SHOE MEN HOLD THEIR ANNUAL DINNER

The large dining room in Bond's was crowded last night when the firm of Waterbury & Rising were hosts at a dinner for their employees to the number of about fifty. This is an annual event, always anticipated with pleasure by the members of the staff, and last evening's affair proved no exception to the rule as regards success.

In past years it has been the custom to hold a sleigh drive followed by a dinner. A departure was made from this custom this year, however, in order to allow the out-of-town travellers an opportunity of leaving the city early this morning.

The custom of holding an annual reunion of all associated in the work of the firm was established over a quarter of a century ago, and each year finds the guests in larger numbers.

The dining room last evening was beautifully decorated, the tables were arranged in the form of a "U" and E. L. Rising, president and manager

ST. STEPHEN'S GUILD MET LAST EVENING

At the meeting of the Guild of St. Stephen's Presbyterian church last evening a very enjoyable programme was rendered as follows:

Prayer—Rev. Gordon Dickie.
Reading—Miss Jean Lovitt.
Dialogue by seven little girls.
Reading—Miss Jennie Brown.
Dialogue by fourteen young ladies of the senior Mission Band.
Reading—Sidney Townsend.
Chorus by the Mission Band.
Reading—Donald McRae.
Dialogue—Seven pages of the K. O. F.
Reading—Jeanette Armstrong

WORLD'S GREATEST KIDNEY REMEDY

HUNDREDS CURED BY TAKING "FRUIT-A-TIVES"

Williamstown, Ont., July 27th.

"Last spring I had a severe attack of kidney and bladder trouble, and 'Fruit-a-tives' cured the complaint when the physician attending me had given me up."

JAMES DINGWALL.

The cause of kidney congestion and pain in the back is that the bowels are badly constipated and the skin is inactive. Thus, the kidneys are forced to do double work in ridding the system of impurities—and become strained.

"Fruit-a-tives"—the great fruit medicine—acts on bowels, liver and skin as well as on the kidneys—rids the skin of all impurities, and completely cures all kidney congestion and pain in the back.

50c a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives, Limited, Ottawa.

NEW SERVICE BETWEEN CANADA AND ENGLAND

Continued From Page 1.

An important feature of the new service will be the equipping of the steamers to withstand attacks at sea. The extent to which the vessels will be armed cannot now be ascertained, but the intention is said to be to have that originating in the middle structural and other conditions as will ensure their value for their own defence and also the defence of unprotected ships during possible raids on the trade route in time of war.

The courting of interest in the new service will take the form of an annual subsidy.

The steamship subsidy in connection with this route now reaches to some three-quarters of a million. Sir Thomas Shaughnessy was in Ottawa today and is said to have discussed with members of the government, the Canadian Pacific's interest in the new line. The representatives of the English capitalists who are interested in the project have been in Ottawa during the past few days.

The construction of the ships for the proposed fast service will necessitate an expenditure estimated at thirty million dollars. Of this sum a large proportion is said to be coming from England. The establishment of the service is expected to make an important change in the present relation between the Canadian and United States Atlantic ports. It is calculated to very materially increase the traffic of the Canadian railways running to the seaboard, both private owned routes and the government owned Intercolonial.

The new line will give the fastest service this side of New York and Halifax will be a better port of departure than any other port on the New York route. The steaming to New York will be the shortest in the ocean voyage will almost certainly result in obtaining for the Canadian railway lines not only the ocean traffic originating in the Dominion but also that originating in the middle Western States, in Chicago and other Western United States cities. It is also rumored here that the C. P. R. will run certain steamers of their fleet on all the year round weekly service from St. John.

The change promises an era of great prosperity for the Intercolonial.

"FARMING SPECIAL" WILL COME IN JUNE

William Downie, general superintendent of the Atlantic Division, recently returned from a tour of inspection of the timetables of the movements of the agricultural instruction train. Mr. Timmerman says that owing to the difficulty of getting farmers in Quebec and New Brunswick together during planting, the agricultural department officials had told him that it would not be desirable to bring the train here until June. The officials of the train in Ontario until that month and it is hoped that some of the department officials from this province and Quebec will accompany it.

Each time the letter was advertising matter. There was a folder with the dates at which the train might be expected to be at different points. There was also a poster with the names of the lecturers. This consists of him coaches, four with illustrative and demonstrative matter, three for lecturing purposes and two for the sleeping accommodations.

There will be ten or fifteen lecturers and demonstrators on the train.

WAS TROUBLED WITH Headache AND Constipation.

After Suffering For Two Years Was Cured By BURDOCK BLOOD BITTERS.

