WEEKLY SUN, ST JOHN, N B., MARCH 3, 1897.

PROVINCIAL.

10

ALBERT CO.

Hopewell Hill, Feb. 25 .- The snow storm day before yesterday was the worst of the season. About a foot of snow fell. R. Peck of Boston is visiting W.

his old home here. A new company, to be known as the Albert Carriage Mfg. Co., begins operations at Albert right away. La grippe is very prevalent in and around Albert village.

CARLETON CO.

Woodstock, Feb. 25 .- The funeral of the late Col. W. T. Baird took place this afternoon from his home in Graf-Numbers of people turned out ton. from all parts of the country to be in attendance. Service was held at the house by Rev. Dr. Chapman, Rev. C. T. Phillips and Rev. Thos. Todd. At three o'clock the procession formed for the Methodist cemetery. John D. and Paxton Baird, sons, Rev. Thos. Marshall and Dr. Ayer, sons-in-law, carried the casket from the house to the hearse. The procession was just one half a mile in length, comprising some sixty sleighs. At the grave the service was read by Rev. Dr. Chapman A feature in the funeral was the turn-out of the Boys' brigade in uniform under the direction of Major Vince

CHARLOTTE CO.

St. Stephen, N. B., Feb. 26 .- A largely attended meeting of the citizens last evening took the opening step for the observance of the Queen's diamond jubilee. An influential committee was appointed. The speakers generally favored the erection of a public hall and library, together with a grand demonstration.

St. Andrews, Feb. 26 .- The trial of the cause of Newton Bros. v. John D. Guptill occupied a Charlotte county court all day Tuesday and Wednes day, and the forenoon of Thursday and resulted in a verdict for the plaintiff for \$172.36. The amount sued for was \$275.37.

Mr. Magee, dominion express agent. found at his office door yesterday morning a crock of butter without a mark. He supposed some one had left it there for shipment by express. The shipper did not materialize. It subsepuently developed that the crock was removed from Hart & Greenback store the previous low's day. H. & S. sent their clerk on Wednesday evening to inform the man suspected that unless the crock was returned there would be trouble. It is supposed the guilty one took this method of complying with the demand made upon him, leaving it during the night at the express office door, which is across the street from Hart & Greenlow's. Query now is, was the firm correct in their suspicion.

KINGS CO.

Mechanics' Settlement, Feb. 23 .- At the last meeting of Phoenix Lodge, No. 125, I. O. G. T., the following officers were installed: Robert Crossman. Cers were installed: Robert Crossman, C. T.; Etta Moore, V. T.; W. J. Lock-hart, R. Sec.; Lena Moore, F. S.; Edith Moore, Treas.; Willie Bustard, Mar.; Thos. Moore, Chap.; G. Stanley Moore, Sen.; Mabel Long, P. C. T.; Thos. Long. Cuard

got out this season. He thinks Mr. of their zeal, and of their prayers. White will have no difficulty in get- During the morning session of the ting out between four and five million feet at Point Wolfe, and as far as he can understand nine million feet at Apple river, N. S., making a total approaching fifteen million feet and with much less labor than on previous winters' doings. M. A. Ferguson has just returned

from a trip to the northern part of the province. He is credited with making an excellent strike in a lumber deal with others there. district.

Sussex, Feb. 27 .- In calling at the dairy school today I found them busy making butter. The milk is separated

in the morning, after which the churning of the cream which had been separated the day before is churned. In the afternoon milk testing and printing of the butter is carried on. The up stairs of the building is fitted up for lectures, which makes a very comfortable class room. The superintendent said to me that the government in establishing this school and extending the courses this year in butter-making, that the object was to accomplish the most good by giving an opportunity to as many as possible to attend the school, while the first object was to those intending running creameries, yet it was intended for those engaged in private dariving, which means farmers' wives and daughters. Mr. Hopkins, who ningly never tires in imparting all in his power, says, if the ladies would arrange in different sections to spend a day or two at the school he would arrange two days in the course especially for them, and he would try and make it agreeable as well as profit-

able for them, and while this is not the time of year for picnics, yet I think if our lady friends would bring their baskets and avail themselves of a day or two at the dairy school, it would be just the right thing to do.

QUEENS CO.

