STATEMENT OF INSURANCE ON GOVERNMENT BUILDINGS

Mr. Morrissy Gives the Amounts to the House—Bill Providing Repairs to the Great Marsh Aboideau Agreed To—Other Bills Presented to the House

FREDERICTON, March 31.—The municipalities committee met at twelve o'clock today. Mr. Morrissy chairman and G. H. Flewelling secretary. The St. Andrews bill relating to certain trust funds was under consideration but were allowed to stand for further consideration.

Mr. Copp explained that the Sackville bill relating to exemption of certain industries from taxation would likely be opposed, and at his request the bill stood over to a date to be fixed.

The house met at three o'clock. Several bills were read a second time. Mr. Copp, for the standing rules committee, reported favorably upon several bills. The committee recommended that a fee of \$40 be paid by the promoters of the bill to authorize the municipality of Restigouche to issue debentures to be refunded as under the payment of such a fee was not required.

Mr. Munro, for the municipalities committee of the house bill of the town of St. Andrews.

Hon. Mr. Morrissy in reply to Mr. Currie stated the present government had increased the insurance on the provincial hospital by \$100,000, on an annex \$25,000, on legislative building \$20,000, on departmental building \$12,500.

INSURANCE STATEMENT.

The statement of insurance on government buildings under supervision of the board of works is as follows: Provincial hospital, \$150,000; provincial hospital boiler insurance, \$6,000; annex to provincial hospital, \$58,000; annex boiler insurance, \$1,000; old Government House, \$12,500; education office, \$15,000; legislative building, \$75,000; legislative building boiler insurance, \$1,000; departmental building, \$40,000; Normal School, \$48,500; Normal School boiler insurance, \$1,500; furniture and portraits in legislative building, \$4,000; furniture, birds, etc., in departmental building, \$6,000; bird collection in legislative building, \$4,000.

The following bills were introduced: By Mr. Murray, to amend act incorporating the Moncton Tramway Co. By Mr. Labladio, to authorize issue of bonds by municipality of Restigouche.

By Mr. Tweeddale, to amend act incorporating Andover and Perth for fire and water purposes.

By Hon. Mr. Maxwell, for Mr. Wilson, to amend the act incorporating St. John Y. M. C. A.

By Hon. Mr. Landry, to confirm laying out of school street in the parish of Dorchester.

Mr. Labladio gave notice of inquiry as to amount still unexpended of the sum of \$25,518 entered in bonded debt book of the auditor general's report.

Mr. Labladio moved, seconded by Mr. Currie, for copies of all correspondence and papers relating to dismissal of Geo. D. Mercier as liquor license commissioner.

WILL BE BROUGHT DOWN.

Hon. Mr. Hazen stated that papers brought down without the formality of an address to his honor. On motion of Hon. Mr. Hazen bills relating to intestate estates and to supreme court were referred to law committees.

House went into committee. Mr. Burchill in the chair, and considered bill providing for repairs to the Great Marsh. Mr. Hazen stated the explanation given on the introduction of the bill that the Dominion, province and city of St. John should each bear one-third of the cost and the city do the work and enjoy immunity from damages.

Mr. McKewen and no wish to be at variance with the city, but he thought the House was asked to go too far when it relieved the city from all liability for any accident happening to any individual in consequence of the work. It might be a hardship to his constituents driving home some dark night if through any neglect on the part of city workmen they should meet with an accident.

Mr. Sweeney asked if any workman injured would be entitled to compensation.

Mr. Hazen said the provincial government enjoyed indemnity, and the bill simply placed the city, which was doing work for the government, in a similar position. It was not to be regarded as a precedent.

The bill was agreed to.

The bill to amend chapter 164, Consolidated Statute 1903, respecting certain trust companies was also agreed to.

Bills in further amendment of Probates Courts Act and respecting marsh lands at Musquoddy were also considered and progress reported.

Hon. Mr. Maxwell for Hon. Mr. Morrissy introduced a bill to change the name of Daniel Donohoe to Brian Hennessy and to provide for his adoption by Patrick Hennessy and wife.

