A BRITISH FLEET TO CIRCLE GLOBE

British Government Planning to Send Warships Around the World.

London, Nov. 5.—It has been said that following the successful manoeuvres of the American navy, the British government is planning to send a fleet of warships around the world. Officials of the admiralty were questioned last evening but all they would say was: "There is no information we can give out on this matter."

GERMANY IS DISAPPOINTED

By the Election of Tait and Remoteness Of Tariff Revision.

Berlin, Nov. 5.—Germany has reason to be satisfied with Tait's election," said Ludwig Goldberger, privy councillor and member of the German Economic Commission, to a correspondent this morning. "Tait," he went on, "is a man of reliable and Conservative character. No wild surprises in the administration of American political and financial affairs need be expected. If he carries out his party's promise, respecting tariff revision, Germany have the right to hope for benefits from his election."

The opinion of the majority of German business men is distinctly less favorable. The extent of the reports showing bringing out comment unmistakably suggestive of disappointment. The sentiment most commonly heard is that while the United States, under Tait, will continue to expand as a world power, by the building up of the fleet and becoming still more dangerous as a competitor in the world's markets, the prospects of a tariff revision, so far as German trade, are now dim.

The re-election of Speaker Cannon is regarded as an especially unfavorable sign. "America's high tariff system, which is the greatest obstacle to closer relations being Germany and America," said Goldberger, "has not been more likely to undergo a change under Bryan than under Tait."

SPECULATED IN STOCKS.

Farmers' Bank Tiller Is \$8,000 Short In Accounts.

Toronto, Nov. 5.—Light is being thrown on the stock speculations of D. Cameron McCallum, former teller of the Farmers' Bank, by officers of the Canadian Detective Bureau, who have been closely in touch with McCallum since the return from New York of W. R. Travers, general manager of the bank. With what was turned into the Farmers' Bank yesterday by brokers and friends the shortage now stands between \$7,000 and \$8,000.

Inspection of the former teller's accounts is not yet completed and will not be for some days. The interests of McCallum are being looked after by Hon. A. G. Mackay, of Owen Sound. Although nothing has been said to McCallum or his counsel it is understood the bank management has decided upon prosecution in connection with the shortage discovered last Monday morning. The shortage originally discovered amounted to \$12,000, but a considerable portion has been made good.

\$50,000 FIRE AT BLANCHARD.

North Dakota Village Suffers Heavily From Flames.

Fargo, N.D., Nov. 5.—A \$50,000 fire, the loss half insured, occurred early today at Blanchard, Traill county. The fire was of unknown origin and started in Woodman's hall. That structure was destroyed as well as the Blanchard Mercantile company's store, A. A. Broten's general store, the McCom's hotel, Melking's butcher shop, Menving's news stand and residence and post office. Faulkner and Riley got their goods out of their store but, in a badly damaged condition and there was a heavy wind. George Cochran's large lumber barn, ten horses and all his harness and hay were destroyed by a fire at Ashley last night. There is no insurance. The loss is estimated at \$40,000.

THE ICE KING AND HIS TOOL ARE CONVICTED

Chas. W. Morse and Alfred H. Curtis Guilty of Violation of U. S. Banking Law—Morse Takes Verdict Without a Tremor, Curtis Breaks Down.

Sentenced to 15 Years. New York, Nov. 6.—Judge Hough this morning sentenced Charles W. Morse to fifteen years in the penitentiary at Atlanta. He sentenced Curtis to five years, but suspended sentence. Both were convicted of misappropriation of the funds of the National Bank of North America and making false entries.

New York, Nov. 5.—Charles W. Morse and Alfred H. Curtis were today convicted of violation of the federal banking laws in that they had misappropriated funds of the National Bank of North America, of which they were officers and had made false entries in the books of that institution. On the charges of conspiracy against the United States they were acquitted. Verdict was recommended to the mercy of the court.