Headache of whatever nature is nearly always symptomatic of other diseased conditions, rather than a disease itself, but in many cases a disordered stomach, constipation, or bad circulation is the chief source of the difficulty. Burdock Blood Bitters removes the cause of the trouble through its cleansing, strengthening and tonic action on the stomach, liver, bowels and blood. Mr. Wm. Redmond, Cardigan, P. E. I., writes: "I have been troubled with headache and constipation for about two years. After trying every doctor I knew, a friend advised me to try Burdock Blood Bitters. I found myself, after using one bottle, getting much better, and after using three bottles I was completely cured."

"After then I was on a visit, and found my cousin very sick, and the doctor told her there was something wrong with her head. I told her to use Burdock Blood Bitters and she was cured in a short time. I can safely recommend it to all."

Manufactured only by The T. McEwen Co., Limited, Toronto, Ont.

NICKEL PROGRAMME EXCEPTIONALLY GOOD

"Blot on the 'Scutchion'"

Proves an Attraction While Vocal and Orchestral Numbers were also Enjoyed.

The Blot on the 'Scutchion' proved the stellar feature of the programme which the Nickel management provided for patrons yesterday. This is an adaptation of Robert Browning's well known poem of the same title. The Nickel did a big business both afternoon and evening, and at both performances capacity houses took in the show. The Blot on the 'Scutchion' in point of scenic and dramatic effect is well reproduced in three parts.

In addition to the feature film, an excellent comedy is included in the pictorial portion of the programme.

The orchestral numbers form another distinctive feature of the bill, and the select programme of gems was greatly appreciated by the large crowd.

Margaret Pearson in the latest and brightest New York hits was heard to pleasing advantage, and J. A. Kelly in the ever popular ballad, Believe Me If All Those Endearing Young Charms, captivated his audience.

The same programme will be offered this afternoon and evening.

RESOURCES RECKLESSLY SQUANDERED

Continued From Page 1.

The House then went once more into committee on the bill, cutting down the Transcontinental Commission to one. The Liberals had a very bad time explaining the hash the Laurier government had been built on the making of the building of the line.

The first speaker was Mr. Kite of Richmond. He declared that all estimates of all public works fall short of the fact. It was thought, he said, that the first fifty mile stretch of Moncton would be common excavation, whereas it turned out to be nearly all solid rock.

He argued that the work is about two-thirds finished, about one-third remains to be done. And that the two-thirds that is finished cost \$113,000,000. The one-third that remains is to cost \$57,000,000. That is the proportion of expense is being fully kept up. The Canadian government, he said, was not composed of engineers.

Mr. Nesbitt laid stress on the solidity with which the road has been built. "Other railways have been built in a 'tentative' manner, and subsequent rebuild. The decision to construct the line through the back country, he maintained, had been wise.

Mr. Kemp compared the "thirteen million" story of Mr. Fielding's declaration that the outlay would be fifty-four millions, with the recent estimate of \$236,000,000 by 1921, and drew the point home.

Mr. Macdonald was very angry, developed the defence that the Conservatives also had made estimates which proved far closer than those of the government.

"What was your estimate?" he asked. "I had the good sense to to make an estimate," said Mr. Macdonald. "We wanted the railway built and we knew that any estimate of cost would be speculative. But we wanted it built." And he went on to say that the government had been complaining that the Conservatives had "revamped" this old yarn that anybody was deceived as to the cost.

Mr. Macdonald went on to compare the cost of railways in other countries, rising to \$272,000 a mile in England.

There were cries of "what about the right of way?" and Major Currie rose to ask a question. The gentleman allowed me to ask a question?" he asked. "No I won't," said Mr. Macdonald, flatly, and he hurried on while the Conservatives laughed at him.

After some further remarks Mr. Macdonald attacked the government for engaging Lynch Staunton in an investigating commission. "The paid solicitor of the Ontario government, A. partizan.

Lynch Staunton's judgment would not be worth a snap for he was biased. Then Mr. Macdonald assailed Mr. Gutelius on the grounds, first, that he was not a constructive but a maintenance engineer, and secondly, that he was an American citizen and you took him up," said Mr. Cochran.

"That's the tu quoque argument again," said Mr. Macdonald, angrily, and he went on to say that the government was unable to get a Canadian to associate with their partizan lawyer on the commission of investigation."

Mr. White said that the opposition were taking the matter very lightly, but the country would not take lightly the appalling miscalculation.

"What miscalculation?" called out Mr. Macdonald.

