

Fishermen! Here's the Boot for You-"Excel"!

"EXCEL" Made "All in One Piece"

"EXCEL"

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen how salt water seems to take the life out of rubber and how the uppers crack and the soles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets. The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the drying-out action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wear-proof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "fire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots. The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of

strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study this picture. Learn these features. Remember them when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

Pliable Uppers. Weatherproof and Wear Resisting. Tough Tire Tread Soles. Made "All in One Piece."

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

Whitbourne Notes.

Rev. E. Hunt of New Harbour, N. B., detained here for Finance Cove, a distant part of his mission, on Friday the 11th inst.

Whitbourne was startled, not to say horrified, shortly after dark on Friday, the 11th, to see lurid flames and smoke ascending from the roof of Mrs. Pettipas's picturesque and fine old home; a strong westerly wind blowing at the time, the building was soon enveloped in the cruel flames. A crowd quickly gathered, and strenuous efforts were made to save the household effects, but very little could be saved, as the fire occurring in the attic, the second story was soon ablaze, and in an incredibly short time (forty minutes) the building was razed to the ground; the cellar and bath adjoining were fortunately uninjured. Mr. and Mrs. Peter Pettipas, who were recently married, have practically lost all; the sum of nearly two hundred dollars included, and much sympathy is felt for them, and Mrs. Pettipas, senior, who dearly loved her home, and was noted for her hospitality and kindness of heart. Collections are being made among friends to help alleviate their trying circumstances somewhat, and already a gang of men are cutting and hauling logs for a temporary home.

Mr. and Mrs. E. Tipple and family, who were burnt out barely two weeks ago, are at present renting the Methodist Parsonage, which happened to be unoccupied.

Rev. J. Reay, who has lately returned from England, arrived at Whitbourne on Tuesday, 15th, and is looking very well after his voyage across the Atlantic. Mr. Reay is intending to settle down once again at Whitbourne, we understand.

Thursday, 17th was a gala day for the good people of the Anglican communion here, for His Lordship Bishop White, accompanied by his Chaplain, Rev. Jacob Brinton, arrived by the noon train. The Bishop was given a hearty reception, and was met at the station by the clergyman, and church wardens and the L.O.A. Band made things lively. The good and much loved Bishop was then conveyed in carriage to the C. E. Parsonage, boys big and small, hauling the carriage up the road, accompanied by the whole school; hunting and arches made everything wear a festive look, and a fine day added to everyone's enjoyment. During the afternoon the Bishop was driven by Mr. J. Rogers to Blaketown, where a Confirmation Service was taken by the Bishop, who returned to this settlement, and a similar service was held at 7.30. Bishop White and Chaplain returned to town by the morning train on Friday, 18th inst.

We are glad to see Mr. Peter Pettipas' friends are determined to help him out with a new house, and a nice little bungalow is now being built up on the old site, and willing hearts and busy hands are now engaged in the good work.—CON.

Nov. 19, 1921.

AT THE BALSAM.—The following are guests at Balsam Place: Mr. J. H. Dean, Manchester; Mr. J. T. Croucher, North Sydney; Mr. R. J. Murphy, Grand Falls; Mr. N. Grant, Angel Brook; Mr. J. Morgan, Bay Roberts; Mr. M. Davis, Grand Falls; Mr. W. A. McEzgar, city.

Minard's Liniment Believes Neuralgia

Bell Island Cadets.

"G" WABANA CO. MAKING GREAT PROGRESS.

Last week was another most successful period for the Catholic Cadet Corps "G" Wabana Co., Bell Island. Nearly twenty recruits joined during the week, bringing the total strength up to 260 all ranks. On Monday evening a largely attended Card Tournament was held in the Star Hall by the Officers Mess, over seventy devotees of the "game of auction" attending. The proceeds go to the Band Fund. On Tuesday notwithstanding the fearful hurricane raging, many of the Senior Company under Lieut. Thos. Neary attended at the Armory, and all assisted at fatigue work that urgently needed attention. Wednesday, Friday and Saturday saw the Band under the able tuition of Instructor A. S. Murray at work, and a start was made on parade to full strength. The Band are making rapid strides and after New Year with the generous co-operation of friends it is hoped to increase the number of instruments from twelve to nearly twenty. On Wednesday at Lance Cove Lieut. Patrick Stoyles had his Lance Cove picnic on parade to full strength. The Lance Cove lads are taking a great interest in their platoon and a club is being formed among the senior lads. During the week several card tables were sent to Lance Cove for the use of their newly formed Cadet Club.

Thursday saw a transformation in the Armory when instead of the usual throng of boys and young men the Ladies' Committee, composed of the mothers and sisters of the Cadets turned out in strong numbers and under the chairmanship of Mrs. W. E. Murphy, assisted by Mrs. J. L. Connors, Vice-President and the other members of the Executive a most suc-

cessful meeting was held. Another ladies signing the roll, which now numbers nearly fifty. Arrangements were made to hold a Card Tournament in St. Peter's Hall on the 31st under the management of Miss Nellie Denahy, the capable Secretary of the Committee; while the Committee meet again Thursday night to finalize matters for the big dance on Friday night in the Star Hall, which the ladies are running off.