Morse did not move a muscle as the foreman of the jury pronounced his doom. Curtis, whom Morse made president of the National Bank of North America and who was convicted with him in the case, demonstrated plainly that he was on the verge of nervous prostration. When the verdict was announced, his face flowed freely.

Both men stepped in a cell in the Tombs tonight. The court absolutely refused to accept bail for them pending their appeal for a new trial. They will be taken to the penitentiary at 10.30 tomorrow, when sentence will be imposed. The law provides for each of the charges of which they have been found guilty a penalty of not less than five years and not more than ten years' jail. It took the jury, seven of whom were engaged in the banking and brokerage business, 27 hours to find a verdict.

A Spectacular Wreck.

Winnipeg, Nov. 6.—A pitch-in between a big switcher and an incoming freight afforded a spectacular wreck in the west yards last night. The switcher claims it was backing down to dodge a street car, when the freight, which it was backing, was turned over and the wreckage caught fire, one car being consumed despite the efforts of the fire brigade. Both locomotives were badly smashed. The only injury was to Fireman Flude, of the switcher, who was badly scalded but bruised. The responsibility has not been placed.

Two Disappearances Cleared Up.

Powassan, Nov. 5.—The body of Geo. Brown, who disappeared two years ago while en route from Winnipeg to Hamilton, was found in Gibson Rapids yesterday. He had caught in a fall and was bared by the lowering of the water. Robert Chambers, who disappeared a few months ago, has also returned home. He had just married a widow and her relatives caused trouble at home. Neighbors' suspicions resulted in a detective inquiry but to no purpose, and Mrs. Chambers shortly after went to friends at Regina.

To Deport 'Hiving Immigrant.'

St. John, N.B., Nov. 5.—Before Judge Forbes today, Geo. Jones, who came to Canada from London in March, 1904, was found guilty of the theft of a watch and money from a fellow boarder in the Salvation Army travellers' home. Judge Forbes said he would send him back to England in the first winter post steamer, and that it was not necessary for Canada to spend \$120 a year for his maintenance in the Dorchester penitentiary.

Admiral Hauls Down His Flag.

Hong Kong, Nov. 6.—Rear Admiral Emery's flagship Louisiana arrived this morning. Admiral Emery, who returns December 17th, hauled down his flag this afternoon. There were the usual salutes, but no ceremonies. The Louisiana sails for Subic Bay tomorrow.

Timekeeper Roughly Handled.

Calgary, Nov. 5.—Gilbert Marshall, a young man, brought here from High Timber with his face distorted to pieces, was time keeper on a threshing gang. He was attacked by two men, thrown to the ground, his face distorted, and was probably broken by kicks.

The Premier Resumes Work.

Ottawa, Nov. 6.—The premier, who has been confined to his home for several days, was in his office, working, although he is still convalescent. Sir Wilfrid Laurier feels well enough to resume work again.

CRAFTY MOVE OF VON BUELOW

German Chancellor Revives Casablanca Incident to Divert Attention From Interview Muddle

Berlin, Nov. 5.—Unquestionably an ugly situation has grown out of the Casablanca incident. While there is no talk of immediate war between Germany and France there are such ominous mutterings, in high places, and in inspired by such an unbusinesslike feat. Some diplomats here hold that Chancellor Von Buelow is making the most out of his position, order to divert attention from the embarrassing position he was placed in by the Kaiser's interview and his own lame explanation of it. These diplomats say it is absurd to suppose that the question at issue is, of such importance as to arouse hostile feeling in the great nations. The best elements in Germany are opposed to any attempt to reap diplomatic victory in such a field in order to obliterate the effect of the German government's recent muddling and blinding indiscretions. There are great agitation at the French embassy tonight. Ambassador Cambon declines to make a statement but it is heard from embassy officials that he regards the situation sufficiently serious for extreme caution.

White Attempting to Board From Wrong Side J. Stewart Haskell Is Injured.