Notice of motion for Monday next was given to suspend the rule to permit introduction of several bills.

House went into committee. Mr. Dickson in the chair, and considered bill relating to investment of certain trust funds by the town and parish of St. Andrews, a bill respecting justices of civil courts, both of which were agreed to.

The committee had under consideration bills to provide for appointment of stipendiary magistrate and erection of lockup in parish of Durham, Restigouche county.

Mr. Labladio did not think the erection of such lockup necessary nor desirable unless it was intended to increase the sale of intoxicating liquors in the parish. He said the county jail is readily accessible by railway and not far distant also. Last year there was erected a parish hall and he had heard no demand for a lockup and suggested that the bill stand for further consideration, which was agreed to.

The bill for making better provision for the disposal of residues of effects of testators, which under consideration, and at the request of the attorney general stands for further consideration.

The bill to amend the Liquor License Act was put on the order paper for reference to the committee of whole house.

Uniform Fishery Regulations for the Boundary Waters

OTTAWA, March 31.—The Minister of Public Works has sent out to all agents and officials of his departments a special notification that the greatest care and caution must be exercised in making and the closest scrutiny must be given to all accounts before certification. All officials are also cautioned against the acceptance of any gift or favors of any kind from contractors or others having dealings with the department.

The commons spent a quiet, busy afternoon today putting together with an open mind a special notification mounted police supply for the coming year and making a start on the estimates for the marine department.

On the item for salaries in the fisheries branch Mr. Crocket raised the issue as to whether too much power had not been given to the international fishery commission under the treaty passed last year in respect to drafting uniform fishery regulations for the boundary waters. This was, he said, of importance especially to the St. John River. The control of the fishery in the river was now taken out of the hands of parliament and placed absolutely in the hands of two men, one of whom was a foreigner.

Hon. Mr. Broder said the whole question would be discussed in a few days in connection with the motion now on the order paper relating to the treaty. He pointed out that the Canadian commissioner, Prof. Prince had equal authority with the American commissioner, Dr. Starr Jordan, in determining the regulations under the treaty. NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewage is not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflicted undergo.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by healing the delicate membrane of the kidneys and thus make their action regular and natural. They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old.

Let Doan's Kidney Pills do for you what they have done for thousands of others, this is, cure you.

Mrs. M. Bryant, Spring Valley, P. E. I., writes: "I was troubled with my kidneys for two years. They were so bad at times I could not cross the floor for the pain. I tried a doctor but he did me no good at all. I sent to my nearest druggist and got four boxes of Doan's Kidney Pills, and I am glad to say that after taking them I have had no more trouble for nearly three years now."

DEATHS.

R. H. B. TENNANT.

The community at large will learn with regret of the death of R. H. B. Tennant, who passed away at his residence, No. 74 Germain street, last night about 10.30 p.m.

Mr. Tennant was suddenly taken ill last Tuesday morning in the Market Building. Dr. Bentley was at once summoned and after a short while revived him sufficiently for his removal to his home in a coach. It has been an open secret that he suffered from a weak heart.

Robert Heteley Broda Tennant was born near Edinburgh, Scot., in 1840. He learned the trade of shirt making in Edinburgh and came to America, landing in Boston in 1857. He was married in New Haven, Conn., in 1871 to Miss Jordan, of Belfast, Ire. Soon after that he came to the mill and shoe factory in St. John, where he worked for three years shirt maker for Manchester, Robertson and Allison. After leaving M. R. A.'s he started in business for himself, opening stores successively in King street, Prince William street and Charlotte street. He was in business in Charlotte street when the great fire of 1877 occurred and he lost all he owned.

Besides his reputation as a tradesman, Mr. Tennant enjoyed not a little local fame as a writer of verse, being a frequent contributor to the press. He was a man of quiet, unassuming character and those who knew him best liked him most. He was a member of St. Andrew's Presbyterian Church.

Mr. Tennant is survived by his wife. The funeral will be held on Friday from his late residence to Fernhill.