Mouth of Jemseg, Feb. 25.-While David Vail was yarding logs his horses started to run away, and a hook on the end of a chain caught Mr. Vail's leg, making a severe lacerated wound. He is now unable to attend to his daily work.

Rev. W. J. Blakeney will preach in the Baptist church every alternate Sunday afternoon.

The hall at Upper Jemseg on Wednesday night was filled by listeners to hear the lecture given by the Rev. C. W. Townsend from the life of Whitfield. The sum of \$23 was realized, which nearly pays the debt on the hall.

WESTMORLAND CO.

Upper Cape, Feb. 23 .- A basket so cial held at Harvey Allen's on Saturday evening was a decided success, realizing the sum of \$21.25 A basket social held at Fraser Allen's on Saturday evening, 13th inst., realized \$12.25.

Clarence Allen was slightly injured In the woods here a few days since. He was chopping a lodged tree when limb fell striking him on the head.

McAlpine, the mighty, visited Port Elgin a short time since and as a result of his visit several persons will lose their official heads.

Rayworth Bros. are doing a rushing winter for themselves and are buying the object of the issue, viz., to obtain

During the morning session of the following day a paper was read en-titled, "The relation of the work at home to our missionaries." Miss Rob-ertson then showed the ladies a number of Japanese curios and photographs. Miss Robertson's presence at convention, together with that of Mrs. Hart, the mother of our mission aries, has been an inspiration to each A deep interest has pervaded these services, and no doubt good will be the outcome in many places in the

YORK CO. Fredericton, Feb. 26 .- The legislature had a short session today.

This morning the municipalities ommittee was occupied with the St. John taxation bill, the chief provision of which is to tax all foreign corporations except banks one per cent. on their gross income in New Brunswick, instead of on five times their net income as at present. Ald. Millidge heard first in support of the bill.

H. H. McLean, representing the C. P. R., Dominion Express Co., Western Union and Massey-Harris Co., and J. D. Hazen, representing the Imperial Co., followed in opposition to the bill, and Recorder Skiner replied. No action was taken. The committee will consider the bill tomorrow.

The university of Edinburgh has intimated that the science classes of the university of New Brunswick shall be taken as a full equivalent for the classes required for the first professional examination in medicine. This enables students of our university to have a year or a year and a half of the medicine course in Edinburg university.

The reception given by the Lieut. Governor and Mrs. McClelan in the ssembly building tonight was attended by between four and five hundred persons. The guests were received by His Honor and Mrs. McClelan in the main assembly chamber, which had been prepared for the occasion. An orchestra from the Military band was tationed in the speaker's gallery, and during the evening Mrs. C. H. B. Fisher, Mrs. W. T. H. Fenety, Mrs. O. S. Crockett, Miss Alma Gibson, Mrs. Cameron and Prof. Bristowe sang a number of selections, solos and duets. The ladies' orchestra, under the direction of Prof. Cadwallader, also rendered some very excellent music, which called down warm applause from their

audience. An excellent supper was served in the library. Among those from St. John were Col. Tucker, J. D Hazen and H. H. McLean. Fredericton, N. B., Feb. 28 .- Mrs. Payson, wife of Edward J. Payson, general secretary of the Y. M. C. A.

met with a serious accident last night Going out of the gymnasium she fell through a trap door, dislocating her shoulder and arm and otherwise injuring herself. The trap had been accidentally left open. John L. Carleton delivered a lecture

this evening in St. Dunstan's hall on John Boyle O'Rielly, the poet of humanity.

It is now stated here that the legislature will probably continue till the 12th of March.

The bill to authorize the St. John railway to issue bonds to the amount of \$700,000 was before the corporation committee, Saturday morning, Hugh business in the lumber line. They committee, Saturday morning, Hugh have kept their mill busy sawing all H. McLean was heard and explained

ly with misrepresentation and re flecting very severely on his conduct The promoters claim that the formation of the new company is neces sary if the road is ever to be built. Mr. Pugsley read a letter from Mr. Boselly in which he characterized the new bill as the "most vicious political trick" of which he had heard, as the "most iniquitious legislation of modern times." He repudiated all insinuations of bad faith and wrongdoing on his part. The committee postponed consideration of the bill till Wednesday, when lively scenes are exnected.