(From Friday's Daily.) The first serious accident on the Edmonton street railway occurred this afternoon shortly before twelve o'clock, between First and Second streets. The victim was J. Stewart Haskell, a well known contractor, who lives at 2225 Jasper street, and who now lies at his home suffering from a severe scalp wound and concussion of the brain, the result of which cannot yet be told.

Mr. Haskell attempted to board No. 2 car, that was returning from the west end of the city, while it was in front of the Heimich block. He mistook his footing and was thrown against one of the iron posts in the centre of the street, then struck the pavement heavily, striking on his head.

He was picked up in an unconscious condition and carried into the office of Dr. J. Douglas McLean, nearby. He is an experienced miner, having spent six years placer mining in the Yukon and Alaska. He was digging along the bed of Willow Creek, about three miles east of Sedgewick. Willow Creek empties into Iron Creek, which is a tributary of the Battle River. The color of the gold-bearing area is believed to be twenty miles in length and varying from a position 80 miles east of Sedgewick to a few hundred feet west of it.

BOND IS SUSTAINED IN NEWFOUNDLAND

Government's Majority is Now Four, With Six Constituents in Doubt, Likely to be Increased—The Returns to Date.

Halifax, Nov. 5.—Complete returns from Pictou, Twillingate and Fogo came in today. All of them have returned supporters of the government of Newfoundland, adding seven to the list of Premier Bond's followers. The ten shown to be elected for yesterday. The opposition ranks gained nothing by the returns that came in today. The opposition ranks with 12, a lead of five for the government. They are going back as fast as possible this afternoon to re-stake their claims according to law, and will then come up and file on them. They state that many other residents of that district are also staking claims along the creek and will file on them at once. The men expect to form a company among themselves to develop their claims. If they can do as well as expected it will introduce a new era of prosperity into the Sedgewick district.

NEW MISSION FOR KING.

W. L. M. King, M.P., Will Represent Canada at Pekin Opium Conference. Ottawa, November 5.—W. L. Macenzie King, M.P., the newly elected representative of North Waterloo in the Commons, will be Canada's representative at the International Opium Conference in January next on the suppression of the opium traffic. Mr. King made a special investigation into the opium question in Vancouver last spring, and a bill suppressing its use in Canada was passed on his recommendation.

LABOR WITHDREWS ITS SUPPORT.

Canadian Associated Press. Melbourne, Nov. 6.—In the Federal House of Representatives, in Melbourne, Australia, today, W. S. Her, the labor leader, announced that his party was unable to continue to support the government. Some leaders are urging the labor and the house rose. The laborers aim at either the ministerial benches or direct opposition. Premier Deakin will fight, and it is likely there will be a fusion of the government and the opposition, making a corner against the Laborists.

James Godfrey Fatally Shot.

Vancouver, Nov. 5.—James Godfrey, a well known lacrosse player, was fatally injured in a shooting accident at Union, Vancouver, Island, this morning.

Fisher Goes to Rome.

Ottawa, Nov. 5.—Hon. Sydney Fisher, Minister of Agriculture, left today for Rome. He will attend the meeting of the International Institute of Agriculture. He will be absent until the latter part of December.

Access Call to Moose Jaw.

Berlin, Nov. 5.—Rev. S. E. Marshall, M. A., has been invited to attend a call to Moose Jaw, Saskatchewan, succeeding Rev. E. J. Chegwinn, who may be invited to Berlin.

TWO KILLED IN COLLISION.

Accident on Grand Trunk Near Bowmanville, Ont.

Bowmanville, Ont., Nov. 6.—Robert Rowe and Joseph Gauthier, of Belleville, were killed, and Fireman Young seriously injured in an accident near here. The killed and injured were all on board freight engine No. 423, going west, which ran into an engine which was stalled waiting to push a freight into the yards up a grade. Rowe, the engineer, apparently failed to see the light of the train ahead. The victims were all married men. The engines were badly smashed.