The miscalculation of the estimate of \$13,000,000 for interest, when it will be \$60,000,000, replied Mr. White. The miscalculation of the estimate of \$54,000,000 for actual cost as compared with \$236,000,000 as now estimated. That responsibility was placed on the late government before the people of Canada.

Further, Mr. White said that while he made no charge against the commission, he had been rumormongering of misapplication of money.

Mr. Macdonald again interrupted angrily and Mr. White explained that he meant the rumormongering of classification.

The difference between these sets of estimates, Mr. White continued, constituted a prima facie case against the late government and the commission, which needed explanation.

Mr. Macdonald made another angry exclamation.

"Be calm," said Mr. Borden—reassuringly.

Mr. White recalled the fact that Mr. Fielding had said that the interest charge would be thirteen millions, "and not a cent more."

It proved to be sixty millions.

"Sixty millions of interest a light matter? An increase of nearly five times is not a matter to be tossed aside as a mere nothing. There has been the greatest blunder made in this matter since confederation."

Mr. White then noted the reckless

COSTUMES SHOWED Large Attendance and Interesting Variety of Characters Represented Tended to Make Carnival a Success.

There was a very large crowd of skaters and spectators in attendance at the Victoria rink carnival held last night and it was even more successful than the previous one. There was a greater variety of costumes and with a lengthy programme of music by the rink band and good ice, the night proved most enjoyable for all present. The following were the prize winners:

First Prize—Combination.

Miss May Russell and Miss Smith, representing a Wheat Field the former dressed to represent the Canadian northwest carrying a basket filled with fruit and wheat, and Miss Smith was dressed as a scare crow.

Second Prize—Combination.

The Misses Gertrude London, Margaret Johnson and Gladys Kilpatrick representing Canada dressed in red, white and blue with a Union Jack on their back.

The most original ladies' costume was won by Miss Marion Fleh, as the last catch in Courtney Bay, with a white cord net filled with real fish, including smelt, lobsters, fresh herring, one of every kind, in Courtney Bay. Her hat was made of sea weed filled with small lobsters.

The best gentlemen's costume was taken by Roy Potts, representing an Italian musician. He carried an accordion and two live trained rats.

The most original gentlemen's costume was captured by Roy McLean representing an old man of the Municipal Home.

The second best prize was taken by Miss Eva Frodham, representing Woods in winter, dressed in clear white with red berries covering over her dress.

Other prizes were won by Regie McLaughlin representing an Indian chief.

The door prizes were won by Miss Stackhouse, Fred Foley, Miss Ida White, John Coyle.

The judges were Mr. and Mrs. J. Purdy, Mr. and Mrs. L. Wetmore, E. P. Dykeman, Miss Clara Davis, Miss Hatfield.

MAN DRAWN FROM HARBOR BY HUMAN CHAIN OF RESCUERS

There was a great deal of excitement on the east side ferry floats last night about 10.20 o'clock. Three sailors from one of the steamships lying at the Sand Point docks were drunk and creating a disturbance. Two long blasts of the ferry steamers' whistles summoned Sergt. Campbell with Patrolmen Gardner and Kane to the scene and the three disturbers were placed under arrest.

There was a large crowd on the boat at the time and as they crowded about the officers were making the arrests a steward from one of the ships was crowded off the floats and fell into the water. This caused even more excitement, a woman passenger who was near and saw the man fall into the water, fell to the deck in a faint. A few of the cooler heads in the crowd formed a human chain and James McCafferty of the west end, was successful in catching hold of the struggling man, and water and raised him up on the floats.

Other than a shock and a wetting the sailor was able to proceed to his ship. The three who were arrested are charged with being drunk and disorderly conduct.

SENTIMENT SEEMS AGAINST THE UNION

The returns from the different Presbyterian churches which are voting on church union indicate a decided sentiment against the proposed movement.

Already 16 congregations, including under the St. John presbytery have been heard from, and show a strong opposition to the union. The 16 congregations known to have voted, show a majority of approximately 200 against the union, out of a total vote of about 1800 votes.

In Richmond, N. B., the vote of the congregation resulted in 85 against as compared with 55 in favor.

Forty-two congregations in some of the Montreal city churches the union is not being favorably received. In Crescent street church with a membership of about 800, of the total vote cast 132 were against and 66 for the union. Knox church with a congregation of 650 registered 133 against and 60 favorable, while the Calvin church vote was 104 contrary and 53 for union.

Stole a Horse.