1

FAIRLY WELL ISN'T WELL ENOUGH.

Let us say that your wages are twenty shillings a week. You have worked hard, done your best, and feel that you have earned your money. Very good. Now imagine that when Saturday night comes your employer hems and haws, and wants to put you off with fifteen. I'll be bound you would think yourself hardly treated. What are the great strikes in this country commonly about ? Why, in some fashion they are about wages or hours; it comes to the same thing. Be it understood that the writer uses this fact as an illustration of another fact -that is all. What is the other fact ? We will work it out of the following personal statement:

"Nearly all my life," says Mrs. Sarah Dalby, "I have ben subject to attacks of biliousness, accompanied with sickness, but got on fairly well up to the early part of 1882. At this time I began to feel heavy, dull and tired, with an all-gone, sinking sensation. My skin was sallow, and the whites of my eyes of a yellow tinge.'

As everybody knows, or ought to know, the coloring matter was bile. Tht liver being torpid, and therefore failing to remove the bile from the blood, it entered the skin, and showed itself on the surface. But the discoloration isn't the worst mischief done by the vagabond bile, containing many poisonous waste elements; it disorders the whole system and sets up troublesome and dangerous symptoms, some of which the lady names.

"I had a bad taste in the mouth." she goes on to say, "and in the morning particularly, was often very sick, retching so violently that I dreaded to see the dawn of day.

"My appetite was poor, and after eating I had pain at my chest and side. Frequently I couldn't bring myself to touch food at all, my stomach seemed to rebel at the very thought of it."

This was bad, but the stomach was right, nevertheless. More food would have made more pain, more indigested matter to ferment and sour, more of a load for the sleepy liver, more poison for the nerves, kidneys and skin. And yet, without the food, how was she to live? It was like being ground between the upper and nether millstones.

"After this," runs the letter, "I had great pain and fluttering at the heart. Sometimes I would have fits of dizziness and go off into a faint, which left me quite prostrated. Then my nerves became so upset and excitable that I got no proper sleep at night.and on account of loss of strength I was obliged to lie in bed all day for days together. I went to one doctor after another, and attended at Bartholomew's and the University hospitals, but was none the better for it all. er. 1883. my husband read 'In Sept in Reynolds' Newspaper about Mother Seiel's Curative Syrup, and got me a bottle of it. After taking it for three days I felt relieved. Encouraged and chered by this I kept on taking the Syrup, and in a short time all the pain and distress abated, and I was wellbetter than I had ever been. That is ten years ago, and since then I have never ailed anything. With sincere thanks, I am yours truly, (Signed) Mrs. Sarah Dalby, 93 Tottenham Road, Kingsland, London, N., January 2nd, 1894.' Now run you eye back on the first sentence of Mrs. Dalby's letter, and mously resolved to strike out of the you will come upon these words, "I got on fairly well," etc. This is the sad thought. Her life had always been at a discount; she has always got less than her due; she lost part of her health-wages. Do you take my meaning? Of course. Whatever may be our differences of opinion as to the rights of capital and the value of labor, it is certain that every human being is entitled to perfect health-withwas out reduction, without drawback. All the more, as nobody else loses what one person thus gains. No, no. On the contrary, a perfectly healthy person is benefit and a blessing to all who are brought into relations with him. But do all have such health ? God help us, no; very, very few. Why not? Ah, the answer is too big; I can't give it today. To the vast crowd who only get on "fairly well" I tender my sym pathy, and advise a trial of the remedy mentioned by Mrs. Dalby.

Thos. Long. Guard. Much sympathy is felt for Mr. and

Mrs. J. W. Chambers, who have been called to part with their baby boy after a short illness.

