Statement: I can say confidently and assure e interested, or a sufferer, that I positively owe my life and present excellent health to the results brought about by their use. I was taken sick and confined to my bed on December 28th, 1893, and was successfully treated for La Grippe, then Pleurisy, followed by Kidney Troubles, and latterly Bright's Disease. I lost the use of all my limbs; my entire body became swollen to a terrible size, and my skin became as hard as and similar to leather, the pores all having closed up, and I suffered the most agonizing pain. I was subject to periodical spells of utter prostration and insensibility, to a state of absolute coma. I was also a victim of dan gerous convulsions in which my facial expression and other muscles would become severely contorted

2. My regular physician attended to me, and, though medical consultations were held over my case by two city doctors, nothing could be done. My case grew gradually worse and latterly I was given up as hopeless. My wife, friends, and neighbors were certain from what they saw and were told by the visiting do

I started to take them right After the first box I was wonderfully improved, and at the end of the fourth I was sure I was to get well again. I continued taking them until the seventeenth box, and I can now positively declare that I am perfectly cured and able to do a day's work with any of my com-rades in the shop, and Dodd's Kidney Pills undoubtedly cured me, be-
