MINING NOTES.

Mr. Alexander Dick, M. E., has returned from a visit to Ainsworth. He reports that he heard of a notable strike which has been made on the Highland, which is owned by Mr. C. Scott McDonald, one of the former owners of the Payne, and Mr. Carter, of Spokane. A long tunnel has been driven and crosscuts made in different places struck val-

uable ore bodies.

A meeting of the stockholders of the King mining company will be held on April 5th for the purpose of authorising a loan of \$15,000 and another meeting is to be held on April 23rd to confirm the resolution adopted at the first meeting. The money is to be used in the purchase of either a five or a seven-drill compressor for the Oro Denoro, which is being operated by the King company. Lie property is now provided with a two-drill compressor, which is not sufficiently large for economical development and Mr. Niel Cochrane, the superintendant, has so reported to the company. The property has large ore bonies good sized plant is absolutely necessary for its further development.

Women's Christian 1emperance Union.

On Tuesday last the ladies of the Women's Christian Temperance union held a very enjoyable and profitable parlor meeting and social at the home of Mrs. Edward E. Schofield, on Kootenay avenue. About 60 were present. After devotional exercises, led by Mrs. Humph-rey (president of the union), an interest-This machinery was ordered in September 1 standard of the first meeting of the new council of the board of trade. The adjourned will be need or the most complete plants of the board of the board will be need or will be one of the most complete plants in shout three weeks from date. It is a compound compressor.
