Cured His Rheumatism In Three Weeks.

James LeB. Johnstone, a rominent member of the itizen's Band, of Chatham.

Rheumatism is generally brought on by exposure, but is really caused by Uric Acid in the blood. This Uric Acid is an irritating poison, formed from the waste matter of the body. The kidneys should remove it, but when they fall it poisons the blood, and, settling in the joints, causes

"No. 7" Tablets clear out the clogged-up Kidneys and stimulate them to perform their task of filtering the Uric Acid out of the blood. When this is done the Rheumatism simply and naturally vanishes. "No 7" Tablets cost 50c. At your dealer's.

The Duke of Connaught possesses a unique collection of pipes. On one occasion an American billionaire asked him to do him the honor of presenting him with one of his treasures. If such a favor were conferred upon him, he added, he would never smoke another pipe till the day of his death. The duke was a little amused, but he gave the pipe. Some time after his royal highness again met the American, who assured him that his pipe was the sweetest he had ever smoked. "I'm awfully pleased to hear that," replied the duke, "because I found after I had given you the pipe, it was not one of mine at all.

the Water Pressure.

It was just twelve hours from the time that box 17 was sent in for the Hamilton factory fire until the all out blow sounded tast evening. A couple of firemen were, however, at the smouldering ruins all hight with a couple of streams of water. Two engines worked pumping water until five o'clock in the afternoon. No. 3 engine was leaking badly and was taken to the repair shop about two o'clock.

Edgar H. Fairweather and E. L. Philips, who have been appointed as adjusters of the loss, will commence their work on Monday morning. Mr. Hamilton stated last night that he had made no plans for the future. He wished to thank the firemen for their work in saving the large piles of lumber to the east of the mil.

There has been considerable talk about the water pressure at the fire when it commenced in the morning. It is certain that there were streams of water that would hardly pour in the second story windows, and they had very little force. Mr. Hamilton says the matter deserves investigation, and they fire underwifers and Engineer Murdoch will probably talk over the matter at the first of the week.

The Red Star Inn' proved to be the greatest sensation ever shown at this popular theatre. Hundreds were unable to gain admittance, but those who were fortunate enough to do so, pronounced this feature film to be the greatest ever. The scenery is unquestionably superior to anything ever shown in this line. The story of the piece deals with pioneer time of the west, when that section was governed by the first who "had the drop." On Seasickness

Gentlemen:—Your letter of the 14th of September reached me on my return to England from a journey to Newfoundland and back, during which I have seen and heard abundant evidence of the fact that Mothersill's Seasick Remedy appears to be, in nineteen cases out of twenty, an absolute cure for mal-de-mer, and also for what the Americans call "Car-sickness". I have taken it on many occasions, with excellent effect and no after-effect. Your are quite at liberty to make use of this letter, as I think it a duty to express my opinion on the subject. Yours

Maggerated type, runs taroughout the piece.

Tonight this same subject, will be featured. Besides this a beautiful scenic film which is full of beauty. A strong comedy, which, proved a hearty laugh producer.

Two melo-drama subjects proved success, each out of the ordinary hackened revision of such pieces.

Mr. Percy Harney made a decided hit with his new song, having to respond to several encores.

The programme lasted over an hour and will be repeated tonight.

Womankind wonders why famous beauties grow old, but do not grow fat. They live at silken ease, amid the porcelain flesh pots. The wine, that puffs out obscure mortals, flows not filiberally down their alabaster throats. Yet their life-long loaf does not thicken their limbs nor double their chins. OTTAWA, Jan. 28.—In the Senate today Senator Domville called the attention of the Senate to the military service of the late Brigadier-General Buchan. He stated that General Buchan had been one of the most efficient and gallant officers who had served in South Africa. Wherever a gallant officer in the Old Country renered good service, that service was always recognized. They did not let him fight and then leave him or his family to starve. In the case of Wolseley and Kitchener, their services were brought before parliament, a vote of thanks passed and a sum of money awarded.

AUSTRALIA AND THE CHINESE

Australia is perturbed by the discoveries of Mr. Batchelor, the commonwealth minister for external affairs, who has been inquiring into the illegal influx of Chinese. There is a wealthy organization in China with agencies in all the principal Australian ports, and with the connivance of ships officers the systematic smuggling of Chinese into Australia has been carried on for a long time. The ships trading between Hong Kong and the Australian ports have been so cunningly supplied tween Hong Kong and the Australian ports have been so cunningly supplied with false bulkheads, walls and floors that hiding room has been provided for eighty Chinese stowaways on a single voyage. Ship cooks have been secretly paid to supply the stowaways with food. The trade is very profitable, as Australia is only a few days steaming from China, and many thousands of Mongolians are always ready to pay large sums and run all sorts of risks to get to the land of gold.—Chicago News.

UNION BLEND TEA the Tea that satisfies

Union Blend Tea is worth—but you can't pass an opinion until you have tried it. You are in no position to say—as I say—that it's worth 40c. a pound because, it goes easily half as far again as any 30c. tea. You don't know the truth of that until you use it for yourself.

But that's a fact. Sixteen ounces of Union Blend will make as much tea as twenty - four ounces of any ord in ary kind. And not only as much tea, but better tea—tea that is more fragrant, that has more aroma, more smack to it.