FIRST ACCIDENT ON STREET CARS

While Attempting to Board From Wrong Side J. Stewart Haskell Is Injured.

(From Friday's Daily.) The first serious accident on the Edmonton street railway occurred this afternoon shortly before twelve o'clock, between First and Second streets. The victim was J. Stewart Haskell, a well known contractor, who lives at 2225 Jasper street, and who now lies at his home suffering from a severe scalp wound and concussion of the brain, the result of which cannot yet be told.

Mr. Haskell attempted to board No. 2 car, that was returning from the west end of the city, while it was in front of the Heimich block. He mistook his footing and was thrown against one of the iron posts in the centre of the street, then struck the pavement heavily, striking on his head.

He was picked up in an unconscious condition and carried into the office of Dr. J. Douglas McLean, nearby. He is an experienced miner, having spent six years placer mining in the Yukon and Alaska. He was digging along the bed of Willow Creek, about three miles east of Sedgewick. Willow Creek empties into Iron Creek, which is a tributary of the Battle River. The color of the gold-bearing area is believed to be twenty miles in length and varying from a position 80 miles east of Sedgewick to a few hundred feet west of it.

The gold was first discovered by Mr. Peterson, on whose homestead it is located. He is an experienced miner, having spent six years placer mining in the Yukon and Alaska. He was digging along the bed of Willow Creek, about three miles east of Sedgewick. Willow Creek empties into Iron Creek, which is a tributary of the Battle River. The color of the gold-bearing area is believed to be twenty miles in length and varying from a position 80 miles east of Sedgewick to a few hundred feet west of it.

MADE ERROR IN STAKING.

The men who are in the city today came here with the idea of filing on the claims they had already staked out. When they went to the Dominion Land Office this morning they found that they had staked 100 feet square, whereas the size of the placer claims allowed by law are 100 feet long and from high water mark to high water mark, or from bank to bank.

They are going back as fast as possible this afternoon to re-stake their claims according to law, and will then come up and file on them. They state that many other residents of that district are also staking claims along the creek and will file on them at once. The men expect to form a company among themselves to develop their claims. If they can do as well as expected it will introduce a new era of prosperity into the Sedgewick district.

WORKMEN ARE NEGLIGENT.

Next to Impossible to Secure Careful Handling of Explosives. Winnipeg, November 6.—Speaking yesterday S. R. Poulin, engineer of District "F" of the National Transcontinental, expressed his regret that the accidents near Ingrid and Dryden should have happened. They seem to him absolutely inexplicable, except on the theory that there had been negligence. It was not possible to make men take the proper and necessary precaution in view of the approach of frost. Mr. Poulin said he had sent out, about six weeks ago, to every contractor and sub-contractor in district "F," a parcel of printed instructions, with regard to the handling of explosives, and dealing particularly with the proper and safe method of thawing dynamite.

Big Fire on Halifax Waterfront.

Halifax, November 5.—For three hours this evening the entire fire-fighting apparatus was battling with flames in Black Brothers' four-story brick building on Water street, and it looked for a time as if the entire waterfront block, including the Pickford & Black's steamship warehouse, would be swept away. The fire started in a room on the top floor of the building, in which a large quantity of pressed hay was stored. Four firemen were injured and had to be removed from the scene.

A GOLD STRIKE AT SEDGEWICK?

Homeseaders Discover and Locate Rich Bearing Placer Claim—In City Today.

Reports of a rich gold strike in the vicinity of the town of Sedgewick, of the Wetaskiwin branch of the C.P.R., have been in the minds of the community at present, and it is reported received from there are correct, and the gold prospects are realized. Sedgewick will shortly spring into the news.

LIVERPOOL TO QUEBEC IN LESS THAN SIX DAYS

A New Ocean Record in Trans-Atlantic Travel Established by the Celtic, Pacific Line's Empress of Ireland, which Arrived in Quebec Yesterday Afternoon.

