Any.

A most melancholy drowning accident occurred at Summerside yesterday after-noon, by which four children lost their lives. Five little girls, viz., Bell May Fraser, Laufs, Aggie and Janie Gallant, aged 11, 9 and 7 respectively, daughters of Laurence Gallant, and Daisy Perry, aged 6 years, daughter of William Perry, were digging for clams on the bar off the west end at low tide, during the afternoon. They went along from one bar to another, evidently not noticing that the tide was rising. Finally they found themselves surrounded by the water and started to wade ashore. Only one of the five, Aggie Gallant, succeeded in reaching the land, She waded through the water, which, in some places was up to her neck. She arrived home about half-past four and was the first to give the alarn. She said she had left the others trying to wide ashore and crying. A number of men immediate-bu started in bars to search for the four and crying. A number of men immediate-

had left the others trying to wate asnore and crying. A number of men immediate, ly started in boats to search for the four missing children. But it was soon evi-dent that the rapidly rising tide had over-whelmed the poor creatures and they were drowned. After dragging for some time three little bodies were found nearly side family. No less than ten members of the family are in religions.

McDONALD &

This fellow Ramsay makes a great noise for a young fellow. He blows a good deal about what he can do, and he says it with as much assurance as if he had been in the business fifty years. But this is one of the great faults of the young men of the day, thinking they KNOW IT ALL whether they do or not. But this fellow seems to have a ring of sincerity about him, and if he has the stock which he claims to have, he's got a nice stock, he's got the goods I want; he's got them at a smaller price than I have been paying for them. However, it don't cost anything to drop in and see his goods, and I am going to do it next time I go to Charlottetown. I'll just cut this advertisement out of this paper, put it in my pocket, take it with me, chuck it down at him, and then let him wriggle out of it if he can. He has then either to do as he says, produce the goods he says he has or eat his own words, and if he does that I guess he'll have indigestion so bad that he won't blow any more about his goods and values. Now that's logic. Honor bright. Ain't that the way you will reason it out? But will you take the trouble to test it? We will see.
