12 Workmen Trapped
Like Rats in a Sewer and Suffocated to Death.

Newark, N. J., Feb. 1.—Trapped like rats, twelve workmen, all negroes, were suffocated to death here last night in a caisson in the Passaic River. The victims constituted a night shift engaged in work preparatory to the reconstruction of the Centre St. Bridge between here and Harrison.

IT'S OF INTEREST TO EVERY PERSON

How Ovilla Marcotte's Bright's Disease Was Caused and Cured.

A cold was the cause and Dodd's Kidney Pills the cure. His recommends them because he has proved them good.

Laford, Alta., Feb. 6.—(Special)—In these winter days, when nearly everybody has a cold, and the cold goes to the weak spot, backache and other symptoms of kidney disease are almost epidemic.

For this reason the statement of Ovilla Marcotte of this place is of interest to every one. I'm having a cold, I developed backache, kidney disease, and finally the dreaded Bright's Disease. Dodd's Kidney Pills cured him. Here is his full statement.

For three years, due to a cold I suffered with backache, kidney disease and Bright's Disease. I was treated by a doctor, who did me no good. It was four boxes of Dodd's Kidney Pills did the work. I recommend Dodd's Kidney Pills to all persons who suffer from diseased kidneys.

That Destitution Case.

The exclusive reference in Saturday's Telegram to the destitute condition of the Davis family brought to them ample assistance, and yesterday they were visited by Mrs. John Harvey, Mayor Ellis, Rev. Dr. Greene, the Officers of the Salvation Army and the St. Vincent de Paul Society. When Head Dave discovered them he immediately relieved them at his own expense, and then I. G. Sullivan saw that they were provided with fuel and other necessaries also. Those who visited the unfortunate people first said that they never imagined human beings could live under such awful conditions. They reside in the upper flat of the house, which was open in several places, and in the under flat all the windows were out and the winds had full sway in it and sent draughts up through the open seams of the floor overhead. This under portion of the building was in a terrible condition of filth, and the wonder is that some disease had not broken out in the house long ago. The people had absolutely no bed or bedding and lived in this condition for over a year. Not only did the rats bite the woman as she slept, but her son was also gnawed about the arms by the rodents. Had they been left unnoticed for 24 hours longer they would have been found dead in their squalid home. Charitable people are now arranging to have them placed in a more comfortable house, and Dr. Fraser is attending them. There is more destitution in St. John's this winter than for many seasons past. Recently a case was brought under a man's notice where the father of a family of four was driven by sheer privation to ask a total stranger for coal which was given him. For several months he had been in hospital, and for two weeks had lived without fire despite the fact that one of his children was a newly born infant. The man was too proud to allow friends to know of his condition and when forced to do so felt it keenly. Some of the charitable societies will soon call on the well-to-do for funds, and no doubt will meet with the usual generous response. Succour for the deserving poor was never more needed than this winter.

We were well treated at Fair Haven by our hostess, and on leaving to continue our ramble, she presented my little daughter with a large bunch of rich lilacs. Flowers and children are amongst the most beautiful things that this life affords, and while on entering the grounds we felt rich in the company of our little daughter, on leaving we felt even more so, because the picture of the child was enhanced by the rich flowers which she held in her hand. And besides these, we felt richer in the friendship of the lady who had so liberally presented the flowers to the child; for we saw that the gift was not a niggardly one, but that it was given with a full heart and becoming grace. We have seen gifts given that were marred in the giving, but no so in this case, the giver and the receiver with the name and record of the gift.

"Absolutely Alright."

That is what an authority says of Magic Headache Powders. They cure—no ill after effects, which is all right. The price 10 cts. is all right. W. T. COURTENAY, corner Duckworth and Prescott Streets.—Jan 7, 11

Another Case of Typhus

Another case of typhus developed last evening at the residence of Mr. Albert Strong, who was stricken with it Sunday. The man who became ill yesterday is named Quinlan, and he was removed to Hospital to-day. He has been staying with the family for some time past. Six of the patients now in Hospital were dangerously ill last evening and raving in the delirium, which is a feature of this awful disease. The others are doing well, and Nurse Ellis has safely passed the critical stage. There are now 12 cases in Hospital.