Robert Bustard is quite ill at present. Mrs. Richard Moore has been very ill, but under the treatment of Dr. Burnett is improving. Edward Connely of Roxbury is very in at present. He is attended by Dr. Ryan. Miss Etta Moore is visiting her brother at Petitcodiac. Sussex, Feb. 25.—On a visit to the

dairy school this afternoon your correspondent found it in full operation. students were found busy printing today's make of butter, which your correspondent was invited to sample, and found it very fine. It is neatly encased in paper prepared for it and has the words Dominion Dairy Butter neatly inscribed upon it. All the students have not arrived yet, but Superintendent Hopkins says he is receiving daily a number of applications, and the next course of butter making, which commences on March 5th, will be larger; also it is expected that a number of ladies will take second course. The instructions daily are in all the lines of butter making and the handling of the milk. There is a full staff of instructors. Superintendent Hopkins oversees the manufacturing and Mr. Tufett has charge of the separation department, and Harvey Mitchell of Fredericton gives instructions on testing milk and Cyriaque Daigle, a graduate of Guelph Ontario, is recorder. It will repay any one to spend a few days at this well kept dairy school if they cannot take the whole course. It is alike creditable to both the officers in charge as well as their pupils to see everything in the best of order, and cleanliness is

certainly one of the factors. The meeting of the parishioners of Trinity church, held in Masonic hall ast night, was quite large. Rev. Mr. Neales, the rector elect, was present and was asked to preside. The finan-cial report of affairs was, notwithstanding recent difficulties, found to be in a most satisfactory condition. It was found that Mr. Neales will not be able to assume his duties until about 10th July next, owing to obligations with his present congregation at Andover. He will, however, visit the church in Sussex about Easter time to remain about two weeks. The ladies, who had been attending their Sewing Circle, dropped in during the evening and very much added to the interest of the proceedings.

Rev. Mr. Neales left for Andover this evening and hopes are now felt that Trinity church will begin a new career of usefulness.

Edward McLeod, a well known farmer, died suddenly at his residence. Lower Mill Stream, last evening, in the 68th year of his age. The deceased had been out during the day and died after having cared for his leam at his home in the evening.

Sussex, Feb. 26 .- Robert Conley, who is largely engaged in lumber operations for Charles T. White at Point Wolfe, is in Sussex today, and stated snow and other conditions for lumbering are excellent, and that large quantities on the shore will be to give unreservedly of their wealth,

all the deals they can besides. Monoton, Feb. 25.-News has been received here of the death of Miss Harper, sister of Mrg. Evans, wife of Thomas Evans, chief cierk in the I. C. R. general manager's of-fice, which occurred at Valdosta, Georgia, yesterday morning. Miss Harper, whose par-ents live in Montreal, was resident in Monc-ton for some time previous to going south last fall. all the deals they can besides.

ton for some time previous to going south last fall.
Danny J. McNaughton of Moncton, writes to the local papers saying that if Dan Fitzof St. John wishes to box him in Moncton, March 10th, he must put up a forfeit of \$15 with some of the St. John papers and he is prepared to do likewise.
At a meeting of the I. C. R. Relief and Insurance association, held here yesterday, Jos. Rafferty, T. H. Williams and James Coles were the St. John delegates. Disability claims amounting to \$6,750 were passed.
E. Balser, in whose case the papers were stolen from the police office a few days ago, was yesterday convicted for violation of the act, and fined \$50 and costs. A large number of other cases are in progress and it is said some third offence cases will be proceeded with shortly.
Mr. and Mrs. H. A. Whitney left today for Valdosta, Georgia, where they will spen the balance of the winter for the benefit of Mrs. Whitney's heath.
Moncton, N. B., Feb. 26.—A coron-

Moncton, N. B., Feb. 26 .- A coronr's inquiry was commenced here this

afternoon into the couse of the death of Adelia B. Gray, a young woman about seventeen. Reports in circula-tion pointed to infanticide and perhaps something worse, but the inquiry so far has developed nothing positive beyond that the girl was sick, destitute and had been beaten by her mother. One witness swore that the girl's mother said if the de-

ceased had a child she would kill it. Other witnesses swore there was no thing wrong with the girl. A postmortem will probably be held. Sheriff McQueen was in town today and said the letter purporting to from John E. Sullivan, convicted of the Dutcher murder, was not writ-

ter by him and Sullivan knew noth-ing of its publication. All letters to and from Sullivan are subject to of-ficial inspection, and nothing reflect-ing on the judge would be allowed

to go abroad. Fire broke out in the engine room of the Record Foundry and Machine porations committee. This line is Co. today. Only slight damage: cause, the same as is covered by the char-Co. today. Only slight damage; cause, unknown

