STILL ANXIOUS FOR RACE-LIP-TON WILL RACE AGAIN IF RULES ARE REVISED.

BOSTON, Aug. 31--The mind of Sir Thomas Lipton, despite his three unsuccessful attempts, is still set upon the winning of the America's Cup, according to an interview had with him while abroad recently by former Mayor John F. Fitzgerald, who was Sir Thomas's guest. The hospitable Mr. Fitzgerald's paper, will publish tomorrow an interview quoting the yachtman as follows:

"I am just as anxious and as determined to continue my efforts toward winning the America's Cup as I was the day Shamrock I was launched. My former efforts taught me that to succeed I must build a boat capable of beating the American defender despite the enormous help of the rules governing the deed of gift in the cup. There is no doubt in my mind but that Designer Watson actually worried himself to death over the project. COMPLETE PLAN TO PREVENT WAR TORONTO, Ont., Aug. 31--Lord Charles Bessborough formally opened his Toronto fair today. In reply to the address presented to him, Admiral Bessborough said in part: "There must be a carefully compiled, concise and practical plan for deterring the enemy's fleet if war should unfortunately be forced upon us. A complete scheme should prevent war and ensure peace."

"The question of the safety of the Empire should be put beyond any possible doubt whatever at sea has been threatened in language that is unmistakable. In the near future that threat may become a reality. It is our business to see that our present position is not jeopardized in any way."

"If the result of the London conference produces imperial organization for the Empire, it should preserve our supremacy intact. The latent resources of the Empire have not been called upon as yet to join in organization which, to be effective, must be based on broad, national, and imperial lines, totally devoid of personal, party, or selfish motives--an imperial defense founded on principle of the nations, one united jack, one navy, one army, one throne."

"We have arrived at a crisis in our history as an Empire. We aim at no aggressive action or increase of territory, nor do we hold threats to other nations. We wish to keep clear of all international disputes. We wish to consolidate the Empire for the purpose of mutual advantage and defense."

"But we are determined to hold our own, and let all know that our unassailable supremacy at sea shall be kept. Instead of the British navy solely maintaining that supremacy as in the past, other four nations have offered to come in and share some of the burden standing shoulder to shoulder as Britons all, to hold what we have. Union is strength; closer union means greater strength."

"If the British Empire is to remain intact, it must maintain its naval superiority, that is undoubted. The heart of the Empire is absolutely dependent on the punctual and sure delivery of the water-borne food and raw material supplied by its arteries--the trade routes."