Friday night saw the Armory filled to capacity, when over 100 of the Junior Company besides the Bugle Band numbering twelve and the Brass Band numbering nearly fifteen were on parade. Capt. John Murphy was Orderly Officer and Lieut. Tom Connors proved an able assistant. Major J. M. Greene inspected the parade and was accompanied by Rev. Fr. Edward J. Rawlins, who visited the Armory officially, and in an eloquent address to the boys exhorted them to be true Cadets, to attend regularly and to be true to the ideals which the Brigade espoused. Cheers were given, right heartily for Rev. Fr. Rawlins, after which he visited the Band Room and congratulated the bandmen on the work they are doing.

This week is also a busy week in Cadet circles—something is scheduled for every night—the Seniors meeting Tuesday; the Juniors on Friday; the Band practicing Monday, Wednesday and Saturday; drums and bugles parading Thursday; the big Dance being

held on Friday, while on Saturday all ranks are being tendered the annual treat by the Officers at the Star Hall.

BRONQ

"A Pleasure To Take"

our Cough and Cold Cure, because it is composed of pure and harmless drugs.

No cough remedy has ever been discovered that will cure every cough, but we think we have one that comes a little nearer to doing it than most of them. We have prepared it for years. It has been tried in all manner of cases and given satisfaction. We ask you to "remember" and try this:

Because it is safe. Because it is most certain to cure. Because it is pleasant to take. Because it is equally good for children or adults.

How fine cooks make cream soups to-day

After eating a rich cream soup somewhere, do you sigh and say to yourself "If I could only afford to use real cream, I could serve soup like that, too!"

The chances are that the soup you would like to duplicate was not made with cream at all. For many fine cooks have learned a culinary secret that makes of cream soups a banquet dish at every day cost.

The secret is—make them with Libby's Evaporated Milk. For twenty years Libby has worked to give a finer and richer milk to consumers. Their plans were far-reaching. First they sought out the finest pasture lands in America. There they encouraged the breeding of splendid milk herds and the use of all the appliances and practices of scientific dairying. And there they established their milk condenseries so equipped as to assure absolute purity and cleanliness.

At those condenseries the whole milk from the fine herds, with the cream left in, is canned for you. Half the moisture is taken from it by evaporation. Nothing is added to it. So you have in this milk just the rich, pure product of the finest cows, but with twice the food value, twice the butter fat, of ordinary milk.

This milk makes cream soups so smooth, so rich, so mellow that they taste like the soups made by extravagant cooks.

Used in coffee, this milk gives a creamy richness at half the cost of cream.

Try it in your favorite recipe where cream or milk is called for.

Your grocer has it or can get it for you.

Prohibition in U. S. A.

ITS EFFECT ON SOCIETY.

Prohibition in U. S. A. is evident from the fact that in the Metropolitan Magazine, Prohibition officials are doing their best to stop liquor, smuggling. Shepherd says: "I talked with enforcement officials, sheriffs, town officials and other officers in Florida and in a number of other places in the United States."

One man who had been head-waiter in a restaurant informed Mr. Shepherd he had \$60,000 in a New York bank, the result of his bootlegging operations. He also had \$30,000 working capital. When his bank balance arrives at \$90,000, he will retire from the risky business.

A resident of the State of Louisiana told Shepherd that his State never went dry for white folks. "Whenever we voted dry by local option we were voting the niggers dry. My niggers are dry and I'm going to keep them dry."

We can almost fancy one of our Water Street Prohibitionists saying: "We want to keep our labourers and the fishermen dry."

I may add that in Mr. Shepherd's opinion all the Prohibition officials including those in the department of justice, are in deadly earnest. And

for the lodge of which he (Cox) was a member and the man, being under oath, had to confess that he had lent money to boot-leggers. Still it was Cox's opinion that "you can't lick a whole community." Wise Marshal Cox!

One official seized liquor in a semi-public building in which President Harding had been entertained a few weeks before. The President sat within fifteen feet of the cache.

One man who had been head-waiter in a restaurant informed Mr. Shepherd he had \$60,000 in a New York bank, the result of his bootlegging operations. He also had \$30,000 working capital. When his bank balance arrives at \$90,000, he will retire from the risky business.

A resident of the State of Louisiana told Shepherd that his State never went dry for white folks. "Whenever we voted dry by local option we were voting the niggers dry. My niggers are dry and I'm going to keep them dry."

We can almost fancy one of our Water Street Prohibitionists saying: "We want to keep our labourers and the fishermen dry."

I may add that in Mr. Shepherd's opinion all the Prohibition officials including those in the department of justice, are in deadly earnest. And

yet he acknowledges that Prohibition is a failure.

In my next letter I shall show how Prohibition is regarded as a joke in the United States.

Yours truly,
WARWICK SMITH.

QUIT TOBACCO

So easy to drop Cigarettes, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the opium, nervous-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

Schooner Reported.

The Marine and Fisheries Department received a message yesterday from the operator at King's Point stating that the schooner Hilda Maude was in that vicinity, all well. For some days past there has been anxiety concerning this vessel, as it had been reported by Capt. Newall of the scho. Hilton that about two weeks ago the Hilda Maude had left Hoopings Harbor in a leaky condition.

Shipping Notes.

Schr. Jean Campbell is loading at St. Anthony for Gibraltar for orders. Schr. Little Stephen is now due from New York with a cargo of anthracite coal to Capt. A. Kean.