Montreal, Nov. 6.—Less than six days from Liverpool to Quebec is the record for ocean travel established by the Celtic, Pacific Line's Empress of Ireland, which arrived at Quebec yesterday afternoon at 3.20 p. m., after the fastest voyage ever made between those two points.

Leaving Liverpool bar at 6.33 p. m. on Friday last, Captain Forster reported Tuesday afternoon at 3.50 p. m. from a position 80 miles east of Belle Isle that the average speed to that point had been 18.3 knots per hour and the weather up to that point moderate and since then moderate sea.

The next word from the ship was received at 10.30 p. m. on Wednesday night in clear weather and slight westerly winds. At 11 minutes past eleven Tuesday morning the Celtic was 27 miles northeast of Health Point lightship, and reported increasing southerly wind and snow threatening. At 6.50 p. m. she reached past Fame Point, showing a speed for the last 145 miles of nearly 19, or to be exact, 18.95 knots per hour. At the rate she sailed, the Empress of Ireland landed her mails at Rimouski and took passengers from London on Friday afternoon and landed them in Quebec the following Thursday early in the afternoon. Montreal Thursday night, Calgary Monday morning.

The Celtic is a fine specimen of a performance of which the Canadian Pacific railway may well be proud, and it is one which will go far towards helping and still further enlarging the tide of ocean travel which has turned to the St. Lawrence route.

TARIFF REVISION AT ONCE.

Congress May Consider This Question at a Short Session.

Washington, Nov. 6.—With nothing to hinder the formulation of plans for the approaching session of congress and the extra session which the new tariff revision is pledged to convene, party leaders are now giving serious consideration to a plan to rush the tariff revision through at the earliest possible moment. It is admitted on all sides that uncertainty will prevail in certain lines of industry until the tariff is revised. Some leaders are now devising to take up the tariff revision at a short session instead of waiting until the regular session of congress.

Senator Aldrich, called at the White House today and exchanged views with the president on his election. He said that in his opinion the house could easily take up the tariff at a short session.

WORKMEN ARE NEGLIGENT.

Next to Impossible to Secure Careful Handling of Explosives.

Winnipeg, November 6.—Speaking yesterday S. R. Poulin, engineer of District "F" of the National Transcontinental, expressed his regret that the accidents near Ingrid and Dryden should have happened. They seem to him absolutely inexplicable, except on the theory that there had been negligence. It was not possible to make men take the proper and necessary precaution in view of the approach of frost. Big Fire on Halifax Waterfront.

Halifax, November 5.—For three hours this evening the entire fire-fighting apparatus was battling with flames in Black Brothers' four-story brick building on Water street, and it looked for a time as if the entire waterfront block, including the Pickford & Black's steamship warehouse, would be swept away. The fire started in a room on the top floor of the building, in which a large quantity of pressed hay was stored. Four firemen were injured and had to be removed from the scene.

NEW YORK SENATORSHIP.

Lively Contest in Anticipated—Four Names Are Mentioned.

New York, Nov. 5.—The lively senatorship fight this state has had since the time when Frank Hitchcock, defeated Warner Miller and Levi P. Morton away back in 1888 is predicted over the selection of a successor to Senator Platt. The legislature just elected will hold a caucus in January on the choice of a new senator. It will be such a spirited contest that the election is not likely to be known, much, if any, in advance of the caucus. It is more gossip, therefore, to pick out a probable winner at this time. Three names, which are much discussed are: Whitelaw Reid, Elihu Root and State Chairman Woodruff. President Roosevelt's name is also mentioned.

LIVERPOOL TO QUEBEC IN LESS THAN SIX DAYS

A New Ocean Record in Trans-Atlantic Travel Established by the Celtic, Pacific Line's Empress of Ireland, which Arrived in Quebec Yesterday Afternoon.

