

## McClary's Kootenay

TOP, bottom and all four sides of the Kootenay oven are evenly heated. That is why it is so famous as a dependable baker. There is a thermometer, too, to tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates clear the ashes at a single turn. Burnished cooking-top never needs blacklead. Nickeled steel oven walls are kept clean with a damp cloth. Well-fitted joints and dampers hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.

FUNERAL  
DIRECTORS

A commanding officer was making the first visit of the day, and the guard turned out to accord the customary greeting. They took special pains to give satisfaction, but failed. The regimental sergeant-major happened to be present, and to him the C. O. turned and indignantly demanded what he thought of it.

"Alright, sir," replied the N. C. O.

"It was not alright; any fool could see what was wrong," said the colonel.

The sergeant-major merely replied: "Yes, sir, but I could not."