Last evening about 7.30 o'clock Walter Hodd, aged 27 years and a man named Chisholm, started out for a drive. They stopped at the Dufferin Hotel on Charlotte street where Hodd left his companion, for, as he said, a few minutes, and going in front of the hotel took the horse and sleigh owned by Charles Crawford, and drove some distance. When Chisholm found that Hodd had left him, he went about the city looking for him, and it was soon known to the police that Hodd had stolen the horse. The officers were on the lookout for him and at 10.30 o'clock last night Policeman Silas Perry found Hodd driving the rig up Brussels street and placed him under arrest and charged him with theft.

Way in which the government in 1903 had plunged into the enterprise without proper information.

After speeches by Messrs. Carvell, Stevens and Oliver, Mr. Borden voted up the debate and the bill was reported for committee.

The House adjourned at 12.50.

Health and Beauty Answers

BY MRS. MAE MARTYN.

Violet: By all means let face powder alone. If you want a beautiful complexion. Powder clogs up the skin pores, causing enlarged pores, wrinkles and rough, discolored complexions. The only safe and satisfactory complexion beautifier I know of is made by dissolving four ounces of sorbim in a pint of hot water, then adding two ounces glycerine. This lotion will take away any skin blemishes, including freckles, your skin smooth, soft and velvety. It does not rub off so easily as powder does, and gives that much-desired taut, refined tone to the skin without an artificial powdery look.

A. B. C.: Stop worrying over such a trivial thing and get an ounce of Biotone. Mix enough with water to cover the hair and wash, and after two or three minutes rub off, then wash the skin. You will find delicate the most satisfactory thing to use for removing superfluous hair, and even if it does cost a dollar an ounce, it is worth several times its price to have a smooth, hairless skin.

Rena: Your sallow, muddy, pimply complexion is due to impurities in the blood. To rid your system of these marks of ill-health, you can find nothing better than this old-fashioned, home-made tonic: Dissolve a half cup sugar in one ounce kardash in a half pint alcohol, then add hot water to make a full quart. Take a tablespoonful before each meal, and you will be surprised at the wonderful health-restoring quality of this tonic. It will give you energy, a good appetite and bring back the glow of perfect health to your cheeks.

Ellen: For your weak, tired, dull eyes, you need good strengthening tonics. If you get from your druggist an ounce of crystals and dissolve it in a pint of water, then put a few drops in each eye once or twice a day, your eyes will soon be clear of all inflammation, feel strong and be bright and sparkling. This tonic is splendid for granulated eyelids and will be found very soothing. The use of this simple tonic has enabled many to dispense with wearing glasses.

J. S.: You are only one of the millions who have wasted many dollars on nicely perfumed hair tonics which did no good except to enrich the manufacturer. For your dandruff-laden, itchy scalp, skin, itching, and itching, use a hair tonic. One ounce of quinine at any drug store, dissolved in one quart of water, makes a hair tonic. Two applications of this tonic a week to the scalp will do more good than all the hair tonics you can buy on the market. It will put your hair and scalp in the best condition, and you will then be praising this simple, inexpensive tonic to your friends.

Marjorie: To reduce your weight quickly and at small cost, without resorting to a restricted diet and fasting exercises, solve four ounces of parolin in a pint and drink this tonic after each meal. It is a marvelous fat-reducer, as it attacks the fat cells and takes a tablespoonful before each meal. I find this simple, harmless remedy generally taken off fat people, and those who have tried it tell me it is a parolin fat-reducer, as it attacks the fat cells and takes a tablespoonful before each meal. I find this simple, harmless remedy generally taken off fat people, and those who have tried it tell me it is a parolin fat-reducer, as it attacks the fat cells and takes a tablespoonful before each meal.

Nora: To have beautiful hair and a healthy scalp you must keep your scalp clean. All the hair-tonics under the sun will not keep your hair and scalp in healthy condition, unless you shampoo frequently and thoroughly. Then washing your hair, never use soap in any form, as the alkali in it streaks and dries the hair, causing it to split and break. No shampoo preparation I have ever seen gives the hair such a clean, fluffy and healthy appearance as a soapless shampoo. Carbolic dissolved in a cup of hot water. This makes a most agreeable and effective and is inexpensive. It removes all dirt and dandruff, rinses easily, dries quickly and adds a beautiful lustre to the hair that you can't get with any other shampoo. I consider it the only perfect shampoo.

P. T. W.: You can get rid of those blackheads, freckles and large dirt-collecting pores in your face by using this cream. Put a few drops in each eye once or twice a day, your eyes will soon be clear of all inflammation, feel strong and be bright and sparkling. This tonic is splendid for granulated eyelids and will be found very soothing. The use of this simple tonic has enabled many to dispense with wearing glasses.
