### LARGEST DRY DOCK

Work at Belfast Will Cost \$1,750,000—Interesting Tests

Interesting tests are being carried out at the new graving dock under construction at Belfast. The dock will have a larger area than any other dry dock in the world, though in length there are some that exceed it. Its normal length is 330 feet, but the removal of a caisson gate can give an additional length of 30 1/2 ft. The entrance has a clear width of 90 feet and the floor level of the dock is 100 ft., while the distance between the coping is 128 feet. The depth of water in the dock at high tide will be 3 feet 9 inches. The work in all respects is progressing night the tests were as to the watertight character of the work, and proved satisfactory.

## WHAT CAN I DO FOR MY SKIN-TORTURED BABY?

In the Despairing Cry of Thousands of Mothers, A Scotchwoman Tells How Her Child was Cured.

"What can I do for my skin-tortured baby?" How many worried, worn-out mothers, whose children are suffering with eczema, tetter or other torturing, disfiguring humors, have asked this question. Through neglect or improper treatment, some minor eruption has developed into a distressing and unsightly affliction. Simple treatments fail, and stronger ones are tried, sometimes to harm that the effecting is far more present than the skin disease will become chronic, turning the child's future into a nightmare of physical and mental misery.

So many mothers, who have witnessed their children's suffering and who have undergone the long, sleepless nights and the anxiety which they alone can realize, will understand the gratitude that prompted the letter from Mrs. John Ewan, 5, Victoria St., Liverpool, Scotland, who will read it with keenest interest.

"I used Cuticura Soap steadily for my baby's skin. She had the eczema when she was three months old. She was an awful mess all over her body. We never thought she would get over it. We used with her every day for about a month, expecting every minute to see her die. The doctor gave me no hope. He told me to rub her with but it did her no good. My mother was home from her hospital and told me to try Cuticura Ointment and to wash her with Cuticura Soap and she was quite cured. She has the purest skin and is the fattest baby now! She is a miracle, the doctor declares, and is able to play about it."

And that the same Cuticura Remedies is not confined to the treatment of eczema, but is equally effective in the treatment of skin diseases in all parts of the body. When my little Vivian was about six months old, she had a terrible skin disease. All that time she was covered with prickly heat, and she was scratching her own head and face. I used three boxes of Cuticura Ointment and she was cured in all and she had about six months of Cuticura Soap and Cuticura Ointment which cured her of them entirely. We do think Cuticura Remedies too highly."

That mothers may test the efficacy and economy of the Cuticura Remedies for themselves, the Foster-McClellan and Chem. Corp., 121 Columbus Ave., Boston, Mass., will send free of charge, a generous trial box of Cuticura Ointment, sufficient to afford immediate relief in the most distressing forms of eczema, rashes, itching and scaling of the skin and scalp. Under the influence of Cuticura Ointment, the itching and burning stop, the child falls into a refreshing sleep, the mother rests, and for the first time, perhaps, in many weeks, peace falls on a distracted household.

Cuticura Remedies are sold by druggists everywhere.

### SUFFRAGE IN KANSAS

Alice Stone Blackwell says that the best thing that the state of Kansas ever did was to grant municipal suffrage to women. ### A HAPPY GATHERING

It was a jolly, happy lot of young men who sat around the festive board in White's restaurant last night at the banquet of the Father Mathew Association's baseball team, and after they had done full justice to the splendid menu, which Hon. Vincent had prepared, they proceeded to the King with musical honors to enjoy themselves in other ways. F. V. Conlon, president of the F. M. A., was seated at the head of the table, and on either side sat Frank deGrasse, president of St. Peter's; F. P. Fuller, president of St. Joseph's; D. Colgan, F. Howard, E. Harrington, F. Howard and P. E. Mc-

Gowan, captains of the baseball teams in the Intermediate league, of which the F. M. A. won the championship. Each of these gentlemen made brief speeches, as did Fred. J. Hazel, captain of the winning team and W. V. Brophy, manager to whom the championship cup was presented. The usual toasts were proposed and responded to, the King with musical honors, the Ladies, D. J. Corr, and A. P. Jennings; the Press, Wm. D. Ryan, and J. B. Dwyer; St. Peter's and St. Joseph's societies by their respective presidents; the F. M. A., J. J. Lunney, and A. Bardsley. ## INTERESTING Fall Millinery

The millinery department at this time is one of the busiest spots in the store. The Hats are in large variety of styles, becoming to everyone. The small close fitting shapes with fairly high crowns and large bow of ribbon, high feather mount near the back are much in evidence and most charming with tailored costumes.

For afternoon wear or to be worn with the more elaborate toilettes the large dress hats, correspondingly elaborate are made of light colored satins with trimmings of lace and flowers or in black with handsome willow plumes are more beautiful than ever. Then there are Chic Beaver Hats simply trimmed that are dressy and most becoming to young girls and children.

A touch of Dresden silk in fancy light or dark colors gives a pretty finish to either light or dark hats, while wings, feather mounts or plumes are also very popular.

Willow Plumes to match any costume.
