

A Department of Health was created and is doing excellent work.

---

The important Housing problem was dealt with, no less a sum than \$25,000,000 being loaned to the provinces.

---

The franchise was extended to women.

---

A new and eminently fair and reasonable franchise law was passed, pronounced even by papers opposing the Government to be the fairest Franchise Act ever passed.

---

The highly important steel plate industry was established by Government encouragement, and on so well thought-out a plan that it is not likely to cost the country a dollar.

---

A vigorous shipbuilding programme was carried out with the result that Canada to-day owns 40 ships which are plying the seven seas carrying the produce and wares of Canada to all countries. Twenty-three more will soon be ready.
