

There is plenty of individual initiative among the unemployed but, in order to be enabled to function, it requires the co-operation of our business and professional leaders. Many of the latter we know, are able to offer the necessary co-operation and, from our conversations with those whom we have already approached, we feel that they are not only willing, but are indeed anxious to meet us at least half-way.

Thanks to a large monthly donation from an anonymous source, we have been able to take as quarters, the building known as the "Original Oil Exchange".

This is merely an introductory letter as from time to time we shall take the liberty of advising you of our activities and when necessary of soliciting your active co-operation.

In the mean-time, we would thank you to bring the objects of this Club to the attention of your friends and especially to the notice of any Service Club, Study Group, Church or other Organization to which you may belong.

Should you wish for any further information, we shall be pleased to call upon you at your convenience.

Yours sincerely.
CANADA CLUB.
