

LIST OF ILLUSTRATIONS.

Fig.	Frontispiece: Colby Induction Steel Furnace.	Page.
1.	Electric arc	1
2.	Siemens' vertical arc furnace	4
3.	Siemens' horizontal arc furnace	5
4.	Cowles furnace for aluminium alloys	6
5.	Aluminium furnace	7
6.	Moissan furnace	8
7.	Willson carbide furnace	10
8.	Acheson carborundum furnace	11
9.	Electric circuit	15
10.	Independent arc furnace	19
11.	Direct-heating arc furnace	20
12.	Electrical tube furnace	21
13.	Electric crucible furnace	22
14.	Borchers' resistance furnace	24
15.	Tone resistance furnace	25
16.	Shaft furnace with lateral electrodes	27
17.	Shaft furnace with central electrodes	28
18.	De Laval ore-smelting furnace	29
19.	Electrolytic furnace	30
20.	Losses of heat in melting metals	35
21.	Ideal electric furnace	48
22.	Electrode Holder of Heroult Steel Furnace	81
23.	Heroult steel furnace	87
24.	Kjellin Steel furnace	93
25.	Colby induction furnace	97
26.	8-ton induction steel furnace	100
27.	Induction furnace with shielded core	103
28.	Gin steel furnace	104
29.	Heroult ore-smelting furnace	108
30.	Keller furnace	112
31.	Harmet furnace	114
32.	Haanel-Heroult furnace	116
33.	Turnbull-Heroult furnace	118
34. and 35.	Connections for electric furnace	119
36.	Ideal furnace (for smelting iron ores)	122
37.	Stassano furnace	130
38.	Acheson graphite furnace	143
39.	Acheson electrode furnace	145
40.	Carborundum furnace burning	151
41.	Multiple core furnace	154
42.	Cowles electric zinc furnace	157
43.	Johnson electric zinc furnace	158
44.	Laval electric zinc furnace	159
45.	Salgues electric zinc furnace	160
46.	Experimental zinc furnace	163
47.	Snyder induction furnace	166
48.	Snyder furnace for obtaining liquid zinc	168
49.	Acker caustic soda furnace	178
50.	Castner sodium furnace	180
51.	Ashcroft sodium furnace	182
52.	Aluminium furnace	186
