

BEAM - HOUSE - SHROPSHIRE

This is the Home of the Blue Bloods.

WM. THOMAS offers for sale Rams and Ewes from his famous flock, which has sent so many winners to our leading shows, and here also was bred Mr. A. O. Fox's noted ram "Blue Blood Yet," which so ably piloted Mr. Fox's flock of Shropshires at the World's Fair. Wm. Thomas will have several grand shearling rams for sale this next season, sired by his grand old sheep "Blue Blood," and also a grand lot of shearling rams by other noted sires; also about 150 splendid shearling ewes to select from. Foreign buyers always welcome. If not able to come and select for yourselves, write and obtain prices from WM. THOMAS, The Beam House, Montford Bridge, Salop. Railway Station, Baschurch, G. W. R. 22-y-om

NOTICES.

In writing to advertisers please mention the Farmer's Advocate.

Silo filling will soon be in full blast, and half the success of the operation depends on having a good ensilage cutter. The Watson Manufacturing Co., of Ayr, Ont., are turning out a very superior one this season. It captured a medal at the World's Fair.

ANSWERS TO CORRESPONDENTS.

FARMER: Yes, South Dakota furnishes an excellent field for diversified farming. Wheat, corn, barley and flax are produced in abundant quantities and find a ready market, at good prices, while the cost of production is much less than in the Eastern States. Stock raising and wool growing have become successful industries in South Dakota, where thousands of acres of the finest land in the United States can be secured at reasonable figures and upon long time for deferred payments. Further information will be cheerfully furnished free of expense by addressing A. J. TAYLOR, Canadian Passenger Agent, 87 York St., Toronto, Ontario.

We wish to draw our readers attention to the importance of the Hot Air Wood Burning Furnace, manufactured by Clare Bros., and Co., Preston, Ont., advertised in this issue. The Hilborn Wood Furnace has been a leader in the market for several years, and is still unsurpassed in point of superior construction and working qualities. Hot air is by all odds the most modern method of heating a house, as by it all parts of the house can be kept in comfortable condition with simply one fire in the basement, thus avoiding a great deal of work and dirt in the living portion of the house. The Clare Bros., are a strictly reliable firm, doing an extensive trade in all parts of Canada.

We clip the following from the report of the Royal Show at Cambridge, which appeared in a late issue of the London Live Stock Journal: "Messrs. R. A. Lister & Co. (limited), of Dursley, have an immense collection of their dairy appliances, grinding mills, horse-gears, etc. The celebrated "Alexandra" cream separator, which enjoys such a wide popularity, is shown in a variety of sizes, dealing with quantities ranging from 25 to 300 gallons per hour. A new implement, "The Lister" pump, calls for special notice. It is described as suitable for milk, water, etc., and to raise 1,000 gallons per hour to almost any height and distance. It is slow speed, easy to clean, and durable. The other principal exhibits are the patent Lister-Babcock tester for milk, butter-moulder, refrigerators, milk heaters, churns, and a large assortment of dairying utensils and preparations."

STOCK GOSSIP.

Dr. J. V. Ormsby, manager of Isleigh Grange Stock Farm, Danville, Que., reports business as being exceedingly good, and among the sales recently made mentions the following Yorkshires: One pair to the Trappists Monks, Oka, Que.; pair, Joseph B. Donald, Richmond, Que.; pair, J. C. McCorkill, Cowansville, Que.; boar, J. C. Stockwell, Danville, Que.; boar, S. Delester, Cop Sante, Que.; pair, S. Senecoe, boar and two sows, H. C. Sharp, Ida, Ont.; boar and two sows to E. P. Ball, Rock Island, Que.; boar, to J. M. Hurley, Belleville, Ont.; pair, A. Dubois, Chambly Basin, Que.; boar, W. J. Driver, Jasper, Ont.; sow, W. Oliver, Oliphant, Ont.; boar, S. H. Jones, Sabrovois, boar, Wm. Wilson, Wilson's Mills, Que.; pair, H. Merand, St. Leon; boar and two sows, G. A. Foster, Knowlton, Que.; sow, Joseph Eli, La Beauce, boar, E. Edwards, North Wiltshire, P. E. I.; boar, M. H. Farlane, Sussex Mills, N. B.; sow, Chas. Bennet, Danville, Que.; two boars, H. & D. La Lahbertie, St. Albert, Que.; E. Lorguet, St. Hyacinthe, Que.; boar, T. Watson, Springfield, Ont.; boar, L. M. Howard, Thurso, Que.; boar and two sows, on May 2nd, 1894, to A. L. McCray, Grosvenor, N.Y., U.S.A.; two sows, to the same man, in June, and two more have since been ordered for delivery in September.

After many years handling and feeding all sorts and conditions of hogs, Mr. W. H. Odell, of Belmont, Ont., when delivering a lot at the establishment of J. L. Grant & Co., Ingersoll, by the appearance of a number of Tamworths, perhaps more from the novelty of their color, smallness of head and shoulder, compared with the extent of side and ham, than anything else. As our readers are aware, the Grant Company made a considerable importation, not as a speculation, but simply in order to improve the bacon qualities of Western Ontario hogs. Mr. Odell made a small investment, and as he says, the more he knew of them the better he liked them. Their advantages, he thinks, were very well summed up as follows, by a writer in an English agricultural journal, recently: "Famous for early maturity, percentage of lean meat very high, flesh pink and of delicious flavor, good strong legs, sows prolific and excellent mothers, and boars exceedingly prepotent, and so long as there is a demand for lean bacon, so long will there be a keen demand for Tamworths. Finally, Mr. Odell decided to keep Tamworths, and Tamworths only. His herd now includes nine mature breeding sows, and taken altogether they are an admirable lot, very smooth, easy feeders, and carrying their meat in the right places. Lack of space will not allow us to particularize, but Lily, No. 177, farrowed May 17th, 1893, should be mentioned, as having now attained a weight of some 400 lbs. The principal stock boar is Rodman, No. 106, farrowed July 12, 1893, sire Buffalo Bill, No. 143, dam Peggy, 148, by Revell's boar (imp.) 196. He is a smooth, quiet dispositioned animal of the popular conformation. The docility of Mr. Odell's herd, old and young, was very noticeable. His plan is to feed the sows well until the young are weaned after which the former go on grass alone, plenty of water being supplied. On such a ration, they were really in surprising condition. As a "grass hog" he has never yet seen anything to equal them. In order to be prepared for the demand, Mr. Odell was fortunate enough recently to secure a number of young sows, and is prepared to furnish pairs not akin. Mr. Odell's farm is well adapted for the rearing of breeding pigs, and is located about a mile from Belmont on the Credit Valley Branch of the C. P. R., which is his post and telegraph office. Readers in search of Tamworths would do well to communicate with Mr. Odell, and examine his stock.