Bankers Sailing Early.

As we stated a couple of days ago the bankers on the West Coast will leave for the grounds this year earlier than ever before. The Gertrude, Capt. W. Kennedy, will sail to-morrow, and most of the fleet about Burlington, St. Jacques and Harbor Breton will go in about ten days time. Bait is plenty and there is every evidence of plenty of cod on the grounds.

Holiday Notes for 1910.

I. C. MORRIS. Chapter IV.—We Visit Fair Haven, and also A Scene of the Long Ago.

Every visitor to Manuels has seen the gateway by the waters of Long Pond which bear the name "Fair Haven." This secluded nook is the property of Captain Noble, and has been his abode since his retirement from his railway career. Like most people, we had only seen the spot, but had never been within its gates, nor did we expect to, but as is often the case the unexpected happened, and quite to our delight we found ourselves the guests of the Haven. This privilege was due to the kindness of Mrs. Squires, wife of our talented and popular citizen, Mr. R. A. Squires, M. H. A. We were sauntering along, when behind us we heard her kindly invitation to come and see the grounds. In such a case a second invitation was not in the least necessary, and in a moment we were inside the gates, and enshrouded in its trees, and were inhaling the aroma of its flowers. We noticed that the proprietor, Capt. Noble, had gone on a visit to some friends in Canada, and that Mr. Squires had rented the place for the summer months. We found the grounds smaller than we had expected, but finally up to the mark of our ideas of it as a haven of rest, and as a fitting spot for quiet and recreation.

On finishing our conversation about the old table, and about the old-time family who owned it—we didn't gossip—I said to our hostess: "The dinner which you gave me thirty-three years ago and the tea which we have partaken of this evening are much about the same. The fare hasn't changed—nor has your face changed much in that long time. We then had black tea and bread with some half-dried caplin, and some new potatoes. This evening we have had black tea and bread and also some caplin, the only difference being that we have not had the new potatoes. Evidently plain fare has agreed with you, as youth still lends vitality to you." Of the food she didn't say much, but she smiled at what struck her as the quaint way in which I had put it, and appeared, considering that she had passed twenty-one at her former meal. She had lived a plain and natural life, and as a result she was the benefactress; for myself, I had almost lived life twice over, and had paid such a penalty, as at times made me wonder why it was so.

Bad Case of Eczema Cured by Zam-Buk.

Another case of the healing power of Zam-Buk, in cases of eczema, is to hand from Winnipeg. Mrs. H. Cross, of 176 McIntosh Ave., Elmwood, is the subject and gives the following facts with a view to leading other sufferers to a means of cure. "For five years," she says, "I was terribly afflicted with eczema on my legs, and despite all the doctoring and numerous remedies I tried, I seemed unable to get relief. The disease first started with watery blisters, which itched terribly, and when rubbed, burned and smarted very much. The pustules then spread and formed sores. These were irritable and very painful. One blister was no sooner rubbed—or I might say touched—than another started.

They soon spread over both limbs, and I suffered much inconvenience. I tried various remedies, as they were recommended, but could find no relief. Ordinary salves and ointments seemed unequal to my case.

"At last a friend suggested my using Zam-Buk. I acted on this advice and began the Zam-Buk treatment. A few applications gave me considerable ease, and the burning, smarting pains were reduced. I persevered with the balm, and in the course of a week the disease was under control and the sores healing. From that time forward I continued to improve, and the sores, too, became less and less troublesome, until in a wonderfully short time, considering the seriousness of my case and the long time I had been suffering, Zam-Buk worked a complete cure.

Such is the nature of the great cure which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bites, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns and bruises. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., St. John's, Nfld., upon receipt of price. Refuse harmful imitations and substitutes.

Died at 108.

Whitby, Ont., Jan. 31.—The oldest person in this vicinity, so far as known, died at the Ontario County House of Refuge on Saturday evening. Samuel Laughin, known as "Sammy Lone," was, as near as could be recorded, 108 years of age. He was an Irishman.
