

REMARKS.

In presenting this Catalogue to the Public, the managers desire to say that these Pictures were purchased mostly by Mr. Kay himself during his extended travels in Europe, and *direct* from the Artists. The most careful examination and study is courted, and it is hoped that the majority, if not the whole collection, will be saved to Canada.

It has often been suggested that, as these Paintings and Statuary are by men of such celebrity in Europe, it would be the most advantageous to send them there for disposal; but Mr. Kay had faith to believe that the time would come when there would be wealth and taste enough in Canada to appreciate and buy them. As to whether such a desirable period has arrived, it remains for the result of this Sale to say.

W. SCOTT & SON.
