion by the use of laxatives, and pre-digested foods only make the stomach more sluggish. Indigestion can only be cured by giving tone to and strengthening the nerves that control the stomach. Dr. Williams' Pink Pills have cured indigestion times with- out number, because they purify and en- rich the blood. In this way they im- prove the appetite, dispel the torments of indigestion and enable you to derive benefit from the food you take. The following is proof of these statements: "I have been suffering from indigestion for many years. I have taken many different doctors, but instead of getting well seemed to be growing worse. I could not eat without suffering the most in- tense pains; even a drink of milk seemed to upset me. I slept poorly and at last dreaded to see night come. In this condition I saw in a newspaper the story of a woman who had similarly suffered and was cured through the use of Dr. Williams' Pink Pills. I decided to try the Pills and found by the time I had taken three boxes that they were helping me. I continued using the Pills until I had taken eight boxes, when the trouble had disappeared, and I have to thank Dr. Williams' Pink Pills for restoring my health after I had practically given up hope of ever being well again."

one; or works at a table, sink, ironing-board or mending-board of the wrong height from the floor. 6—She loses time because she does not keep sufficient supplies on hand, and because she does not keep her tools and utensils in good condition. —From "Putting the American Woman and Her Home on a Business Basis," by Christine Frederick, in the American Review of Reviews for Feb- ruary.

MAY SUCCEED TO POST IN BANK OF MONTREAL

R. B. Angus, who has been traveling in Egypt and is now in Paris, is due to arrive in London tomorrow. He is mentioned as the probable honorary president of the Bank of Montreal, in place of Lord Rathmore. Cyril Galsbol, London manager of the Bank of Montreal, has acquired Farmwood, the beautiful Asot residence of Sir Frederick Taylor, his predecessor. The new manager is single, and has hitherto lived in club quarters.

"Eat More Bread"

Of course you should "eat more bread"—and less meat—but be sure your "bread" contains all the body-building material in the whole wheat prepared in digestible form. The only "bread" that fulfils all these requirements is

It is made in Canada of Canadian whole wheat steam-cooked, shredded and baked. It is a natural, elemental food and is not treated or compounded with anything. Its purity, cleanliness and food value stand unchallenged, being endorsed by the highest health and dietetic authorities in Canada and the United States.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

The Canadian Shredded Wheat Company, Limited

Niagara Falls, Ont. Toronto Office: 49 Wellington St. East W. 21

A WONDERFUL REMEDY

Orange Lily is daily curing the most obstinate cases of Female Dis- orders. Failing of the Womb, Leu- corrhoea, Painful and Suppressed Menstruation, etc., etc., are all of them relieved from the start by its use. And a few weeks' or months' treatment accomplishes a complete cure. This remedy is a positive scientific preparation and is based on the discoveries of Pasteur and Lister. It is a purified treatment that is, it is not taken internally, but is applied directly to the suffering parts, and it therefore, acts with all the certainty of the known laws of chemical action. As it comes in direct contact with the diseased tissue, its antiseptic and nerve-food properties cannot help have a beneficial influence. I receive from 25 to 50 letters daily, speaking of the benefits and cures it is performing, and so sure am I that it will do what is claimed for it that I will send, absolutely free, a 50c box to every suffer- ing woman who will write for it. Price \$1 per box, which is sufficient for one month's treatment. Address, MRS. FRANCES E. CURRAN, WINDSOR, ONT.

The Glenwood Ash Chute No more ashes to carry; no clumsy ash-pan to spill dust or dirt on the kitchen floor. The GLENWOOD ash chute solves the problem. It is situated just beneath the grate and connected by a sheet iron pipe, straight down through the kitchen floor to the ash barrel in the cellar. No dust can escape—just slide the damper once each day and drop the ashes directly into the ash barrel. This is only one of the splendid improvements of the plain- CABINET GLENWOOD—the range without ornamental or fancy nickel. At least one-half of all GLENWOODS are sold through the enthusiastic recommendation of a satisfied user. McLean Holt & Co. Limited 155 UNION ST. ST. JOHN, N. B.
