

Bale your Hay
Quicker, Better,
Cheaper!

THE DAIN
Steel
Hay
Press

Perfect results are what you get when you use a

Dain Double-Gear, Belt-Driven, Steel Hay Press

Carefully and substantially built of high-grade materials, it will give lasting service under the heavy strains and trying usage to which a hay press is subjected.

Wherever steel is better than wood, steel is used in its construction. Outdoor exposure does not affect the DAIN. It doesn't warp or swell like a wooden press.

WHETHER YOU HAVE

a press or contemplate having one, you should ask for our free catalogue, giving sound and valuable information on the subject. There is a DAIN Press to suit every pocketbook. Any DAIN Press will be the best press investment you could make at its price.

Part of Trinidad Asphalt Lake

It costs no more to lay Genasco than it costs to lay ordinary ready roofing which soon cracks, breaks, and leaks.

Genasco

the Trinidad-Lake-Asphalt Roofing is a permanent waterproofer.

Unlike roofings made of coal-tar or manufactured so-called asphalts, whose oils rapidly evaporate on exposure to sun and air, the *natural* oils of the *natural* asphalt stay in Genasco and keep it full of the life that resists all atmospheric conditions and changes.

This prevents repairs, renewals, and added time and labor cost; and that means real economy.

The Kant-leak Kleet adds to the life of roofing seams. Makes them absolutely watertight; prevents nail-leaks.

Ask your dealer for Genasco with Kant-leak Kleets packed in the roll. Write for samples and the Good Roof Guide Book.

The Barber Asphalt Paving Company

Largest producers of asphalt, and largest manufacturers of ready roofing in the world.