Baie Verte, Feb. 26 .- The first meeting of the Sackville district of the Woman's Missionary society of the Methodist church," opened in Baie Verte on the afternoon of the 25th inst. Mrs. Hart, district organizer, took the abair and onened the source took the chair and opened the session with a prayer service. Owing to the storm all the auxiliaries in the district

were not represented. Reports were received, which were guite encouragng. Testimonies from the different members were then received as to what led them to join the W. M. S. In the evening a public meeting of unsual interest was held, when Miss Robertson, returned missionary from Japan, gave a clear and telling account of the work done by our society in that country, When she spoke of the difficulties endured by our mis-

sionaries in travelling to the distant stations, all present seemed to realize as never before, what our brave and dauntless workers were doing as our of survey he had only paid a little representatives. She closed with an earnest appeal to all not before interested in mission work, to consider dollars of unpaid bills in connection their responsibility and privileges, and

two hundred thousand dollars to pay for new power house, improvements in gas works and make extensions and five hundred thousand of bonds to be applied solely to redeem existing bonds, the object being to have only one mortgage on property now owned or hereafter acquired. It came out in the course of discussion that Sir Wm. Van Horne and James Ross had genrously advanced over sixty thosand dollars to make the improvements now in course of completion without any charge to the company. The committee unanimously recommended the passing of the bill. The municipalities committee unani-

St. John assessment bill section which provided for taxation at one per cent of the gross income of foreign corporations, and to recommend the bill to the house with this omission and some slight amendments, which do not alter the effect of the measure. Consideration of the bill authorizing the city of Moncton to issue debentures for \$40,000 for the erection of a new school house postponed till Thursday next to give the opponents thereof an opportunity of being heard. A bill in amendment of the sewers and marsh lands' act, relating to marshes and bogs along Missiquash River, on the boundary between New Brunswick and Nova Scotia, also stands till next week.

The sub-committee of the corpora tions committee, to whom was referred the St. John Terminal railway bill, formally reported this morning that the amendments were agreed on and the committee resolved to recom-

mend the bill as amended to the house A bill to incorporate the Restigouche the Western Railway Co. for the con struction of the line from Campbellton to Van Buren, to connect with the Bangor and Aroostook, caused considerable discussion before the corter of the Restigouche and Victoria Colonization company, which charter

would be nullified by the pasage of the bill now presented. Mr. Pugsley, on behalf of A. I. Trueman, who is retained to present the case for the Restigouche and Victoria Co., asked to have the matter stand till Wednesday next to give Mr. Trueman, who could not be present today, an opportunity of being heard. Messrs. Labillois and Mott, who appeared in behalf of the promoters of the new company, objected to delay, claiming that Mr. Boselly of Toronto, president of the Restigouche and Victoria company, was seeking it for dishones purposes. They boldly characterized him as a man absolutely unworthy of confidence and charged that he had appropriated to his own use \$10,000 or \$11,000 of some \$17,000 which a Mr. Demetz of New York had paid to him for the enterprise; that whereas he had received this amount for expenses over \$4,000 of legitimate bills, and were now several thousand there with same. Mr. Mott read a letter

THE FROZEN HERRING

Gloucester, Mass., Feb. 25.-A dehat the frozen herring season has practically closed. The last Glouces-ter vessel has just left Placentia bay for home with a fair cargo. Several other cargoes are also on the way. The season has been a fairly prosperous one, and just now prices are higher.

A little sugar added to turnips, beets and winter squash will be an improvement.

HEART DISEASE STRIKES DOWN ALL. CLASSES.

The Essential Matter is to be Prepared for Any Emergency.

It is painful to pick up the daily papers and observe how people of all classes are being stricken down with heart disease and apoplexy. One day it is the farmer in the field, again the aborer carrying his hod or, as this week a prominent architect in Ottawa. Perhaps it is not too strong a statement that 80 per cent. of the people of Canada are afflicted with heart disease to some degree. What a blessing it is then, that there exists a medicine like Dr. Agnew's Cure for the Heart, which is so quick in producing relief. Instantly the patient obtains that ease that is so longed for when the heart is afflicted. There is absolutely no case of heart disease that it will not help, and with few exceptions, will produce a radical cure. from Mr. Demetz charging Mr. Bosel-
