PECIAL SERMONS.

The Church, its Constitution, Pourdation and Security,—Borth Street Methodist

The first of a series of discourses on "The Christian Church," was delivered by the Rev. Mr Campbell in North St. church last Sunday evening. The text ras Matt. zvi. 18 :

"And I say also unto ther that thou art Peter, and upon this stock I will build my church, and the gates of Hell shall not prevail against it."

A sect or denomination as the

ath When the term Bishop is used in the New Testament, it is interchangeable with the term elder, and does not mean a higher order; therefore, the Christian clerry; and a presbytery, era Methodist conference of ministers, corresponds with the presbytery which ordained Timethy and gave him authority to or-dain other elders. The further ques-tions of office or pre-eminence among

an office provided for is the apostolic church, but this was no part of their work as deacons, but that to which they were afterward as led by the Holy Ghost.

Mr. Campbell will, next Sanday evening touch upon the doctrines, ordinances, government and worship of the We cordially agree' with all our coning touch upon the doctrines, ordinan-ces, government and worship of the church,

cil to Pay for Scott Act En

We learn from the Renfrew Mercury that, at a recent meeting of the town council of Renfrew, a motion was made for the payment of the local branch of

the Aviance of one-third of a Scott Act fine that had been collected:— Messrs. Clark and Henderson opposed the motion, on the grounds that though the law stated that one-third of Scott Peter, and upon this stock I will build my church, and the gates of Helfshall not prevail against it."

The subject was introduced by reference to the different uses of the term church, which are:

1. The universal, visible church.
2. The doctrines or faith of a church, as the cliurch of Rome, or the Protestant church.

Too Righ an Estimate by Half.

Speaking of the probable cost of printchurch stands with only one order of Franchise Act, the Toronto Globe says: ng the voters' lists under the new church stands with only one order of clergy; and a presbytery, or a Methodist conference of ministers, corresponds with the presbytery which ordained Timothy and gave him authority to ordained Timothy and gave him authority to ordained from Ottawa that revising officers shall not have the new voters lists printed more than twice. Even at this it is calculated the average cost of printing the clergy will come up under the head of Government in the church.

Of the laity in the apostolic church there were some chosen and ordained to apecial responsibility. These were called descous, and the daties which west upon church descous, church wardens, or church descous, church wardens, or church stewards in our ceveral branches of the church now. Some of these first deacons became evangelists, an office provided for in the apostolic church, but this was no part of their

temporary says, excepting its estimate of the cost of printing the voters' lists. It is possible that as fiberal an allowance as the Giobs estimates will be made for this work, but if there should be, it will be a Alex McKenzie intends to commence the harness business here shortly. He has leased the shop on Main street formerly occupied by Jas. Young as a carpenter shop.

John Lawson, of the base line, near this village, who for some time past has been declining, died on Sunday morning the Slat. Mr. Lawson was one of the oldest editers in this section he took up his farm here about 35 years ago. He was a kind friend, a good neighbor and citizen, and like many of the old settlars of this country lived respected and died regretfed. His remains were interred in Ball's cemetery; on Monday afternoon, a large number attending.

T. for the same was for the same will be a shame and a disgrace, and as great a fraud upon the people as the Franchise Act itself. South Huron may well be taken as a fair average constituency. It contains some seven municipalities. Now, seventy dollars would be a very liberal allowance for printing the lists for each municipality twice, and is more, proportionately werk. At this rate then the work should be done for, at an average of \$490 for each riding, or about \$103,300 for the whole Dominion, and if more than this is paid the work will out more than this is paid the work will out more than the it is worth. The Expositor will agree to do the work to the satisfaction of the revising barriaters, at these rates for one or more ridings, articles.
