## THE "Driveking"

The Driving Boot You Thought Impossible

Here it is at last, the "Driveking" - Has all the good points called for in a Driving Boot—Solid Counter, reinforced ankle support, solid heel, strong arch support, comfortable toes. Built to stand all the rough wear you can give them. They come in 9 & 12 inch tops

\$5.50 and \$6.50

## "Favorite"

This boot derives its name from its popularity with Farmers, Railway Section Men, Mill Men, Dairymen, Mechanics and Carpenters. The "Favorite" gained this popularity and its general utility through long service. It is built from the toughest waterproof leather made. Seams are rip proof. Soles are nailed in such a manner as to insure long wear. Another outstanding feature is the comfortable and nice fitting last. Your "Favorite" is here—Get it today.

## PRISONER IN JAIL IN A BOLD ROBBERY?

Was a prisoner in the County Jail awaiting transportation to Dorchester responsible for the bold robbery of the Stothart store here about two weeks ago? Such is the question troubling the Newcastle police and such seems to be the case. On Sunday night March 23rd the store of Stothart Mercantile Company was robbed. A brick had been hurled through the glass in the door and the thieves had gained admission by turning the latch on the inside. A large quantity of goods was stolen including a violin, knives and razors etc. On Tuesday last Abraham Dolron (better known as Abe O'Brien) was taken to Dorchester Penitentiary by Deputy Sheriff Doran to serve two years for robbery of the Lounsbury Garage last fall.

In clearing up Dolron's cell on his return, the deputy was surprised to find a number of the articles from the store of Stothart concealed in the cell while closer examination revealed one of the bars in the cell had been sawed off. Acting upon this information Deputy Sheriff Doran proceeded to Dorchester with the result that Thomas Gallah aged 16 was arrested as an accomplice. Gallah was associated with Dolron in the Lounsbury break and was allowed to go on suspended sentence. Dolron is about sixteen. It is expected that there will be some startling revelations when the case comes up for hearing.

## SUDDEN DEATH OF L. S. BROWN OF C.N.R.

Montreal April 2—L. S. Brown general manager of the Atlantic Region of the Canadian National Railways was seized with a fit of apoplexy at the general offices of the company here this morning and died almost immediately. Mr. Brown's headquarters were at Moncton.

Mr. Brown arrived in the city from Moncton this morning apparently in his normal health and planned to proceed to Ottawa this afternoon. He was in the office of S. J. Hungerford vice-president in charge of operation and was discussing certain features of the railway situation in the Atlantic region when the stroke occurred. First aid treatment was at once administered and medical assistance called. It was apparent however that death had taken place immediately after the stroke.

In 1917 Mr. Brown was made assistant general superintendent of the Canadian Government Railways with headquarters at Moncton, a position which he held for only a few months prior to being appointed general manager of the Atlantic region of the Canadian government lines.

Upon the amalgamation of the Canadian Government Railways with the Canadian National system Mr. Brown was appointed in 1920 assistant general manager with headquarters in Montreal and was brought into close contact with the commercial interests in the territory between the head of the Great Lakes and the Atlantic seaboard. On March 1 1923 Mr. Brown was appointed general manager of the Atlantic region of the Canadian National Railways with supervision over the lines and facilities of Riviere du Loup and Monk; P. Q.

The late railway official is survived by his wife formerly Emma Sayer, and by his son Gordon the latter being an engineering student at Mount Allison College.

News of the sudden passing of Mr. Brown was received with wide regret over the whole Canadian (National system). Born at Nelson N.B. Mr. Brown was 60 years of age and had been engaged in railway work for more than 40 years. He entered the service of the Intercolonial Railway in 1882 as assistant agent at Newcastle; was promoted to train despatcher at Campbellton in the following year; and was appointed chief despatcher at New Glasgow N.S. in 1898. He was recognized as one of the ablest of transportation officers and rapidly won further advancement; becoming assistant superintendent at Newcastle N.B. in 1912 and Superintendent at New Glasgow N.S. in 1913.

## MISSIS QUIGLEY PRESENT LIBRARY

A splendid gift has been made to St. Thomas College at Chatham N.B. through the Bishop of the Diocese Right Rev. P.A. Chaisson. It is well known that the late Richard F. Quigley; Ph.D.; K. C. possessed a very large and valuable library the collection of many years numbering in the thousands and containing a large proportion of important books not often found in the collection of a layman. But besides; the library possessed a great many other books (of the greatest intellectual lights of the period—the latest productions in every field of literature. There were also many works in the French language. For many years Dr. Quigley had subscribed for the leading British quarterlies and American magazines and consequently there is a very large number of these. The library was willed to Dr. Quigley's two sisters—Misses Kate and Mary Quigley; Newcastle; Northumberland county, and these ladies are presenting the entire collection to St. Thomas College as already stated and the library will soon be despatched to its destination. The college is to be congratulated on the gift of a magnificent library such as it is to receive. Its original cost must have amounted to \$14000 or \$15000 and many of the books bought long ago must be priceless.

## STR. "ALEXANDRIA'S" NEW ROUTE.

Messrs. T. C. and C.L.D. Sims have bought the Str. Alexandria from the Miramichi River Navigation Company at Chatham; New Brunswick; and intend; we are informed; operating the boat between Killarney and Cutler; daily for the coming summer.

The Alexandria is a single screw Str. with upper cabin and licensed for 175 passengers; length 107 feet and beam 24 feet 6 inches and has ample deck room and space for the carriage of automobiles. The owners are to be congratulated on their enterprise in again giving Little Current the daily connection with Cutler and the Soo; which has been sadly missed since they sold the Bon Ami-Sault Ste. Marie "Expositor"

## C.N.R. TIME TABLE CHANGE AFFECTS NEWCASTLE TRAIN

The Canadian National Railways announce changed in timetables in effect April 7th. Train 27 will leave Newcastle at 8:05 a.m. as at present arriving in Fredericton at 1 p.m. instead of 1:30 p.m. as at present. Train 28 will leave Fredericton at 7:10 p.m. arriving in Newcastle at the same time as under present schedule. No change is to take place in trains 237 and 238. An extra suburban train will leave Fredericton for Marysville at 6:15 p.m.

A motor car service will operate on the Stanley Branch connecting with Trains 27 and 28, 237 and 238. As before all trains will be daily except Sunday.

## TWO YEARS FOR STEALING

In the Northumberland County Court Tuesday morning before Judge McLatchey Henry Donovan pleaded guilty to theft from the residence of John Copp; Chaplin Island Road and was sentenced to two years in the Boys Industrial Home. There were no civil cases before the court. An application for naturalization of Eric Nordland of Sweden was granted.

## CONTRACT FOR NURSE'S HOME

Parsons—Ed Ltd. of Moncton have received the contract to erect the Miramichi Hospital Nurses Home. The plans and specifications of the building were prepared by F. Neil Brodie of St John. The building will be a three storey one and will be of brick and stone.

The contract was awarded on Saturday and the contract price is in the vicinity of \$43,000. Work will be commenced just as soon as weather permits and the new building will be erected to the north of the hospital.

### Cellophane

The transparent wrapper found on Moir's Chocolate boxes is called cellophane—one of the most interesting scientific discoveries of recent years. A French Chemist, Branderberger, invented it in 1903. It is not only transparent, it is stronger than paper, bacteria proof, waterproof, and impenetrable. Hence its great protecting power.

Strangely enough, it is exactly the same in composition as artificial silk, being in sheet form and generally undyed instead of thread form like the silk.

A British Columbia paper recently contained this classified advertisement: For Sale Baker's Shop G. of Trade Excellent oven, owner has been in 1 for 10 years.