Montreal, Nov. 6.—Less than six days from Liverpool to Quebec is the record for ocean travel established by the Celtic, Pacific Line's Empress of Ireland, which arrived at Quebec yesterday afternoon at 3.20 p. m., after the fastest voyage ever made between those two points.

Leaving Liverpool bar at 6.33 p. m. on Friday last, Captain Forster reported Tuesday afternoon at 3.50 p. m. from a position 80 miles east of Belle Isle that the average speed to that point had been 18.3 knots per hour and the weather up to that point moderate and since then moderate sea.

The next word from the ship was received at 10.30 p. m. on Wednesday night in clear weather and slight westerly winds. At 11 minutes past eleven Tuesday morning the Celtic was 27 miles northeast of Health Point lightship, and reported increasing southerly wind and snow threatening. At 6.50 p. m. she reached past Fame Point, showing a speed for the last 145 miles of nearly 19, or to be exact, 18.95 knots per hour. The fire started in a room on the top floor of the building, in which a large quantity of pressed hay was stored. Four firemen were injured and had to be removed from the scene.

JOHN H. TRANTER HIS FOUND GUILTY

Strathcona Gent's Furnisher Convicted of Criminal Charge of Not Keeping Books.

(From Friday's Daily.) John H. Tranter, proprietor of Strathcona, was convicted this morning in the Supreme Court on the criminal charge of not keeping books of account to show his transactions. His Lordship called the evidence in the case.

The defendant was also indicted on the charge of selling or disposing of part of his stock of goods and merchandise with intent to defraud his creditors. His Lordship held there was no evidence to substantiate this and dismissed the action.

The prosecutor was conducted by Crown Prosecutor Cogswell. C. L. Newell acted for the plaintiff company, and O. M. Biggar for the defendant.

The first witness called was Mr. Williams, Winnipeg manager of the J. W. Peck Co. He testified that he had advised that a brokerage sale be held. He also requested that weekly statements of the sales be made. The defendant's witness testified that the sale was not made and that the defendant assign to him.

Elmer Essery, Mr. Thompson, and S. Hill, salesmen of the defendant, were also called. They testified that the sale was made and that the defendant assign to him.

The crown called on Henry Clarke, bookkeeper, for the defendant, who said that he had acted in that capacity for about a year. He gave a monthly statement to the defendant, but the defendant had not made any of the statements for some time. The defendant's witness testified that the sale was not made and that the defendant assign to him.

Mr. Biggar contended that there was no evidence that the defendant had made any sale of property on his own account, but that he had acted in that capacity for about a year. He gave a monthly statement to the defendant, but the defendant had not made any of the statements for some time. The defendant's witness testified that the sale was not made and that the defendant assign to him.

"The evidence shows," said Crown Prosecutor Cogswell in reply "that the sale was not conducted in accordance with the wishes of the creditors. Moreover there is no evidence to show that books were kept to record his transactions."

His Lordship in summing up the evidence held that there was no charge of fraud sustained but stated that the defendant was liable under section 417 of the Criminal Code for not keeping his books in order.

Mr. Biggar said that he had not contemplated His Lordship taking this construction of the case and before the court adjourned that evening requested that the opportunity be given to enlarge the evidence for the defence.

Henry Clarke was called to the witness box this morning. Mr. Biggar said that he had not contemplated His Lordship taking this construction of the case and before the court adjourned that evening requested that the opportunity be given to enlarge the evidence for the defence.

"You made no record of business after September 30, except on the sheriff's order," asked His Lordship. "No, sir," was the reply.

Mr. Biggar said that he had not contemplated His Lordship taking this construction of the case and before the court adjourned that evening requested that the opportunity be given to enlarge the evidence for the defence.

His Lordship found the defendant guilty under section 417 (c) of the Criminal Code, but granted a writ of appeal on the request of Mr. Biggar. The Manual Case.

The case of Rex vs. Geo. M. Manuel
